SIX SHOT IN BANK HOLDUP NETTING $500

74 INDICTED ON CHARGES OF VOTE FRAUDS

Election Judges, Politicians And Office Holders Are Accused By Jury

ST. LOUIS, Mo., Jan. 12.—Seventy-four persons, including forty-seven judges and clerks of election and twenty-seven other office holders and politicians of both parties, were indicted by the grand jury at Clayton, St. Louis suburb, on charges of vote frauds in the August, 1922, primaries. The names are included in one blanket indictment which was formally reported by the grand jury today.

Among those indicted are Frederick Essen, St. Louis county Republican boss; former County Clerk Wm. Seibel; Anthony P. Foley, and a number of alleged gangsters.

The Democrats on the list include Al G. Bruce, former secretary of the St. Louis county Democratic committee.

Three women also are named in the true bill.

BEAUTY DIRECTS $20,000 GEM RAID

Police Hunt Girl Leader of Bandits Who Held Up Jewelry Dealer

DENVER, Jan. 12.—Denver's underworld is today being combed by the police in an effort to ferret out a beautiful girl desperado and her two male companions, who last night held up the Christensen & Jacobson Diamond company, and escaped with gems valued at between $20,000 and $25,000 while hundreds of people thronged the street.

Under the command of the girl bandit, one of the two men stepped to the side of Christensen, who was removing the jewels from a show case and ordered him to "stand where you are."

Escape in Auto

With a revolver pressed to his side, Christensen was ordered to hand over the bag containing the valuables. He then was marched to the basement of the establishment while the bandit retraced his steps to the street and entered a waiting automobile.

The woman, who was described as being unusually attractive, engineered the robbery on the sidewalk in front of the automobile. Police declared the robbery was one of the most sensational that has occurred here in years, equaling in daring and cunning that of the Denver mint more than a year ago.

Greek Ministry Will Assume Duties Today

ATHENS, Jan. 12.—The new Greek cabinet formed by Ex-Premier Eleutherios Venizelos was expected to begin functioning today. The next step insisted upon by Venizelos is a national plebescite to determine the future of the Hellenic dynasty. The ministers took the usual oath pledging loyalty to the king. Venizelos said that the greatest obligation on the government is to avert civil war.

RAILROAD MAN DIES

OAKLAND, Cal., Jan. 12.—Edward Entelman, 46, superintendent of telegraph service for Southern Pacific railway, is dead at his home here after an illness of several months. He was a native of California and began his service with the railway in 1895 at Bethany, Cal. During his service he was trainmaster at Los Angeles and assistant western superintendent at San Francisco. He is survived by a widow and two daughters.

TREASURER FALLS DEAD

WASHINGTON, Jan. 12.—Jose W. Bonner, treasurer of Porto Rico, dropped dead in his office at San Juan this morning, according to a cable dispatch to the war department this morning.

Grand Army, Women's Relief Corps Annual Installation Is Held

IMPRESSIVE SCENE WHEN OFFICIALS TAKE STATIONS

T. C. Fuller New Commander of Post; Mrs. M. Bennett Becomes President

By H. THOMPSON RICH
Of The Evening News Staff.

Another beautiful scene in the last act of America's greatest drama was unfolded yesterday when the annual joint installation ceremonies of the General N. P. Banks post of the Grand Army of the Republic and Women's Relief Corps were held in the G. A. R. Hall at 902 South Glendale avenue.

While the W. R. C. installation in the afternoon was perhaps more perfectly executed, there was about the G. A. R. ritual in the morning something of the undying glory that has lit their generation forever.

Dramatic Scene

There stood Commander T. M. Barrett, about to retire in favor of Commander-elect T. C. Fuller, after a wonderful year of unselfish service. Erect and proud he stood, a smile on his face despite the tightly bandaged chest that held in place a broken rib.

There stood R. N. Taylor, thirty-fourth time officer of the day, and there Rev. C. R. Norton, fourteenth time chaplain of the post. And many others took posts held for years.

They walked still more slowly to their stations, this year, those brave old veterans who preserved the Union through the terrible years of '61 to '65, but the determination to "carry on" until the end was in their eyes, a determination that could be no better exemplified than by the fact that but one officer-elect was absent—Comrade Charles I. Peirce, post surgeon—and he only by reason of illness.

Impressive Service

The installing officer was J. P. Carlin of the Long Beach post. Special officer of the day was W. S. Tilton of the local post.

Installation opened with the singing of two verses of "America," after which Captain Norton invoked the Divine blessing. The color bearers of the W. R. C. then escorted the installing officers to their seats and the ritual took place, the officers installed being:

T. C. Fuller, commander; W. G. Collins, senior vice-commander; W. H. Emick, junior vice-commander; Rev. C. R. Norton, chaplain; C. I. Pierce (absent), surgeon; R. N. Taylor, officer of the day; S. W. Hammon, officer of the guard; C. H. Clark, adjutant; T. A. Robinson, quartermaster; J. A. Thayer, color bearer; G. T. Dorrance, sergeant major; G. W. Sanford, quartermaster sergeant; and T. M. Barrett, retiring commander, named by Commander Fuller as patriotic instructor.

Called High Honor

Following installation Commander Fuller spoke briefly, declaring it a supreme honor to preside over a Grand Army post. Chaplain Norton also spoke, telling the post and corps what a privilege he esteemed it to hold

MELLON INVITED TO TAX DEBATE

Couzens Hurls Challenge at Treasury Chief In Reduction Row

WASHINGTON, Jan. 12.—One of the wealthiest men in the country today challenged Andrew W. Mellon, secretary of the treasury, to a public debate on the merits of the Mellon tax reduction program.

The challenge was issued by Senator James Couzens, Republican of Michigan, who in a letter to the secretary of the treasury, admitted that he, Couzens, paid an income tax of $7,229,161.75 in 1919.

Notwithstanding this, and the great amount of money he personally would save under the reduction of surtaxes on big incomes, the Michigan senator declared he was opposed to lessening materially surtaxes on the rich.

Check Ex-Convict's Account of Murder

SALINAS, Cal., Jan. 12.—Police were preparing today to further question Richard Shay, asserted ex-convict, whose story of the murder of a stranger during the looting of a clothing store near Milwaukee in 1920, implicates him in the crime.

Shay, alias McCoy and McKenzie, was jailed here for the alleged passing of worthless checks in Nampa, Idaho. An admission he made to a cell mate shortly after his arrest, aroused the suspicions of Chief of Police O. F. Heiserman, who later secured the account of the crime.

MEETING IN BEHALF OF COOLIDGE

Gathering to Name Delegates To Pasadena Conference On Recommendations

There will be a meeting of the Coolidge Republican Club in room 124 of the Glendale Union High school building next Tuesday night, January 15, at 8 o'clock for the purpose of selecting delegates to attend a conference to be held at Pasadena January 17 at which delegates to the national Republican convention to be held at Cleveland, Ohio, will be recommended.

This announcement was made this morning by W. E. Evans, president of the Glendale Republican Club. Mr. Evans also stated that all supporters of Coolidge for president are invited to attend Tuesday night's meeting.

Each Congressional district in the state of California is entitled to have two delegates and two alternates to attend the national convention of the Republican party, with the addition of three delegates at large.

Recommending Delegates

Meetings are now being held in various Congressional districts for the purpose of recommending delegates and the meeting in Glendale next Tuesday night is for the purpose of selecting delegates to the Pasadena conference, where delegates from the Ninth Congressional district will be recommended.

The Ninth Congressional district, of which Glendale is a part is entitled to two delegates and two alternates. Those recommended at the Pasadena conference will, it is anticipated, go on the ticket favorable to Coolidge now being made up in the various Congressional districts throughout the state.

"All favorable to the candidacy of Mr. Coolidge for president are invited to the meeting next Tuesday night," said Mr. Evans, in calling the meeting of the Coolidge Republican Club.

GUARDS PROTECT STATE'S SCHOOLS

Fears of Incendiarism Lead Authorities to Place Watchmen on Duty

SAN FRANCISCO, Jan. 12. — Guards were thrown about schools today in California at three widely separated points to prevent incendiarism.

The finding of three sticks of dynamite on the hill back of the Redding high school and within 20 feet of the building caused the school authorities there to fear a plot and place a night watchman on duty.

At Santa Rosa the guard was thrown about the schools there following a visit of an apparent maniac to the office of the principal of the Fremont grammar school who, she says, told her if she had anything of value to get it out of the building before midnight. He disappeared before she could secure help.

Guard Napa School

Discovery of a man attempting to jimmy an entrance to the new $300,000 high school at Napa resulted in the strictest precautions being taken there.

San Francisco and Oakland schools have been under guard for two weeks following the wave of incendiarism which destroyed school buildings in Oakland, Alameda and Woodland.

Special precautions are being taken all over the state as a result of a warning issued by State Superintendent of Instruction, Will C. Wood that a pyromaniac was at large whose special mania was the destruction of schools.

INQUEST ON FLYER

RYE, Eng., Jan. 12.—An inquest upon the body picked up in English channel, which is believed to be that of Lawrence Sperry, missing American aviator, will be conducted Monday. T. R. Jackson, British representative of Sperry, was unable to identify positively the remains on account of decomposition but believes that the body is Sperry's.

RAIL STRIKE LOOMS

LONDON, Jan. 12. — British locomotive engineers threatened today to strike because the negotiations for a wage increase have broken down.

LATEST NEWS

CHINESE ATTACK, LOOT AMERICAN MISSION

PEKING, Jan. 12.—An American mission at Supu, in the province of Hunan, was attacked and looted by Chinese provincial troops who riddled the mission's American flag with bullets, according to reports to the American legation here today. Poor aim of the soldiers saved the lives of two of the missionaries, who escaped in a hail of bullets, the reports said. The village of Supu was also plundered by the soldiers before they withdrew. The American minister has filed a protest with the Chinese government.

HEAVY FOG AT S. F. CAUSES ACCIDENTS

SAN FRANCISCO, Jan. 12.—Two bay ferries collided, two street cars crashed into each other and there were minor automobile accidents here today when one of the heaviest fogs on record settled over the city. Passengers were thrown into a panic but no one was injured when the Hayward and San Leandro ferries crashed in the fog off Goat Island. Neither craft was badly damaged and after the collision proceeded on its way. Motorman William Hodge and William P. Clark, a passenger, were lacerated in the street car smash. The Toyo Kisen liner Taiyo Maru is being held outside the harbor and unless the fog lifts it may not be docked today.

NOT EVERY ONE FINDS THE NEW TAX BILL TO HIS LIKING

MRS. BURNS WILL AID GREER CASE

Ex-Companion of Film Star Will Be Witness For Accused Chauffeur

LOS ANGELES, Jan. 12.—As a result of her being discharged as companion of many years for Mabel Normand, Mrs. Edith Burns will probably be a defense witness for Horace A. Greer, charged with assault with intent to commit murder for shooting and seriously wounding Courtland S. Dines, wealthy Denver clubman, when Greer's preliminary hearing starts next Friday, it developed today.

Describing herself as the "goat" in the case, Mrs. Burns explained her being discharged, saying she was "let out" because she had told the truth when questioned by the police concerning events that led up to the shooting of Dines last New Year's night, while he was giving a party attended by Miss Normand and Edna Purviance. She also admitted Miss Normand was displeased because she had permitted the officers to enter Miss Normand's room.

Mrs. Burns also corroborated an important part of Greer's story by asserting she had told him that Dines and Miss Purviance were not fit companions for Miss Normand, and that Miss Normand was ruining her health by staying out on drinking parties. Mrs. Burns also spoke highly of Greer, declaring he was "a fine boy, and he looked after Mabel like a sister. I'll stick by him to the end," she said.

SERIES OF HOLDUPS

LOS ANGELES, Jan. 12.—Definite clues furnished to the police by the victims in a series of holdups last night resulted in the announcement today by the University police that arrests are expected in connection with the eight robberies committed by the pair of automobile bandits who robbed ten citizens in the University district.

The bandits, during their operations, which lasted less than an hour, obtained $500 worth of loot. Most of the victims were near their homes.

PROMISES QUICK TRIAL

NEW YORK, Jan. 12.—Quick trials were promised today by United States District Attorney William Hayward for Charles A. Stoneham, principal owner of the New York Giants, and seven other men indicted with him on charges of using the mails to defraud. The eight will be arraigned Monday and brought to trial "as quickly as the condition of the court calendar permits," Hayward said.

Wood Wants Warship To Terrify Fanatics

MANILA, Jan. 12.—Governor General Wood announced this afternoon that he has requested the United States naval authorities to send the cruiser Sacramento to the island of Surigao to make a demonstration of American authority against the "colorums" there.

The "colorums," a religious fanatical sect living in the mountains and practicing weird rites, earlier this week killed seventeen constabularymen and carried off two school teachers.

CANCELLATION OF WAR DEBT LOOMS

British Recognition of Russ Government May Cause Complications

LONDON, Jan. 12.—If Great Britain recognizes the Russian soviet government, annulling the debts contracted by the old imperialistic regime, France will consider her own war debts cancelled, said a Paris despatch to the Daily Express today.

British newspapers today gave prominent display to a letter sent by Ramsay Macdonald, leader of the labor party, to former French Deputy Renaudel expressing a desire for Anglo-French unity in settling the problems which still agitate Europe.

This letter was an indication of the foreign policy that will be observed if the laborites come into power in succession to the present tory government of Premier Baldwin.

WEATHER FORECAST

WASHINGTON, Jan. 12.—The weather bureau today announced the following forecast for next week:

Pacific States—Generally fair in Southern and Central California and occasional rains elsewhere. Temperature near normal.

SEEK STAGE PERMIT

SAN FRANCISCO, Jan. 12.—The Interstate Passenger Service Company has applied to the railroad commission for a certificate to operate an auto stage service between Los Angeles and the northern boundary of California en route to Portland, Ore.

SET WEDDING DATE

TOKIO, Jan. 12.—The imperial household today made formal and official announcement that the wedding of Prince Regent Hirohito would be held January 26.

PLAN ATTACK TO AID MEX. REVOLT

Southern California Friends of De La Huerta Rally for Big Offensive

LOS ANGELES, Jan. 12. — Thousands of Mexicans today were being massed throughout southern California in preparation for an offensive against governmental headquarters in Lower California, the object of the contemplated attack being, according to government agents in close touch with the situation here, to establish Adolfo de la Huerta as president of Mexico.

Two generals in high command in the de la Huerta forces at Vera Cruz arrived here last night, it was learned today, to direct the mobilization of forces to carry out the rebellion. Meanwhile, government agents today endeavored to prevent any outbreak in southern California that might endanger lives and property. Additional immigration and military forces along the border, especially at Mexicali, Tecate and Tia Juana, was said by investigators to be under consideration by authorities at Washington.

MAN HUNT FAILS TO FIND BANDIT

Possemen Comb Canyons For Desperado Sought For Murder, Robbery

HOLLYWOOD, Jan. 12.—An all-night man-hunt failed today, when Captain Home of the Los Angeles police department and Tom Mix, film actor, who led hundreds of posse men in surrounding Laurel canyon in the Santa Monica mountains, reported that Harry Dunlap, alleged "badge bandit," had escaped the human cordon thrown about his reported hiding place.

Dunlap is alleged to have made threats against the lives of Douglas Fairbanks and Mary Pickford and is wanted as the notorious bandit who has robbed scores of autoists, assaulted their women companions and murdered one or more of his victims.

TROUBLE IN INDIA

LAHORE, India, Jan. 12.—The situation on the Indian-Afghan border is again becoming serious. It is explained that the Afghan government is giving protection to roving gangs of murderers and bandits.

RAIN OF LEAD AS BANDIT SEXTET IS BATTLED

Cashier, Shot, Fires Back At Thugs; Small Boy One of Victims

CHICAGO, Jan. 12.—Six persons fell wounded here today in a fusillade of shots in a bank holdup that netted a sextet of bandits less than $500 in the bloodiest robbery the city has seen in months.

The bandits fled, firing, as Albert V. Tenczar, cashier of the Brighton State bank, opened fire. He fell, shot through a lung. Two other wounded were casual passers-by and the other three were members of the stick-up gang.

An 8-year-old boy was hit by a stray bullet and Harry Olseski, a drug clerk, was shot in the side by a stray bullet.

The bandits leaped into an automobile which had been left standing at the curb when the men entered the bank and fled, with bullets flying in all directions from their pistols.

Bandits Shot, Belief

A policeman, off duty, and passing near the bank, heard the shots preceding the flight and rushed to the scene. He emptied his service revolver at the sextet, and declared two of the men fell to the sidewalk, wounded, and were dragged to the automobile by companions. The cashier wounded the other bandit.

The robbery was executed in cold-blooded fashion, according to employes. They said the two men were left at the car while four others entered the bank and began firing.

DRIVER INNOCENT IN DEATH CRASH

Police Exonerate Autoist In Fatal Accident That Kills Officer

LOS ANGELES, Jan. 12.—While preparations were being made today for an inquest over the body of Policeman Ralph Green, who was killed in a crash at Hollywood boulevard and Western avenue late last night, police detectives exonerated from blame for the accident E. V. Pedey, whose car is said to have caused the crash.

According to stories by Patrolman Vernon McCurdy, another policeman, who was with Green, a police machine, driven by Green, was traveling about forty miles an hour and without the siren going. McCurdy, who was cut and bruised in the accident, said he and Green were chasing a stolen automobile and did not blow the siren for that reason.

At the street intersection Pedey is said to have started to drive across Hollywood boulevard. Green threw on the brakes to avoid a crash, but skidded and turned over twice. Green was almost instantly killed, suffering a fractured skull and broken back.

Prepare Plans for Delivery to Obregon

DAYTON, Ohio, Jan. 12.—Mechanics at Wilbur Wright field today were installing motors in eight DeHaviland airplanes, which under orders from Washington are to be shipped within fifty hours to Mexico.

The eight planes will be crated and it is expected they will start on their way south Sunday night.

Announcement of the purchase by Obregon's government was made a week ago in Washington.

Roy Wolcott Family Visiting Santa Barbara

Mr. and Mrs. Roy Wolcott and sons of 545 West Elk avenue are motoring to Santa Barbara today for the week-end where they will visit with relatives, also calling on friends in Carpinteria. Mr. Wolcott is employed in the "ad alley" of The Glendale Evening News composing room.

Personal Mention

H. D. Fahrenholz of 126 East Elk street returned home on Thursday from a short business trip to Minneapolis, Minn.

W. C. Palmer of 642 Wilson avenue left recently via the Santa Fe on the California Limited for a short trip to Chicago, Ill., and Wauseon, Ohio.

Mrs. J. E. McCormick of 612 North Orange street left yesterday over the Santa Fe for Denver, Colo., where she was called on account of the illness of relatives.

The many friends of Mrs. W. W. Stofft of 457 Stocker street, who has been seriously ill at her home for so many months, will be glad to learn she is showing a slight improvement, though she is still confined to her bed and unable to sit up.

Mr. and Mrs. C. L. Davies of North Lankershim were in Glendale last night attending the Glendale theatre, which they declare presents a better vaudeville and picture program than Los Angeles houses which charge twice the price.

Mrs. F. M. Duffey of 209 West Magnolia avenue entertained at her home last Wednesday with an informal social evening the members of the Rodaire club. Mrs. Ray Engle of 712 South Maryland avenue will entertain the club members next Wednesday.

Miss Christina Campbell-Petrie, who has been visiting with friends in Glendale for the past month, has arranged for transportation through the Atlas Steamship agency, 119 East Broadway, and will sail for Australia in the near future. Miss Campbell-Petrie has been in all sections of the country, and admits that she has found no city so home-like as Glendale.

Mr. and Mrs. C. M. Pomeroy of 622 North Louise street are having the pleasure of entertaining as their week-end guests, Mrs. Pomeroy's brother-in-law and sister, Mr. and Mrs. Roy McCracken and children Billy and Mary of Lancaster. Mrs. McCracken and the children have been visiting here since Friday and Mr. McCracken will join them this evening.

Mr. and Mrs. C. E. Snively of 106 East Maple avenue, who have been spending a few weeks at their ranch near Azusa expect to remain there another month or longer. During their absence from the city the home is to be occupied by Mr. and Mrs. Vic Wagner, who leased their own home and were enjoying a trip through the Orient with plans to remain away for some time and found it necessary to return after the earthquake in Japan.

Mrs. H. L. Krieger and son Harley, of Detroit, Mich., recently arrived here and are visiting at the home of Mrs. Krieger's mother, Mrs. Susie Weisling of 520 East Maple avenue. Mrs. Krieger before her marriage was Miss Kathryn Weisling, and her many friends will be glad to learn of her return to Glendale. Dr. and Mrs. Krieger expect to make Glendale their permanent home as soon as Dr. Krieger finishes his year of instruction in the college at Detroit.

Miss Elizabeth Klotz of Newark, N. J., just recently arrived here and is visiting with her sister, Mrs. E. K. Campbell of 204 Arden avenue. Miss Klotz reports a pleasant journey over the Santa Fe, though some snow and cold weather was encountered, but she states she was glad to be greeted by our California sunshine. Miss Klotz expects to remain here about two months after which she will visit the Panama Canal Zone and on down the West Coast of South America before returning east. Miss Klotz has secured her passage through the Glendale office of the Atlas Steamship company.

Friends of Mrs. R. E. Downing of 206½ Hawthorne street will be sorry to learn that she was called to Burbank this morning by the serious illness of her father, Capt. A. A. Lesueur.

The many friends of Captain C. E. Chenoweth of 328 West Lexington drive, who underwent an operation on Tuesday, will be glad to learn he is getting along very nicely and expects to be able to be out again in about a week or so.

Dr. Harry St. Clair, who has been east for the past five weeks on account of the serious illness of his brother in Indiana, Pa., returned to his home here at 1250 South Maryland avenue, last Sunday.

Flora Jane Green, daughter of Mr. and Mrs. C. C. Green of 520 East Maple avenue, celebrated her eighth birthday anniversary at the home of her parents last Wednesday, when they entertained a number of her little friends with a party in her honor.

Mrs. Wilbur E. Lee of 1015 East Lexington drive returned home on Thursday from an enjoyable visit with her father, Dr. W. D. Sisson, in Kahoka, Mo., and also with her brother, T. W. Sisson, in La Junta, Colo. Mrs. Lee left here on December 6. Sunday Mr. and Mrs. Ed Wornhoudt and Mr. and Mrs. Wilbur E. Lee expect to enjoy a picnic dinner in the Topanga canyon.

Mrs. Shives Mitchell of 317 North Brand boulevard was the guest at luncheon on Thursday of Mrs. J. McKinley of Pasadena, formerly of King City. The luncheon was given in honor of three guests from King City. Mrs. Mitchell until recently was a resident of King City. Mrs. Mitchell and mother, Mrs. Ella Richardson, were the luncheon guests today of Mrs. Whitedexter at her home in Huntington Park.

HI-Y WILL HOLD MONTHLY DINNER

'Discovery Banquet' Planned to Find Talent Among Club Members

Grub and lots of it will be featured at the coming monthly Hi-Y banquet which is to be staged Monday night. Coach Wolfe's group has charge of the affair and a general bang-up time is expected.

The banquet is to be called a "Discovery Banquet." The discovery is to be made in the way of finding out the talent that is to be had in the club, and several ways have been arranged. Each group of the Hi-Y is to put on a stunt, whether it be funny or tragic.

The standard Hi-Y induction ceremony for the initiation of new members will also be carried out at the banquet, and all those that have joined since the Hollywood induction service, which was held three months ago, will be duly initiated into the organization.

Probably a great deal of talent will also be found when it comes to consuming the victuals which will be served.

DEATHS — FUNERALS

MRS. EDNA HENDERSHOT

The death of Mrs. Edna Hendershot, wife of Clare Hendershot of 571 West Dryden street, occurred last night, Friday, January 11, 1924, at a Los Angeles hospital.

Mrs. Hendershot was born in Michigan August 8, 1895. The family came to California four years ago from Detroit, and have lived in Glendale three months.

Surviving are her husband, two sons Donald and Bernard, an infant daughter, and her father, P. F. LeRoy of Los Angeles.

Funeral services are to be held at 2 o'clock Monday afternoon in the Little Church of the Flowers in Forest Lawn Memorial park, with Rev. Clifford A. Cole officiating.

The L. G. Scovern Undertaking company in charge.

Sunset Club Member Celebrates Birthday

Grandma S. J. Lane of 209 East Chestnut street, a member of The Glendale Evening News Sunset club, celebrated her eighty-eighth birthday on Wednesday of this week, and, although she has been ill and confined to her home for the past seven weeks, nevertheless the day was a happy one.

Birthday remembrances poured in from the S. F. O. class of the First Baptist church of which Rev. R. C. Morgan is teacher; a beautiful bouquet came from the Glendale Art association, and countless messages from other friends. Grandma is taking this opportunity to express her appreciation and thanks to every one who remembered her.

Mrs. Lane is the mother of O. A. Lane, former mayor of Glendale, and O. C. Lane of 327 Vine street.

Security Benefit to Meet Monday Night

Members of Glendale Council No. 3696 Security Benefit association will hold their regular business meeting Monday night, January 14, at 8 o'clock, in Hahn's auditorium, 109-A North Brand boulevard.

All members and visitors are urged to be in attendance, as plans for the next six months' work will be made.

SOCIAL EVENTS

Wedding Surprise

Coming as a complete surprise to their many friends is the announcement of the marriage of Miss Myrtle Helmer, daughter of Mr. and Mrs. Stephen Finley Helmer of 1624 South Orange street, and Bert Eugene Cannon of Ventura, at a ceremony taking place December 31, 1923, in Glendale.

Mrs. Cannon before coming to Glendale to make her home, where she has been identified as an active member of the social recreational committee of the Community Service organization, made her home in Berkeley. She attended the University of North Dakota and later received her M. A. degree at the University of California. She has been identified as a dramatic reader and organizer and director of little theatre productions, and for some time had charge of the dramatic art department of the Community service organizations in Sacramento and San Francisco.

Mr. and Mrs. Cannon will spend the winter at Sulphur Mountain Springs in order to be near Mr. Cannon's large ranch holdings in the southern part of the state. However, they will spend the week-end with Mrs. Cannon's parents where they will be glad to welcome their many friends.

Happy Birthday

The home of Mr. and Mrs. Ray Leffler, 601 South Adams street, was the scene of a happy affair last Thursday night when they entertained twenty friends in the celebration of the birthday anniversary of their little daughter, Marian Leffler.

During the evening a program was given consisting of vocal numbers by Mrs. Olson and William Holton; mandolin and guitar selections by Mrs. T. R. Walsh and H. W. Brown; recitations by Alice Bilodeau, Waldo Brown, Florence Brown and Elanore Leffler.

Late in the evening refreshments were served. The refreshment table was decorated in a pink and white color scheme and was centered with two birthday cakes with one lighted candle. They were both beautifully decorated in the same tints.

Mrs. Leffler was assisted in serving by Mrs. William Holton and Mrs. H. W. Brown.

♣ ♣ ♣

Fathers Honored

The board of the Cerritos Avenue Parent-Teachers' association at a meeting at the school on Friday arranged for the "Fathers' Night," to be held Tuesday, January 15, at 8 p. m.

"The Meaning of P.-T. A." will be the subject of an address by Supt. Richardson D. White. Mrs. E. B. Moore, president of the Glendale Federation of P.-T. A., will speak on "Co-operation of Home and School." The Glendale city teachers' choral club will give several numbers. Refreshments of sandwiches, cake and coffee will be servd. Mrs. W. F. Small, president of the association, hopes for a large attendance to greet the fathers.

♣ ♣ ♣

Announcement

Announcement is made of the marriage of Miss Marjorie Baker, daughter of Mr. and Mrs. R. I. Baker of 356 West Dryden street, to Rev. F. W. M. Barrett of Vancouver, B. C., the ceremony taking place Thursday night, January 10, 1924, at the Little Church Around the Corner in Hollywood.

Rev. Neal Dodd was the officiant, and the young couple were attended by the bride's parents.

Mrs. Barrett, who has lived with her parents for a year in Glendale, is a niece of Mrs. Charles B. Guthrie.

Rev. and Mrs. Barrett hope to make their home in Glendale.

♣ ♣ ♣

At Kline Home

Rev. and Mrs. Leo C. Kline and Mrs. Elsie Moore were hosts to the Epworth league of the church on Friday night at the parsonage, 1124 South Central avenue.

During a short business of the league, vacancies which have occurred recently in the offices were filled. The following were elected: Harold Williams, president; Albert Williams, vice-president; Mrs. Claude McLaughlin, second vice-president; Miss Emily Kopp, fourth vice-president; Donald Frahm, treasurer.

A social hour followed with games. Light refreshments were served by the hosts.

♣ ♣ ♣

D. A. R. Speaker

Mrs. J. S. Ballagh of 308 North Louise street went to Santa Monica on Wednesday to speak at the meeting of the Daughters of the American Revolution. Mrs. Ballagh is national vice chairman of Colonial relics, and she addressed the Santa Monica Daughters on "Colonial Relics."

A guest at the Ballagh home is Mrs. David Ballagh of Rochester, N. Y., and as a compliment to her Mrs. Ballagh was a luncheon hostess today. The guests were all friends from Los Angeles.

♣ ♣ ♣

Board Meeting

Members of the executive board of the Parent-Teachers' Association of the Glendale Union High school are to meet at 3 o'clock Monday afternoon at the home of Mrs. R. C. Horner at 432 West Broadway.

Mrs. C. H. Whitney, president, will have charge of the meeting, which will be preliminary to the meeting of the association on Wednesday afternoon, at the high school.

♣ ♣ ♣

Luncheon Meeting

The meeting of the Parliamentary Law section of the Tuesday Afternoon club is to be held Monday afternoon following a 12:30 o'clock luncheon.

Mrs. Harry Greenwalt will have charge of the parliamentary drill practice and Mrs. P. S. McNutt, teacher, will direct the study hour.

T. A. C. Meeting

The next meeting day of the Tuesday Afternoon club is to be full of interest for the members.

Beginning the day will be the meeting of the Art Section at 10 o'clock, followed by the meeting of the Bible Section at 11 o'clock in the auditorium.

There will be a club luncheon at 12:30 o'clock, with Mrs. E. E. Leighton, chairman of art of the Los Angeles District Federation of Women's clubs, and Rev. E. Burdett Backus, pastor of the Los Angeles Unitarian church, as honored guests and speakers.

At 2:30 o'clock in the afternoon Mrs. Daniel Campbell, club president, will direct a half hour business meeting, and a program will follow.

Chief Yolache, Indian baritone, is to give a recital, assisted by Wah-nee-nah, pianist. A most interesting feature of the program will be two songs sung by Chie Yowlache, the words written by Charles O. Roos, resident of Gardena avenue, Glendale. These two songs are still in manuscript and will be published in a few months in London.

Mr. Roos is to be a special guest of the club at the meeting.

♣ ♣ ♣

Attend Council

A delegation from the Tuesday Afternoon club again participated in the presidents' council of the Los Angeles District Federation of Women's clubs, held yesterday at the Catholic Women's club in Los Angeles.

Those attending from the Tuesday Afternoon club were: Mrs. Daniel Campbell, president; Mesdames E. W. W. Hayward, Lillie [illegible] E. Bartlett, directors.

As is customary it was an all-day gathering, with Mrs. C. H Toll, president, presiding over morning and afternoon sessions. At the noon hour luncheon was served.

The morning was given over to reports and talks by the various chairmen. In the afternoon there were three speakers, an insurance expert, who spoke on "Conservation;" Mrs. Mab Copeland Lineman, Los Angeles attorney, on "Legislation for Indians," and Miss Lloy Galpin on "International Relations."

Mrs. Josiah Evans Cowles, junior past president of the General Federation, was honored guest.

♣ ♣ ♣

Children's Party

Bobby Huestis entertained a number of his school friends very happily last night at the home of his parents, Mr. and Mrs. Reed Huestis, 400 East Loraine street. The evening was spent with jolly games and informal dancing. Shirley Whistler and John Muchow won prizes in "Blind Pig" and Helen McCormick and Jerome Parker in another contest. Refreshments of ice cream, cake and punch were served.

The guests were Luella Kenyon, Dorothy Vandyke, Alice Fuelsher, Helen McCormick, Shirley Whistler, Ethel Bean, Frances Wellborn, Dorothy Putnam; Bobby Morrison, Jerome Parker, John Muchow, Edgar Blue, Wendell Sherman, Wesley Rice, Charles Temple. The host was assisted by his sister, Miss Betty Huestis, and his mother.

♣ ♣ ♣

Atwater P.-T. A.

Mrs. E. V. Bacon, president of the Atwater Parent-Teachers' association, announces that there will be no meeting of the association on Monday, but that an evening meeting is being arranged, announcement of which will be made later. Miss Gates, principal of the school and program chairman, is arranging an interesting program for the occasion.

$63,000 BUILDING PERMIT GRANTED

Forest Lawn Cemetery Plans To Erect Headquarters For Executives

A permit that has been awaited for some time was granted yesterday afternoon by H. C. Vandewater, municipal building superintendent, to the American Security & Fidelity company for the erection of a new administration building at Forest Lawn cemetery. The stated cost of construction will be $63,000.

The building, to be two stories in height, will be 57x84. It will provide residential quarters for the superintendent as well as offices. The work will be done privately. It will be set back from Glendale avenue a distance of 500 feet.

Outside of this permit business was dull yesterday. However, the total is rapidly approaching $400,000, standing at $387,473 at the close of business.

The following permits were issued:

American Security and Fidelity Co., building, Forest Lawn	$ 63,000
Charles Grey, 5 rooms and garage, 515 Wing	4,000
O. A. Boydston, 5 rooms and garage, 114 East Chestnut	4,000
F. E. Weitz, 3 rooms, 1216 "A" Windsor	1,000
W. M. Drew, 4 rooms and garage, 811 East Palmer	600
John Q. Sang, addition, 246 North Louise	500
S. Berman, garge, 400 South Brand	300
L. A. Marmon, addition, 334 West Arden	150

MONTANA PICNIC

Glendalians who formerly lived in Montana are invited to take part in the big mid-winter outing and picnic of the Long Beach Montana society tomorrow in Bixby park, Long Beach. Every one is to take a basket lunch, and there will be the usual features for entertainment.

STUDENTS' PARTY PEP-FUL AFFAIR

Basketball Games, Boxing and Eats Furnish Thrills at Stag Event

By NEAL E. SOOY
Of The Evening News Staff.

Jammed full of pep and excitement from the first basketball game until the grand climax in the cafeteria, the annual boys' stag party was held last night at Glendale Union High school. The affair was in the hands of Arden Gingery, president of the boys' league, and it was capably carried out in every way.

The junior class carried off the honors of the night by winning the inter-class basketball contest. They also ranked high in the yelling and eating, although there was so much of that by every class that it was hard to designate the champions.

The first two games were held simultaneously, the freshmen and sophomores fighting in the boys' gym, while the juniors and seniors battled in the girls' gym. The sophomore team, composed of P. Thompson and Richards, forwards, Zaun, center, Habliech and Abbott, guards, triumphed over the scrubs with a score of 17 to 9. Zaun was the stellar beam for the sophs, while Dell shone for the frosh team, which was made up of Dell and Osier, forwards; Lipstrew, center; Butterly and Drake, guards.

Juniors Beat Seniors

The juniors climbed to high pinnacles and unseated the seniors in a hard-fought game, winning finally, 13-9. Hodder with six points and Bradbury with five were the main essentials in gaining victory with Lavelle, Denny and Fannon, for their class. Donovan starred for the class of '24, with Hartman center and Hyatt forward, keeping right along with him. C. Thompson and Offutt filled the guard positions, with West and Murphy as subs.

In the elimination game, the juniors again were the conquerors with a 9-5 count. The sophs put up a game fight, but were outclassed. The same teams were used for both classes, with Ryan and Jensen as subs.

Following the casaba series, there was a mad rush to the auditorium for the entertainment there. The Boys' Glee Club started the trouble in there by singing, which was closely followed by several bouts. The first was between "Firehouse" Eckles and "Six Second" Anderson. This fight was rushed so in the early part of the first round, that for the rest of the bout the contestants stood around and gave each other love-pats. The decision of the judges, Coaches Hayhurst and Wolfe, went to "Firehouse."

The second bout was an exhibition of science staged by "Battling" Thayer and "Bughouse" Hibbs. The latter contented himself with simply playing with the "Battler," and thus saved himself a lot of exertion. "Bughouse" took the prize.

Walton Wins By K. O.

The only K. O. of the evening was in the third match, between "Tamale' Taylor and "Hacky" Walton. This was a slugging match all around and ended in the second round when a few haymakers from Walton's fists put Taylor temporarily to sleep. A real slugfest followed this peaceful display, when two combatants got into the ring with blood in their eye and retired from the ring with the same fluid in their noses. The "Sheik of G. U. H. S." Archilad Neel, and the "Bull of the Campus," Charles Worley, were the two gory-inclined sluggers, and they pounded each other to a draw decision.

The main event of the night was between "Ironjaw" Fitz and "Wild Battling" Ward. It was lucky for Fitz that he had an "iron jaw," or he might have traveled the same thorny path that "Tamale" Taylor did, for Ward wielded a wicked glove. The latter took it easy until the third, and last, round, when he opened up with an attack that left Fitz panting. "Ironjaw" started that round with lots of pep, but he staggered out of the arena at the end gasping like a fish out of water. Ward wasn't noticed taking any deep breaths himself, but his better wind confirmed the judge's award, which he captured.

The orchestra, which was especially gotten up for the occasion, obliged with selections all along. Although it was hardly fair to make seven persons stand the mob that was packed in the auditorium, yet the "Roughouse" group did it, and succeeded in subduing the audience. The orchestra was composed of the following: Henry Grace, piano; Thomas Wood, violin; Ivan Dow, cornet and baritone; Burt Aageson, trombone; Wallace Haines and Burton Kuntzner, saxophones, and Art Cressy, drums.

Moving Pictures

Following the fistic combats came the moving picture. Al St. John appeared in an ancient comedy entitled "All Wet." However ancient, it was thoroughly enjoyed by all present. The villain, with his reversible, quick-shift hat, and coyness in general, drew most of the comments from the spectators. The hero and his adventures with the real imitation whales, octopuses, etc., also drew many helpful words of advice.

And then came the grand climax! Which was, of course—eats. And nobody was heard to accuse the management of gyping him, for the food was worth what it was cracked up to be. Hot dogs, with special ice cream and cake, was the menu. The only real objection was that second and third helpings were not the style with the persons in charge, which proved rather disappointing.

In all, it was one of the best stag parties ever pulled off by the students, and those who missed it are going to regret it sincerely. So say all who went!

TRAVELER TELLS WORLD JOURNEYS

Maurice B. Hartmann, Back from Alaska Trip, to Visit Australia

By AL DIX
Of The Evening News Staff.

In this modern age of super-propaganda there is generally a catch in all "round-the-world" travelers.

When a reporter receives an assignment to interview a "globe-trotter" or any man that uses "Six days from New York to San Francisco" as a prefix to his name he generally commences to sniff for the odor of the colored boy in the cord of wood, and wonder what new car he is advertising or what wonderful oil and gas he used on his trip, or whose pills have kept him fit.

And so it was today when a tip led me to the Brand Hotel at 223½ South Brand boulevard, room 3. I was told there was a "globe-trotter" there, and sure enough there was, but he wasn't deep in thought as to the subject of his next interview with the newspapers. He wasn't washing the dust of Colorado, Illinois or Pennsylvania from his person. Just an ordinary, kind-faced old gentleman of 71, and what do you think he was doing? He suffers the same as the rest of us mortals—he was making out his income tax report.

Tells of Foreign Lands

I introduced myself and accepted a smoke; sat back and listened to one of the most interesting tales of adventure and travel in foreign lands that carried me from the Holy Land in Palestine to the land of the midnight sun in Alaska; to the lobbies of grand hotels on the continent of Europe to the snow hovels of the Eskimo in Alaska.

The raconteur was Maurice B. Hartmann, gray-haired gentleman who has no more ulterior motive in his travels than the gratification of a personal whim, and has made his home in Glendale every winter for eleven years. A native of Germany, he was naturalized many, many years ago. He has one daughter living, Mrs. Edward R. Lott of St. Paul. One of Mr. Hartmann's grandchildren was born in Glendale. His wife was buried in Forest Lawn cemetery here October 19, 1919. He owns several valuable units of Glendale real estate, although his heaviest holdings are in St. Paul.

"There are three things essential to travel," said Mr. Hartmann, who has just returned from a long trip that carried him to Dawson City, Alaska, back through Yellowstone Park, through Florida and across the country to Glendale. "The first is the inclination, the second is time, and the third, money. I have always had the inclination, but until several years ago I did not have the time nor the money."

The first question I put to Mr. Hartmann was, "Under whose auspices do you make these trips?" And I regretted it the minute it had passed my lips.

Mr. Hartmann stated that he was a great lover of nature, and was taking a post-graduate course by travel and not by schooling. He has retired from active business life and enjoys his income by visiting the out-of-the-way spots in the world.

Antipodean Journey

He leaves January 25 from San Francisco for a trip that will take him to Australia and New Zealand and extending over a period of three months. He has toured the continent of Europe widely, visited Turkey, Egypt, been through the Panama canal, and now will head toward the Orient.

"My last trip took me to Alaska, and few people know what a wonderful country that is. I went primarily to see the midnight sun, of which I had heard so much. The immense salmon fisheries, the sheer grandeur of the glaciers and the thought of the hardships undergone by the men who engaged in the Klondike rush impressed me strongly. On the way back I visited the Yellowstone. My advice to all is to see the Yellowstone first before going to Alaska. The Swiss Alps are grand, but cannot compare in magnitude to the Canadian Rockies."

Mr. Hartman, despite his advanced age of 71, is hale and hearty, and states he is able to do a good day's walk. He will remain in Glendale until he receives his passport for his trip to Australia and then will shoulder the pack again and "hit the trail."

The fact that Mr. Hartmann chooses Glendale as his "home port" when he has the opportunity of choosing any city in the world speaks well for "The Fastest Growing City in America." Undoubtedly Glendale receives much favorable publicity in the course of Mr. Hartmann's wanderings.

TO CONSECRATE FLAG

MADRID, Jan. 12.—The flag of the new national militia of Spain will be consecrated on February 3.

PLAN TO INSTALL LODGE OFFICERS

Royal Neighbors and Modern Woodmen Will Stage Ceremony, Jan. 14

Members of the Royal Neighbors held a meeting last night in the K. P. hall for the purpose of preparing for the joint installation of officers of the Modern Woodmen of America and Royal Neighbors which will be held on Monday night, January 14, in the K. P. hall, on the corner of Park avenue and Brand boulevard. This is to be a public installation, and all members of Modern Woodmen and Royal Neighbors are urged to be in attendance.

The newly-elected officers of the Modern Woodmen to be installed are Otto M. Clinton, consul; Dr. Bion S. Warner, past consul; Carol L. Hare, adviser; Charles A. Bunting, banker; Henry Molz, clerk; Walter Johnson, escort; Edward E. Snuerland, watchman; Thomas J. Henry, sentry; Joseph D. Rockwell, James W. Davis, Dr. George A. Campbell, trustees; Dr. H. C. Smith, Dr. E. T. Remmen, Dr. F. M. Collier, physicians; M. W. Young, chief forester.

Officers of the Royal Neighbors to be installed are Estella Rockwell, oracle; Estella Hock, past oracle; Ida Leach, vice-oracle; Anna Smith, chancellor; Lillian Howes, recorder; Mrs. Fred York, receiver; Thelma Rucker, marshal;; Jessie Loucks, inner sentinel; Mrs. Hanson, outer sentinel; Mrs. Clinton, Veneta Bunting and Mr. Tucker, managers; Dr. Laura Brown, Dr. H. C. Smith, physicians. The musicians will be appointed at a later date.

$7500 SEDAN IS STOLEN, STRIPPED

Lafayette Car Found North Of Glendale Lacking Movable Parts

A Lafayette sedan that had been stolen from in front of the offices of the Troy Motor Sales company, Los Angeles, distributors of the Nash and Lafayette lines, was found yesterday at Watson court and Mountain avenue, north of Glendale, by representatives of the company and by investigators of the Automobile Club of Southern California, who were working on the case.

The thieves had run the car into a patch of heavy sand and had then stripped it of everything movable, including tires, floor boards, instrument board, and everything else that could be taken, according to Raymond S. Craig, head of the Troy Motor Sales Company's service department, who was in Glendale in connection with the theft.

The car, which was sold recently to Fred A. Walker, 403 First National Bank building, Long Beach, for over $7000, was taken back to Los Angeles to have the missing parts replaced.

Paul G. Hoffman reported to Officer La Rock at 5:15 this morning that his Buick car had been stolen from the Grand View district some time during the night.

Later he found the car wrecked and stripped on Los Feliz road.

Tip Sends Deputies On Trail of Bandit

A hot "tip" to the sheriff's office yesterday afternoon sent many of the deputies to Montrose where it was reported that Harry Dunlap, "badge bandit," had been located. It was told Sheriff William Traeger that he was occupying a house on the outskirts of Montrose with a woman.

Either the tip was wrong or the bandit got wind of the search, for he was not there when the officers surrounded the house, and the search was fruitless.

Never has the sheriff wanted any one so badly since Clara Phillips, and every effort is being made to bring the arch-fiend and murderer to justice.

STORMS HALT PROBE

PORTLAND, England, Jan. 12 — Heavy seas again hampered examination of the wreckage of the British submarine L-24 today. Divers made a brief investigation, reporting that the bow chain was cut in two. The hull was so badly damaged that no hope is entertained that any of the crew of 43 can be saved.

"GLENDALE'S FIRST 1924 STEP IS ITS GREATEST"

AN OPEN LETTER OF CONGRATULATION TO THE PEOPLE OF AMERICA'S MOST WIDEAWAKE CITY

Sparr Heights,
Glendale, Calif., January 12, 1924.

GLENDALE:

Sincere congratulations on the civic wisdom which voted sewer bonds at Tuesday's election.

The vote was 10 to 1 for the bonds. Any city which can boast of 10 progressive citizens out of every 11, has a civic consciousness which will place it at the top of the nation's leaders.

For all its 50,000 people, for all its proud rank as "fastest growing city in the nation," Glendale remained a village until it voted sewers—a most elementary civic change.

Now Glendale steps snappily into the ranks of America's smart younger metropolises. Look out, 1924!

Out in Sparr Heights, five minutes north of town in the old Verdugo Hills, we are proud of "Ma" Glendale. And we want "Ma" Glendale and all the folks to come out here and see Sparr Heights, its restricted residential district, Montecito Park, and the new Oakmont Country Club. See how we are building Glendale's finest suburb here and you'll be as proud of us as we are of you!

Again, congratulations!

M. WALTERS,
Barnum-Walters Co.

NOTICE INVITING SEALED PROPOSALS

Pursuant to statute and to Resolution No. 2251, adopted on the 10th day of January, 1924, by the Council of the City of Glendale and on file in the office of the City Clerk of said City, ordering the work described in said Resolution, to-wit:

The grading, paving with macadam pavement, the construction of cement curbs, sidewalks and cement concrete gutters, the laying of cast iron water pipe, also the laying of galvanized standard welded screw pipe and appurtenances and otherwise improving portions of Justin Avenue, Tenth Street, Kenneth Road and Fourth Street in said City of Glendale all as more particularly described in Resolution of Intention No. 2225, passed and adopted by the Council of said City on the 20th day of December, 1923, and on file in the office of the City Clerk of said City.

For further particulars reference is hereby made to said Resolution of Intention No. 2225 and to the plans, drawings, profiles and cross-sections adopted for said Improvement and on file in the office of the City Engineer of said City, and to the specifications on file in the office of the City Clerk of said City, which said plans, drawings, profiles, cross-sections and specifications are incorporated herein and made a part hereof.

The Council of the City of Glendale determined and declared that serial bonds bearing interest at the rate of seven per cent (7%) per annum shall be issued hereunder in the manner provided by the improvement bond act of 1915 and the last installment of said bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date.

The said Council also determined and declared that the contemplated work or improvement was, in the opinion of said Council, of more than local or ordinary public benefit and said Council has made the costs and expenses of said improvement chargeable upon a district. For a particular description of said district reference is hereby made to said Resolution of Intention No. 2225.

NOTICE IS HEREBY GIVEN inviting sealed proposals or bids for doing all the work hereinbefore described and ordered in said Resolution ordering the work, to be presented to the City Clerk at his office in the City Hall up to 10 A. M., the 29th day of January, 1924.

The proposals or bids offered shall be accompanied by a check payable to the order of said City, certified by a responsible bank or a bond as is required by law, for an amount not less than ten per cent (10%) of the aggregate of the proposal.

In bidding use blanks which will be furnished by the City Clerk upon application.

Dated this 12th day of January, 1924. A. J. VAN WIE,
City Clerk of the City of Glendale.
Jan. 12-14, 1924.

NOTICE OF AWARD OF CONTRACT

Pursuant to statute and to Resolution of Award No. 2255 of the Council of the City of Glendale, adopted on the 10th day of January, 1924, directing this notice, NOTICE IS HEREBY GIVEN that the said Council in open session on the 3rd day of January, 1924, publicly opened, examined and declared all sealed proposals or bids offered for doing the following work, to-wit:

The laying of cast iron water pipe and appurtenances in portions of San Fernando Road and Allen Avenue, in said City of Glendale, all as more particularly described in Resolution of Intention No. 2196, passed and adopted by the Council of said City on the 30th day of November, 1923, and the said Council did, by said Resolution of Award No. 2255, award the contract for doing said work to the lowest regular responsible bidder, to-wit:

City of Glendale

at the prices specified in its bid for said work on file in the office of the City Clerk of said City, to-wt:

Cast Iron Pipe, as per plan	$5250.00

Reference is hereby made to Resolution of Intention No. 2196 for a further description of said work and of the district to be assessed therefor. The said Council also determined and declared, and NOTICE IS HEREBY GIVEN that serial bonds to represent unpaid assessments and to bear interest at the rate of seven per cent (7%) per annum will be issued hereunder in the manner provided by the improvement bond act of 1915, the last installment of which bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date.

Clerk's office, this 12th day of January, 1924. A. J. VAN WIE,
City Clerk of the City of Glendale.
Jan. 12-14, 1924.

NOTICE OF AWARD OF CONTRACT

Pursuant to statute and to Resolution of Award No. 2256 of the Council of the City of Glendale, adopted on the 10th day of January, 1924, directing this notice, NOTICE IS HEREBY GIVEN that the said Council in open session on the 3rd day of January, 1924, publicly opened, examined and declared all sealed proposals or bids offered for doing the following work, to-wit:

The grading, paving with macadam pavement, the construction of cement curbs and sidewalks, the laying of cast iron water pipe and appurtenances and otherwise improving portions of Irving Avenue, San Fernando Road and Fourth Street, in said City of Glendale, all as more particularly described in Resolution of Intention No. 2197, passed and adopted by the Council of said City on the 30th day of November, 1923, and the said Council did, by said Resolution of Award No. 2256, award the contract for doing said work to the lowest regular responsible bidder, to-wit:

E. L. Fleming

at the prices specified in his bid for said work on file in the office of the City Clerk of said City, to-wit:

Grading, per square foot	$ .01
Curb, "Class B," per linear foot	.50
Sidewalk, per square foot	.17
3" Macadam, including header, per square foot	.11
Water pipe, complete	$1200.00

Reference is hereby made to Resolution of Intention No. 2197 for a further description of said work and of the district to be assessed therefor. The said Council also determined and declared, and NOTICE IS HEREBY GIVEN that serial bonds to represent unpaid assessments and to bear interest at the rate of seven per cent (7%) per annum will be issued hereunder in the manner provided by the improvement bond act of 1915, the last installment of which bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date.

City Clerk of the City of Glendale.
Jan. 12-14, 1924.

JOINT SERVICES OF INSTALLATION

Impressive Scene at Big Meeting of Grand Army and Relief Corps

(Continued from Page 1)

that position fourteen times. He then introduced two old friends, Rev. J. C. Kendrick of Pasadena and Rev. W. A. Water of Portland. It was Rev. Kendrick, he pointed out, who performed the marriage ceremony that united he and his wife fifty-one years ago, and who was present at the General N. P. Banks Post a year ago, when the Nortons celebrated their golden wedding anniversary.

Past Commander A. V. Cole of the Long Beach post, then gave a rousing talk, declaring that he was "somewhat disabled but still in the ring," and expressing himself as proud to be present at such an inspiring installation. Comrade Cole is a past department commander and saw action at Bull Run with Company C of the 4th Michigan Infantry.

Luncheon was served at noon by the women of the corps.

Hold Ceremonies

Starting shortly after 1 o'clock the W. R. C. installed, Mrs. Flora M. Pixley, president for the past year, retiring in favor of Mrs. Mary Bennett, after declaring that the year had been one of the most pleasant of her life and stating that she will be just as loyal to the new officers as they were to her. She was presented with a beautiful silver gift by Mrs. Annetta Booth, secretary, as a token of the esteem in which she is held by her sister officers. Other retiring officers were presented with gifts by their sister officers and many beautiful bouquets were given.

The installing officer was Mrs. Ella C. Carlin, wife of J. P. Carline of Long Beach, who installed the veterans in the morning. Mrs. Carlin is a past department president and made a splendid installing officer. She was ably assisted by Mrs. May Nicholson, also of the Long Beach corps, who acted as conductor.

Honor to Colors

The flag drill by the retiring color bearers was a particularly beautiful ceremony and deserves special comment, although the W. R. C. ritual was marked throughout by perfection of detail.

The officers installed were:

Mary Bennett, president; Hattie Lawson, senior vice-president; Anna Page, junior vice-president; Annetta Booth, secretary (seventeenth term); Emma Kortz, treasurer; Ella Clark, chaplain; Adelaide Chappius, conductor; Josie La Franchi, guard; Lenora Skelton, patriotic instructor; Julina Hayes, press correspondent; Gertrude Tisdale, musician; Cathleen Ketchum, assistant conductor; Anna Patterson, assistant guard; and as color bearers, Pearl Gillett, Helen Page, Mary Peck and Nina Richards.

POLICE, FIREMEN SET DANCE DATE

Annual Ball Will Be Staged by Association on February 15th

The second annual ball of the Policemen's and Firemen's Relief association will be held this year on Friday, February 15, at the hall at 333 North Brand boulevard, according to a decision made by the executive committee yesterday.

No effort will be spared to make this event a greater success than the one last year. An eight piece orchestra has been secured. All of the proceeds go to the relief fund for members of the two departments who are incapacitated, either through sickness or accident.

This ball is the only source of revenue that the association has outside of gifts to the departments in reward for services rendered, and is worthy of the support of the entire city.

Lieut. W. J. Royle, of the police department, and Capt. R. W. Dodsworth of the fire department have devoted a great deal of time to the functioning of the association, and have appointed several committees to look after the different features of the annual ball.

Rattling of windows may be stopped by the use of a new sash holder.

CITY PRINTING

NOTICE INVITING SEALED PROPOSALS

Pursuant to statute and to Resolution No. 2252, adopted on the 10th day of January, 1924, by the Council of the City of Glendale, and on file in the office of the City Clerk of said City, ordering the work described in said Resolution, to-wit:

The grading, paving with macadam pavement, the construction of cement curbs and sidewalks, the laying of cast iron water pipe and appurtenances and otherwise improving portions of Kenilworth Avenue, Vine Street and Riverdale Drive, in said City of Glendale, all as more particularly described in Resolution of Intention No. 2224, passed and adopted by the Council of said City on the 20th day of December, 1923, and on file in the office of the City Clerk of said City.

For further particulars reference is hereby made to said Resolution of Intention No. 2224 and to the plans, drawings, profiles and cross-sections adopted for said improvement and on file in the office of the City Engineer of said City, and to the specifications on file in the office of the City Clerk of said City, which said plans, drawings, profiles, cross-sections and specifications are incorporated herein and made a part hereof.

The Council of the City of Glendale determined and declared that serial bonds bearing interest at the rate of seven per cent (7%) per annum shall be issued hereunder in the manner provided by the improvement bond act of 1915 and the last installment of said bonds shall mature nine (9) years from the second day of July next succeeding ten (10) months from their date.

The said Council also determined and declared that the contemplated work or improvement was, in the opinion of said Council, of more than local or ordinary public benefit and said Council has made the costs and expenses of said improvement chargeable upon a district. For a particular description of said district reference is hereby made to Resolution of Intention No. 2224.

NOTICE IS HEREBY GIVEN inviting sealed proposals or bids for doing all the work hereinbefore described and ordered in said Resolution ordering the work, to be presented to the City Clerk at his office in the City Hall up to 10 A. M., the 29th day of January, 1924.

The proposals or bids offered shall be accompanied by a check payable to the order of said City, certified by a responsible bank or a bond as is required by law, for an amount not less than ten per cent (10%) of the aggregate of the proposal.

In bidding use blanks which will be furnished by the City Clerk upon application.

Dated this 12th day of January, 1924. A. J. VAN WIE,
City Clerk of the City of Glendale.
Jan. 12-14, 1924.

WOMEN SEEK FUNDS TO PAY KORETZ CLIENTS

Wife And Mother Search For Assets To Meet Claims Of Creditors

Above, the yacht "Flying Fox," on which Leo Koretz, Chicago "Ponzi," is believed to have fled; and below it, Koretz's mansion on Sheridan road, Evanston, Ill. In the center is his mother, and at the right his wife. Below at the left is Mrs. Salo Auerbach, who has been called to tell about her relations with Koretz.

A world-wide search is on for Leo Koretz, Chicago "Ponzi" accused of having defrauded oil investors of from $5,000,000 to $15,000,000, but he is believed to be aboard his yacht, "Flying Fox."

Although police say he victimized members of his own family, his mother, Mrs. Mary Koretz, and his wife are leading a search for assets with which to settle with his clients.

Meanwhile police are attempting to round up the women in the case, and Mrs. Salo Auerbach, owner of a photoplay theater, has been called to tell of her relations with Koretz.

CHURCH OFFICERS HONOR TINNINGS

Popular Minister and Family Guests at Farewell Social Affair

A farewell honor was paid Rev. Louis Tinning and family last night, by the officers of the Glendale Presbyterian church and their wives, over sixty persons, at a dinner and informal social evening in the banquet hall of the new church building.

Mrs. M. P. Harrison headed the committee arranging the affair, given to bid Rev. and Mrs. Tinning and Theresa and Graham Tinning farewell before their departure next week for San Juan Capistrano, where Mr. Tinning has accepted a call to the pastorate of the Community Presbyterian church.

J. A. Newton served as toastmaster after dinner, introducing as speakers R. P. Isitt, representing the elders; W. E. McCormick, the deacons; T. W. Preston, the trustees; Mrs. Fred Taylor, the women; H. C. Finlay, the Sunday school; J. K. Gilkerson, Rev. W. E. Edmonds and Howard Brown.

Tribute to Pastor

Each speaker paid tribute to Mr. Tinning's devoted service as assistant pastor of the church, spoke highly of devotion of Mrs. Tinning to every church activity, and voiced appreciation of the association and friendship with the family. Good wishes for prosperity and happiness were expressed by all present.

Dr. Gilkerson, who was one of the speakers, closed his talk by presenting Mr. Tinning with a well-filled purse, a gift from the assembled company.

Both Mr. and Mrs. Tinning responded most graciously, expressing their love for the Glendale friends and regret upon leaving them.

An adaptation of tennis that may be played indoors is popular in England.

THEATRES

THE GLENDALE

It is a distinct relief to find a picture of the west which rings true. Such a picture is "The Ramblin' Kid," a Universal multi-reel feature, starring Hoot Gibson, showing today for the last times at the Glendale theatre.

In addition, five acts of Bert Levey standard coast-to-coast vaudeville are on the boards at this theatre today, offering a variety of worth-while dancing, musical and novelty numbers.

And, starting tomorrow, "The Eleventh Hour" comes to the Glendale theatre, a picture of a thousand thrills, the master creation of Lincoln J. Carter, "king of melodrama." This picture is bound to create a sensation. In the big cities where it has shown it has invariably enjoyed packed houses. It is an American pirate story and a fast mover.

Tea is made from strained juice of watermelons, in Darfur.

THE GATEWAY

Harold Lloyd in "Why Worry?" shows at the Gateway theatre for the last times today. And here's a tip. All the dentists in the world never got as many laughs out of pulling a tooth as this popular comedian does in drawing the bicuspid of John Aasen, the nine-foot giant who plays with him in this picture.

The plot offers ample opportunity for comedy. Lloyd seeks rest and seclusion in faraway Paradiso and soon becomes a soiled and busy young man occupied in routing out a band of desperate revolutionists. By that time he has discovered what everyone else had always known—he wasn't sick at all, except for a heart trouble which the girl he loved hoped was incurable.

"Why Worry?" has been adjudged Harold Lloyd's best as well as biggest production. It is a Pathe comedy, presented by Hal Roach.

HUM OF ACTIVITY AT SPARR HEIGHTS

Big Improvements Are Under Way; Plenty of Choice To Be Had

In the heart of the Verdugo valley, Glendale's scenic wonderland, lies Sparr Heights, nestled in the curve of the green hills, with the towering peaks of the Sierra Madres cutting the opposite skyline.

A year ago this great 1200-acre tract was one vast vineyard. Today, by reason of the initiative and vision of the Barnum-Walters company, whose headquarters are in the beautiful community house right in the center of the tract, it has been transformed into a city of homes, ranging from the attractive avenues of moderate-priced dwellings of Units 1 and 2 to the splendid mansions now rising on the slopes of Montecito Park.

"Here in the green Verdugo hills that have been praised around the world by California's most popular living poet, John Steven McGroarty, one of the finest residential sections in all America is springing up," says M. Walters of the Barnum-Walters company.

Hum of Improvements

"Here where in the old days the Dons let life drift by in a languid dream and bold caballeros sang and loved, today another dream is at work, and steam shovels are converting these lovely hills into ideal homesites, while down in the level valley, miles and miles of roads are going in.

"At Sparr Heights and its beautiful hillside unit, Montecito Park, every variety of lot is offered, at a great variety of prices and all offering unexcelled living conditions. Our community house has been dedicated to the home-owners here, the Oakmont Country club is on the tract—and above all, it is but five minutes by motor to the heart of Glendale and but twenty-five minutes to Los Angeles.

"The Glendale & Montrose cars run along Verdugo road, right through the tract, and will soon come down Glendale avenue and connect with the yellow cars for Los Angeles, another great advantage of living at Sparr Heights."

SWIMMING RECORD

LONDON, Jan. 12.—Sydney Charlion, aged 16, hung up a new British record today by swimming a quarter of a mile in five minutes 11 3-5 seconds.

LODGES JOIN TO GREET MATRON

O. E. S. Chapters Are Guests to Glendale at Ceremony In Masonic Hall

Glendale, Eagle Rock and San Fernando Eastern Stars welcomed Maude Bigelow Sibley, worthy grand matron of the state of California, last night, when Glen Eyrie chapter No. 237 of Glendale was hostess chapter at the Masonic temple on South Brand boulevard.

There were over 300 Eastern Stars present, the company including grand officers, special guests from all parts of California and other states, members of Eagle Rock, San Fernando and Glendale chapters. The lodge hall was crowded to capacity and many were turned away

Mrs. Jennie A. Phillips, worthy matron, and her staff of officers of Glen Eyrie chapter opened and closed the meeting. These officers were only recently installed and their splendid work last night on the occsaion of the official visit of the worthy grand matron was indeed praiseworthy.

Grace Sexton, worthy matron, and other officers of the Eagle Rock chapter, had charge of the degree work, and Minnie Nelson, worthy matron, and other officers of the San Fernando chapter directed the escort work and the balloting.

Grand officers present were: Maude Bigelow Sibley, worthy grand matron; Russell La Fontaine, associate grand patron; Elizabeth B. Wheeler, right worthy grand trustee; Lillian Holman, grand organist; Cora Holland, grand conductress; Elsie Holloway, grand warder; Frank Holman, past grand patron, who served as an escort to the worthy grand matron; Maude May Hazen, Grace DeQuine, Mrs. Wabnitz, Mrs. Snow, Mrs. Butress, deputy grand matrons.

NEWS ADS BRING HOST OF BUYERS

Hart Realty Co. Use Paper For Quick Results In Selling Property

Editor The Evening News—Just a line to let you know what we think of your valuable paper as an advertising medium as well as a clean, wholesome, newsy, family paper we are all glad to welcome in our homes.

We find your readers ready and willing to consider the property we advertise in your classified columns. Recently we advertised an unrestricted lot on Verdugo road for a price less than its value. We found a buyer at once and enough more to sell out the whole block if we could deliver. When the public knows a firm cannot afford to waste time and money on doubtful values, of course that firm only needs the News for results.

We are getting results, our business is progressing very satisfactory and with the future of Glendale assured, and with the association of some of the best business men in Glendale who are in charge of our departments we are confident of the future. We are very grateful for our past patronage and look forward with a great deal of pride to what the future has in store for our firm.

Yours truly,
HART REALTY CO.
W. H. Barnes L. A. Hart

STEAMER WRECKED

GIJON, Spain, Jan. 12.—The steamer Conchita was wrecked today by a gale. Heavy storms continue along the coast.

COMMENT

That's All

Leathernecks vs. Criminals In Need of New Regime Junior High School Wanted—A City Manager

By Gil A. Cowan

Los Angeles and its crime-crushers, under the direction of August Vollmer, are cleaning up the criminal element effectively.

And now the staid old city of Philadelphia is getting front page publicity on the work of General Smedley Butler, who, with his battalion of United States marines, is cleaning up the Quaker underworld.

With prohibition and a higher moral plane, it is only natural that the great cities give their dirty laundry the air. Chicago, New York and New Orleans are the next in line, with Kansas City right in line for a clean-up, too.

The good old world has put up with criminals long enough. They have no excuse for existence. They are unnecessary. It only remains for efficient law enforcement agencies to drive them out.

But from a small city's standpoint the writer would say some protection should be offered by the metropolitan areas which breed the criminals and then cast them aside for the smaller city's assimilation. We want none of Los Angeles' undesirables skulking around Glendale.

So, instead of chasing the criminal element from post to pillar, we suggest they shut them up some place, but we have yet to provide those places.

The county grand jury has condemned the Los Angeles city jails as unfit for human habitation. Yet it is reported the county jail is little better.

It is the writer's opinion that our jail system should be changed, that speeders or others convicted of misdemeanors not involving moral turpitude should never be sentenced to prisons.

Along this line may we not commend the idea of sending traffic law violators to school? Instead of taking something from them the officers would be giving them information which they are lacking.

We believe that all people have an inherent respect for law and order. But bad laws and a general lack of order make for almost unbearable conditions.

Such must have been the situation in Philadelphia when the "leathernecks" took charge.

Organization of a junior high school in Glendale is reported. It will use the old high school plant and for the present handle the ninth grade pupils.

It has been the writer's observation that the younger students get along better when segregated. When they are placed in contact with the older students there is more or less exchange of mature and immature ideas. The freshmen like to ape the juniors and seniors and do not devote enough time to their studies, perhaps.

The junior high school should be the school in which pupils are put to real work. In the grammar grades they accumulate education. In the first two years of high school they should learn how to "dig" for knowledge.

The resignation of W. H. Reeves, who has served Glendale well in the capacity of city manager, gives opportunity to some capable man to rise in the world, perhaps.

On the other hand, we deeply suspect that the office of city manager is not alluring. The pay is too small, considering the responsibility. Still it is large enough to cause several other officials to seek promotion, according to reports.

The city manager's office is most important, and the man who takes the job must not only have the qualifications necessary to conduct a large business, but also diplomacy. By that we do not mean a politician is desirable, yet there are political conditions to deal with in which the city manager must be aggressive and able to cope with situations which are bound to arise.

Mr. Reeves had qualifications which eminently fitted him for his work. He is an engineer by profession, an army officer, a public official and an executive of experience.

Pasadena Pastor to Be Banquet Speaker

Dr. Walter Buckner, pastor of the Lake Avenue Methodist church in Pasadena, will be the speaker at the "fathers and sons" banquet at the social hall of the Central Avenue Methodist church at 6:30 Monday evening, January 14, is announced by Rev. Leo C. Kline, pastor of the church.

A musical program is being arranged by W. F. Shinner for the occasion and the banquet will be served by the aid society of the church.

BANISH KLAN LEADERS

ATLANTA, Ga., Jan. 12.—Col. William Joseph Simmons, founder and present emperor of the Knights of the Ku Klux Klan, and E. Y. Clarke, former imperial wizard, have been banished from the organization by an official edict of Imperial Wizard Hiram W. Evans, according to reports current in Klan circles here. Although Dr. Evans was reported to be out of the city, officials said to be closely associated with the imperial wizard verified the report.

TO AGREE ON FIUME

ROME, Jan. 12.—Official announcement was made today that Italy and Jugo-Slavia are approaching a settlement over the Fiume dispute.

BUILDERS LOWER INITIATION FEES

Secretary Molz Endorsed As Candidate for Post of City Manager

The Builders' Exchange of Glendale met at its quarters, 113 North Maryland avenue, last night. The meeting was exceptionally well attended, in fact, the best meeting that the association has had for several months.

A number of very important matters to the association were acted upon, the principal one being in the reduction of the initiatory fee and the monthly dues, the initiatory fee being reduced to $15 and the dues to $3 a month.

It was also voted to install club house features and to provide the members with keys so that they could use the quarters at will in the absence of the secretary-manager, and a committee was appointed to go into this feature.

A committee was also appointed to arrange for a banquet to celebrate the association's first anniversary next March, also to foster a membership drive to enable the association to better fit its needs, and those of the public as well.

Seeks Manager's Post

The secretary-manager, Attorney Henry Molz, submitted a report of conditions, finances, etc., and was complimented on the way the association work had been carried on. Announcing that he had sent an application to the mayor and council of the city for their consideration of his candidacy for the office of city manager, all present pledged their support in helping to secure the appointment for him, and at the wish of the secretary-manager, his duties were arranged so that it would not be necessary for him to devote full time as heretofore to his office.

The next meeting of the association will be held on Friday, January 18, and it is the hope of the secretary and officers, that the members will turn out in full as a report of the several committees is to come up for consideration and action.

Concluding the meeting, luncheon consisting of sandwiches, coffee and cake was served and enjoyed by all.

MANY SEEK FREE GLANDS

LOS ANGELES, Jan. 12.—Four hundred persons have registered in Dr. E. H. Wheeler's free gland clinic since it was opened here last Monday. It is claimed 40 per cent of those registered have been women. Fifty per cent are seeking renewed youth, while the remainder hope to alleviate varied ills.

ASK COUNCIL TO FAVOR VETERANS

Urge Special Consideration for Ex-Service Men In City Manager Job

In accordance with the expression of a resolution presented to the city council over a year ago, by Dwight R. Stephenson, former councilman and active Legion member, and adopted by that body, Mayor Spencer Robinson and members of the City Council will be asked to give due consideration to the application of any ex-service man for the position of city manager, made vacant by the resignation of W. H. Reeves, a veteran of both the Spanish-American and World wars.

The subject was brought up at the regular meeting of Glendale Post 127, American Legion, last night, and it was the sentiment expressed that with all things being equal, an ex-service man should have the position. A letter to this effect will be sent to the City Council by the post adjutant, E. E. McWain. The opportunities presented in this office for assistance to ex-service men who are in need of employment, are great. The city has numerous places open at times in the street and engineering department for men who have not been educated along a certain line.

Reeves Is Thanked

A rising vote of thanks was extended W. H. Reeves for the work he has done for the ex-service men while acting as city manager. The Legion as a body did not endorse any one candidate for the office.

Report was made that everything was practically ready for the appearance of the Wortham shows here on February 4, under the auspices of the Legion. The Wortham shows are the largest aggregation on the road, carrying 22 riding devices, and have a record for morality and cleanliness that is not equalled by any similar organization in the United States.

FACTOR IN RELIGION

LOS ANGELES, Jan. 12.—Social activity of the church is the most important factor in religion, Bishop William M. Bell, of Philadelphia declared late yesterday at the Pacific Southwest Theological conference in session here.

In his discussion of "The Outreach of Christianity," the prelate declared that "day by day, hour by hour, social activities of the church are taking on greater significance."

THIS IS A GREAT
BARGAIN

Consider the location; ½ block from Brand and ½ block from Glendale Avenue.

Consider what it is; two houses, one of five rooms and one of four, on a lot 50x150.

Consider the price; ONLY $6,000, $3000 of it down, and the rest $50 per month.

Consider the income; live in house and get $50 month for the other; or consider the proposition merely as an investment and get $85 a month by renting both houses.

Consider that in view of the activity on Brand Boulevard and Glendale Ave., this property is bound to rise in value.

It is A BARGAIN; but it won't last long! Phone Glen. 381-M or call at 1229 South Glendale Ave.

AT COST

a beautiful stucco home, 6 large rooms, in northern Glendale. Just completed by an eastern builder, whose one thought is distinctiveness and good homes. All modern built-ins; tile drainboard and bath; hardwood floors throughout; double garage; everything elegant beyond description. Opend Sunday

5 ROOMS and sleeping porch $4975 KENNETH ROAD District

A beautiful bungalow of five rooms and sleeping porch; open to the sun on all four sides; back, front and side entrances; red cement walks with trellised arch; red cement piazza full width of house. The living room is what you would expect to find in a $10,000 home, fireplace, mantel; built-in writing desk and book case; jazz walls and ceiling and a walnut effect on the hardwood floor to match the woodwork; gas and electric conveniences include an electric water heater. Fine large garage, fruit trees, flowers, shrubs etc. It is in the finest location where homes cost up to $50,000. The surroundings are quiet, the scenery and mountain view, well you have to come up and see it to appreciate it. I am making this low price as I must have $2650 as down payment, but you could raise a good part of this amount with a trust deed. Call Sunday between 10:30 and 4:30 o'clock. 1344 Valley View Road. Phone Glen. 2631-M. A. H. Harrington.

WELL, THAT'S OVER!!

We voted the Sewer Bonds by a wonderful majority, showing we have a live, wideawake, progressive city. Now let us think of the results. Those who have vision can see a city of 100,000 people inside the next three years.

Guthrie Will Erect New Office Building On Lot Leased From M. B. Jones

Charles B. Guthrie has signed a lease with Mattison B. Jones, owner of the lot at 208 South Brand boulevard, adjoining on the south the Monarch building, whereby he will at once erect a one story brick building to be occupied exclusively by the Charles B. Guthrie company, realtors, whose present lease at 110 West Broadway has been sold to W. T. Burton, another prominent Glendale realtor.

Contracts have already been let for the construction of the building, Mr. Guthrie states, adding that it will be fitted up in keeping with the scale on which this company expects to do business in 1924, which will be large, if the record of the past week is maintained, when $88,000 worth of property was sold, including the following:

List of Week's Sales

The southwest corner of Harvard and Orange streets, approximately $40,000; the lot adjoining on the north the Charles B. Guthrie residence at 1641 Grand View avenue, $10,500; the northwest corner of Brand boulevard and Burchett street, $20,000; and a house and lot on Central avenue between Wilson avenue and Broadway, $20,000.

Mr. Guthrie believes that the greatest stimulus given Glendale real estate in recent years is passage of the sewer bonds at the Tuesday election. He prophesies that the city will enjoy an unprecedented year of prosperity and is preparing his organization to meet it by leasing the South Brand boulevard location.

As a vice-president of the California Real Estate association, Mr. Guthrie has been kept very busy during January with the larger phases of the realty business. He gives the following list of his appointments for the month:

Guthrie Keeps Busy

January 4, all-day session at Hotel Biltmore, Los Anglees, with the "Committee of Thirteen"; January 5, all-day session of the state directors, Hotel Biltmore, Los Angeles, and a banquet with the Orange county board that night at Fullerton; January 8, address before Alhambra board at their annual banquet; January 10, organization of La Canada board at 9 o'clock in the morning, and banquet at Long Beach in the evening; January 11, annual election of officers at Whittier.

And the balance of the month holds many other important conferences, addresses and banquets in store for Mr. Guthrie, as one of the leaders in moulding California's realty business into the profession of realtor.

BUSY MONTH FOR WELFARE COUNCIL

Holiday Activities Revealed In Report Submitted By Officials

December, the holiday month, was a very busy one for the Glendale Welfare Council, according to the monthly report given at the council meeting early this week, in the City Hall.

Mrs. E. D. Yard, president, directed the meeting, and there were present Mesdames L. T. Rowley, F. S. Card and L. W. Sinclair.

The report of the Welfare Council and Bureau for the month of December included home visits, thirty; visits in answer to Santa Claus letters, forty-two; families assisted, fifteen; new cases registered, ten; interviews at office, seven; employment secured for ten.

Given out at Christmas, 450 articles of clothing; six comforts, 9x12 rug, three beds and springs and mattresses, twelve jars of canned fruit, forty Christmas boxes amounting to $82.75, eleven checks for relief amounting to $94.

Any Glendale resident knowing of a person or persons in need is asked to communicate with any member of the council.

Bicycle side cars are being used in Germany.

CERTIFICATE OF BUSINESS
Fictitious Firm Name

THE UNDERSIGNED do hereby certify that they are conducting a used auto business at No. 914 South San Fernando Road and a branch at No. 1313 South Brand Blvd., Glendale, California, under the fictitious firm name of CALIFORNIA MOTOR CAR EXCHANGE, and that said firm is composed of the following persons, whose names and addresses are as follows, to-wit:

C. L. Chandler, 116 West Los Feliz Road, Glendale, Calif.
Robert D. Neale, 697 Orange Grove Ave., Glendale, Calif.

WITNESS our hands this 8th day of December, 1923.

C. L. CHANDLER.
ROBERT D. NEALE.

State of California, County of Los Angeles.—ss.

On this 8th day of December, A. D. 1923, before me, Sara E. Pollard, a Notary Public in and for the said County and State, residing therein, duly commissioned and sworn, personally appeared C. L. Chandler and Robert D. Neale, known to me to be the persons whose names are subscribed to the within Instrument, and acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal the day and year in this Certificate first above written.

(SEAL) SARA E. POLLARD,
Notary Public in and for said County and State.

Dec. 15-22-29-Jan. 5-12.

SPAIN, ITALY TO AGREE ON TRADE

Consortium Is Proposed To Eliminate Competition in Foreign Marts

MADRID, Jan. 12.—Organization of an export consortium for the advantageous disposal abroad of similar lines of Italian and Spanish produce and the promotion of direct trade between the two countries are the two practical phases of co-operation which are now being considered by the Spanish Directory and the Italian government, according to information from authoritative government circles here.

The export consortium is in the nature of an experiment and is intended to prevent destructive competition between Italian and Spanish products. Italian and Spanish olive oils now compete in the North American market; their wines in Switzerland and their grapes and oranges in the Baltic provinces and in Great Britain. It is reported that the consortium will establish "zones of sale" for produce according to the importance of the market and the numbers of Spaniards and Italians established in the purchasing nations. Tariffs would be fixed according to the standards of goods.

Values Hinder

Depreciation of both the lira and the peseta is causing some difficulty to the drafters of the commercial treaty. It is understood, however, that the Marquis de Estella has made concessions in this regard to meet the Italian demands, and in return the Italian government has agreed to permit the import into Italy of Spanish rough wines.

In the manner of improved facilities for trade and communication definite plans are now understood to have been worked out. The improvement of sea communications and the creation of new telegraph facilities are immediately contemplated. Reduced passenger fares and freight rates are to be inaugurated between Genoa and Barcelona, and new services are planned. A government subsidy, it is expected, will be necessary to accomplish this, as shipping companies are unable to afford further facilities. In the event of such a subsidy foreign companies would be placed at a disadvantage.

Plan Cable

A direct wireless service between Spain and Italy is now in existence, but ordinary messages must pass through France. A cable, it is planned, will be laid shortly between Italy and the Azores, linked with the Western Union, which will touch at Malaga and Cadiz. The Spanish government also recently gave facilities for financing the Italy-South America direct cable, and approximately 12,000,000 pesetas have been subscribed through the intermediary of Spanish banks. Control of this cable will afford the Spanish government facilities for the propagation of direct Spanish news and counteracting the "constant misrepresentation of Spain" which is a cause of grievance throughout Spain.

Auto 'Balks', Angered Owner Applies Torch

LODI, Jan. 12.—Angered because his car, like a balky mule, refused to move, A. W. Macey of Victor built a fire beneath the machine to warm the engine and a few moments later watched the flames envelop and completely destroy it.

Macey later said he had attempted for half an hour to start the engine without success. He declares that he might as well not own a car as one that will not run.

Coyote Pelt Sale Is Lucrative to Nevada

RENO, Nev., Jan. 12—The state treasury received $9,101.81 through the sale of pelts of coyotes and other wild animals during 1923, according to the report of E. R. Sams, head of the biological survey.

The entire proceeds belong to the state, as the animals are killed by state-employed hunters working with the biological survey.

Glenn County Ships 500,000 Lbs. Turkeys

WILLOWS, Jan. 12.—Five hundred thousand pounds of turkeys were shipped from Glenn county to Los Angeles during the holiday season, it is announced by the shippers. Willows alone dispatched 300,000 pounds and shipments from Artois and Orland complete the total.

Prices averaged 25 cents per pound.

No Arab knows his exact age.

STATE HOUSE IS PRIDE OF IOWAN

Skilled Workers Brought to Des Moines From Europe to Carve Furniture

DES MOINES, Ia., Jan. 12.—It is a far cry from Des Moines to the ancient castle of Napoleon Bonaparte at Fontainebleau, France; and the Iowa dirt farmer probably thinks he has nothing in common with the elegant land of Richelieu and Louis XVI.

Such, however, is not the case. If the thousands who visit the State House every year and sit cooling their heels in Governor N. E. Kendall's antechamber were not so hurried by the rapid march of these times they might observe a similar elegance in their surroundings.

There is a large table of reddish wood, with curving legs ornately carved in the "griffin" design. The wood might be native cherry or birch, but actually it is the finest imported mahogany.

Heavily Carved Frames

A tremendous mirror faces the governor's door, with a heavily carved frame depicting gargoyle faces, flowers and scrolls. Doors and window frames, moldings and other decorations are of the same beautiful workmanship.

Some forty years ago, the progenitor of the Harbach family here won the contract for this work. He imported skilled woodworkers and cabinetmakers from Europe especially for the task. Laboriously, in strange contrast to the present method, this furniture was built.

French Architcet

A great French architect—A. H. Piquenard, of Springfield, Ill. —who had drawn the plans for the State House, also designed this furniture. It was intended to duplicate as closely as possible the furniture in the imperial palaces at Fontainebleau and to carry out the artistic setting created by M. Piquenard.

The governor's offices were intended to preserve this same air of Old World grandeur. Strikingly veined marble of many hues was found and built into varicolored and ornate wainscotings. The Supreme Courtroom was said to have been an exact duplicate, except for the justices' bench, of a room at Fontainebleau.

Covered With Soot

Now all the splendor of the '80s is gone, concealed under a smudge of soot from Des Moines' myriad smokestacks, so that the casual visitor sees nothing but some quaint old furniture.

More discerning was General Gouraud, France's one-armed here, who visited here recently as a guest of the American Legion. When he was escorted to a reception at the State House he stood beaming in rapture at the magnificence of Governor Kendall's private offices and declared that in all his travels through the United States he had not seen anything to equal them.

MATING OF WEAK MINDS IS PERIL

Judge Sees National Menace In Union of Persons Mentally Unfit

OSWEGO, N. Y., Jan. 12.—Permanent incarceration of the mentally unfit in state-owned institutions where it will be impossible for them to marry and add to the nation's insane is urged by Judge Francis D. Culkin, of this city.

Judge Culkin's statement is embodied in his annual Children's Court report to the Oswego County Board of Supervisors. In it the leading up-state jurist says:

"I have been appalled at the terrific number of subnormal children who have been brought into this new court. It indicates a serious situation in our community and one which, if not corrected, perhaps will be a menace to the future of popular government. It is authoritatively stated that 23 per cent of the draft was subnormal. This statement seemed to me to be absurd, although it was made by governmental authority. My experience in the Children's court has led me to believe that this statement is true.

Cites Livestock

"A weak strain in livestock—whether it is a horse, cow or pig—is eliminated by artificial selection. The community permits the unfit to mate with the fit, and huge families of defectives are the result. These types have no place in a republic. It is imperative that this problem be met and handled, and handled vigorously. It is now the accepted policy to handle these cases by commitment to custodial institutions, where the sexes are segregated and thus permanently eliminated from the procreative field."

The jurist condemned the practice of sending such defectives to state prisons and urged they be sent to comfortable institutions where the sexes would be segregated so that "the type will pass and cease to be a load upon the nation civicly and economically.

"It is a lamentable fact," he asserted, "that these unfortunates have large families, and there is no numerical counter-balance by the children of the fit. The latter are contented with one or more children; with the former the sky is the limit. The state has just been authorized to spend $50,000,000 for custodial homes for these types. This will help the situation somewhat."

Codfish are the lobsters' worst enemies.

Pearl Keller, In Talk At Tuesday Afternoon Club, Urges Dancing as Part of Every Child's Education

SPEAKER OUTLINES ART'S INFLUENCE ON YOUNG FOLK

Teacher Declares There Is Need for Right Kind of Physical Expression

By KATHERINE V. SINKS
Of The Evening News Staff.

"Dancing should be introduced as a part of every child's education," was the declaration made yesterday afternoon by Pearl Keller, well known Glendale dancing and dramatic art teacher before a group of Tuesday Afternoon club women and guests meeting with the Music Section of the club in the auditorium at the clubhouse.

Miss Keller is more than a resident of Glendale, she is a cultural institution, for she stands for the Pearl Keller School of Dancing and Dramatic Art. She is deserving of the highest praise for the lecture recital presented yesterday by her, assisted by a group of her talented pupils. The only regrettable feature of the affair is that the clubhouse auditorium was not filled to capacity for what may well be called one of the most educational and artistic programs ever given on the clubhouse stage.

Come in Close Touch

The Keller School of Dancing and Dramatic Art is known to every resident of Glendale and to people in all parts of California, and yesterday Glendale women had the opportunity to come in touch with Miss Keller's cultured personality and catch a glimpse of the ideals that have brought her wide recognition and success in her professional career and nine years of teaching children.

Mrs. Warren Roberts, curator of the section, was greatly missed, but owing to illness, she was unable to be present. Mrs. Eva Cunningham was in charge of the gathering and introduced Miss Keller.

Miss Keller had arranged a wealth of information on dancing and presented it in a most pleasing manner. She began with a sketch of the ancient dance, used 6000 years ago by the Egyptians in their religious rituals. She also gave Biblical references to the dance and of the influence of Grecian ideals on dancing.

Tribute to Dancers

Highest tribute was paid to prominent American dancers, whom Miss Keller declared had brought about the renaissance of the Grecian, Russian, French, Oriental and other dances. She mentioned with reverence the names of Isadora Duncan, Ruth St. Dennis and Maude Allen.

In paying tribute to Marion Morgan, with whom she has studied and whose technic she uses in her work, Miss Keller said "To my mind there is another who stands supreme and alone as an educator of the dance, and who is internationally accepted as a master mind and genius in her field of art. This great and wonderful woman is our own dear Marion Morgan.

"She began her career here. She taught in the schools of Los Angeles, and even then was recognized as a genius in her line. When Miss Morgan sought larger worlds to conquer, she went to Martin Beck in New York, and submitted a dance act for his approval. She did not pick her dancers in the metropoolis, she obtained each and every girl right here in California, so California should be very proud of Miss Morgan and her co-workers for, as an American producer of dance rama, she has no equal, and as a pioneer in the subtle art of pantomime she is rapidly becoming known as the one great teacher in this fascinating but difficult art."

Dancing Comes Naturally

Miss Keller continued in part:

"It is natural to dance. Rhythm is found in nature. When in later years we find joy in bodily rhythm, our minds also demand expression and through the rhythm of the body we express our mental moods and emotions. Our modern civilized life is one of repression. We act according to what is considered good form. We all have undreamed of faculty for self-expression and in the dance this dormant longing for freedom finds infinite possibilities.

"To feel like a bird and be able to act birdlike is a joy; to desire the grace of a lily and feel oneself attaining this grace is much pleasure; to feel the unattainable yearning as revealed in great music and to express with the face and body this same yearning is to feed one's soul.

"Dancing offers a means of self-expression not attainable through any other medium. In music the instrument is foreign to ourselves, it is wood and metal, it is a means to a purpose. In singing, the voice is the means. In sculpture and painting the marble and paint are the means, but in dancing, our emotions, our visible souls are the means. Because of this, dancing will always live, it is fundamental to our natures."

Tells of Her Work

The speaker then gave the schools of dancing as developed in the various countries and told and then spoke intimately of her work with children. She said:

"From dancing a child gains a knowledge of rhythm and of music and a sense of proportion and grace that will help make for happiness through life.

"Dancing removes self-consciousness, for it impels them to concentrate on what they are doing, and they learn balance and pose. If we bar dancing from the world we bar one of the supreme human expressions of happiness and exultation. The tiny child skips for joy and prances to the music of the hand organ long before it knows the difference between happiness and sorrow, for dancing is the physical expression of music. Dancing is silent poetry.

"One of the greatest reasons why dancing is better than any other form of physical development, is because it is the only form of exercise that takes care of and develops all parts of the body. I have taken children suffering from all kinds of ailments and physical defects, hip disease, rickets, pigeon-toed, knock-kneed, spinal trouble, nervousness, asthma, etc., and I have seen these children develop into strong, healthy normal little beings through the application of the dance technique."

Teach Love of Art

As for the modern ball room dancing, Miss Keller said:

"It is a mistaken idea that to teach children to dance will lead them to the dance hall. The best way to fortify children against harmful literature or the demoralizing in art, is to teach them to love good literature and real art and the same rule applies to dancing."

Beautiful demonstration of the work being done by Miss Keller in her school was given by a group of her pupils. This part of the program was "Demonstration of the Marion Morgan Technique" by Evelyn and Leona Hunt and Eleanor Marek; toe dance, "Dragon Fly" and "Russian Dance" by Cecilia Mae Fischer; "Indian Dance" by Julia Pelley; "Highland Fling" by Nellie Aleshire; dance of "Sorrow and Joy" by Marie Louise Brown; "Oriental Dance" by Katherine Sonntag; "Dance of the Cupid" by Elizabeth Hoffman; "Patriotic Dance" by Eleanor Marek; and a recitation, "Out Where the West Begins" by Katherine Jane Bruner.

Presentation of Buds

Mrs. Gertrude Champlain Erb was the able accompanist and the talented work of the pupils was most heartily applauded.

At the close of the program Mrs. Alexander Mitchell presented Miss Keller with a basket of beautiful rose buds to express the love of the Tuesday Afternoon club and the appreciation of the Music Section for the many courtesies she has extended in furnishing them programs.

Mesdames James J. Cunningham and G. R. Truman were hostesses for the social hour later and served tea in the Italian tea room.

Dancing, Dramatic Art Expert

Pearl Keller, talented dancing and dramatic artist and successful director of the Pearl Keller School of Dancing and Dramatic Art, at 140-A North Brand boulevard, who presented a lecture recital yesterday afternoon at the Tuesday Afternoon clubhouse, under the auspices of the music section of the club.

BOOST GASOLINE PRICE

CHICAGO, Jan. 12.—An increase of 2 cents a gallon in the price of gasoline at filling stations in eleven states by the Standard Oil Company of Indiana became effective this morning, officials of the company announced. The new price will be 18 cents. The tank wagon price has also been advanced 2 cents a gallon, according to officials.

TO CURE MEAT

Portable smoking apparatus has been invented that can be connected to any chimney to cure meats at home.

IRISH TENOR IN VARIED PROGRAM

Allen McQuhae Wins Hearts of Music Lovers In Concert at Club

Allen McQuhae, young Irish tenor, came to Glendale last night and captured the hearts of over 600 Glendalians who heard him at the Tuesday Afternoon clubhouse under the auspices of the Glendale Music club.

His appearance before the Glendale audience has been written in Glendale Music club records as the feature event of the year, and the regular club audience was greatly enlarged last night by additional members and others who were desirous of hearing the nationally-heralded McQuhae.

Last night the gifted tenor opened his program with nothing less exacting than two of Handel's airs, and, in so doing, he did not err. The first was "Where'er You Walk" and the second "Omra Mai Fu," best, and incorrectly, known as Handel's "Largo." Later in the evening he gave, as an encore number, "The Total Eclipse of the Blind Samson," by Handel. In the delivery of each of them there were abundant technical skill and a fine dignity and purity of style.

Group of Songs

His second group of songs were French and German, and in these, as in his English and Irish numbers, his wonderful enunciation was an outstanding part of his work.

Of particular interest to the Music club was his singing of the aria, "If With All Your Heart," from Mendelssohn's "Elijah," to be given in the early spring by the oratorio section of the club, directed by John Smallman.

Another enjoyment of the evening was a generous selection of Irish folk songs, which Mr. McQuhae can sing to perfection. And the versatility of the singer was proven further in a group of modern songs by Campbell-Tipton, German, Glenn and Cox.

After the final number prolonged applause called him back again and again, until he appeared with a broad smile to sing the delightful old Irish song, "The Low-Backed Car."

Serving as accompanist was William Tyroler, who is always heartily received by Glendale music lovers.

Welcomes Audience

Before the program Mrs. Mattison B. Jones, club president, greeted those present. She announced that the artists' section of the club is to meet at her home Friday night of next week, for a French program.

A meeting of the teachers' roundtable is to be held Wednesday, January 23, at the Glendale Tavern.

Other announcements were that the junior auxiliary is to have a social meeting the fourth Saturday night of January at the Pearl Keller studio, and the juvenile meeting Saturday afternoon, January 26, at the W. G. Lauderdale home at 446 Riverdale drive.

GIBBONS VS. WIGGINS

NEW YORK, Jan. 12.—Tom Gibbons and Chuck Wiggins have been matched for a bout at Indianapolis January 31, Eddie Kane, Gibbons' manager, announced late yesterday. It will be Gibbons' first fight since he lost the decision to Jack Dempsey at Shelby, Mont., last Fourth of July.

NEW CLOTHES DRYER

Folding when idle to save space, a new clothes dryer uses gas for heat and an electric fan for ventilation.

LA CRESCENTA P.-T. A. OFFICERS ATTEND MEETING

Plans for Lecture Courses On Child's Welfare Are Outlined

Mrs. C. W. Angier, president of the La Crescenta Parent-Teacher association; Mrs. Ward Van Duesen, chairman of the program committee, and Mrs. Meyers attended the First District conference of the Parent-Teacher association, held in Monrovia. Mrs. Angier reports a splendid program, the principal speakers for the afternoon being State President Mrs. Hugh Bradford and Miss Orpha Jean Shontz, former referee of the juvenile courts. The music, which was exceptionally good, was furnished by the Monrovia Glee club.

In reference to the excellent work being done throughout the state, our local P.-T. A. president announces there will be six lectures given in Glendale under the auspices of the Mutual Benefit Reading circle. These lectures are to be given by the extension departments of the University of California, southern branch. The lectures will be on the all-important subject, "Child Training." The professors who will deliver the lectures are reputed to be specialists on their respective subjects.

List of Subjects

The subjects to be touched on in this course are as follows: "Child Nutrition and Growth" by Dr. Helen Thompson, "Period of Infancy" by Miss Barbara Greenwood, "The Pre-School Age," Miss Madaline Vereska, "The Elementary School Age," Miss Ethel Salisbury, "The Adolescent Period," Dr. Chas. W. Waddle, "The Triple Alliance" (Parent, Teacher and Child), Prof. F. P. Meliner. To procure this course it is necessary to sell 150 tickets, for which there is a very nominal charge and Mrs. Angier asks the hearty co-operation of all parents in the valley.

Those who desire to enrich their minds by attending the lectures will please communicate with Mrs. Angier of East Altura avenue without delay. The cost for the whole course of six lectures is $7.50.

Mrs. H. Butterfield of Seattle, who drove down here for the New Year's day festivities, has returned north after spending her short visit with her daughter, Mrs. Alice Singleton of Honolulu avenue.

Don't forget the big barn dance tonight given under the direction of Mrs. Dean Culberson and Mrs. Rose Nettleton. There will be fun for all, both large and small. Don't wear anything but barn dance clothes, overalls and gingham aprons. The ladies have promised some novelties in the way of refreshments and some old-fashioned square dances. The proceeds will go to the building fund of the Women's club.

The dance will be held as usual in the auditorium and we are promised some splendid new music entirely different from what has been used.

To Launch Subdivision

Another large subdivision is to be opened tomorrow, close to the very heart of town. The new subdividers are Howard & Mead. The lots will, no doubt find a ready sale.

The meeting called by the officers of the Crescenta Mutual water company was very well attended. An interesting report was given by the county engineer, M. Shundracer. The question of forming a water district to take care of the tremendous growth of the valley was ably presented by the chairman of the evening, A. W. Brown. It was, however, decided to have a committee on investigation appointed with members from each water company to represent their respective companies. Those representing the Crescenta Mutual Water company are Mark S. Collins, chairman; Fred Anderson, J. L. Brown, G. Carson, D. Culberson, H. Persons, C. Haskins, T Belanger, C. Rhinehart, Dr. Nettleton and G. Scully.

When this committee has thoroughly investigated the matter, another meeting will be in order to discuss the matter with the stockholders.

ILLEGAL LIQUOR TRAFFIC

WASHINGTON, Jan. 12.—Following an investigation by the department of justice, the United States Senate informed the British government that evidence indicates the British steamer Island Home, seized in the Gulf of Mexico by customs agents, was engaged in an illegal liquor traffic, it has been learned. A protest against the seizure was made by the British foreign office.

PROPOSES PROMOTIONS

WASHINGTON, Jan. 12.—The promotions of Major-Generals Hunter Liggett, Henry T. Allen and Robert L. Bullard to the rank of lieutenant-general was proposed in a bill introduced in the House by Representative John Phillip Hill of Maryland. The promotions would be made as an official recognition of the service of the commanders in the World War.

COOLIDGE CAMPAIGN

WASHINGTON, Jan. 12.—President Coolidge's campaign managers concluded arrangements late yesterday for an energetic campaign for Indiana's 22 delegates to the Cleveland convention. Formal announcement was made of the selection of Ewing Emison, a Vincennes attorney, to handle the president's pre-convention interests in the Hoosier state.

FOOTBALL FOUNDER

Gerrit Smith Miller, reputed to have been the founder of organized football, and though still alive at 78, has been honored at Dedham, Mass., by a tablet set in the Noble and Greenbugh school there. Charles W. Eliot, president emeritus of Harvard, where Miller attended college, was present at the ceremony. In 1862 Miller captained and led to victory the first football team formed in this country.

Marionette players at the Scala theatre, London, consist of 500 dolls, each four feet high, and these are used in the production of opera and Shakespearean and other plays.

CONVICTS IN MUTINY

MONTEVALLO, Ala., Jan. 12.—Mutiny broke out among the state leased convicts employed by the Thomas Weller Coal Company at Aldierich, near here late yesterday. Machinery and trucks in the mine were blown up, according to reports reaching this city. Company officials declared the trouble was overcome quickly by a detachment of guard reserves.

MAN AND MONEY GONE

LOS ANGELES, Jan. 12.—Missing with $25,000 in checks and $1,195 in currency in his possession, George E. Holmes, janitor for the A. A. Houseman Company, bond brokers, is being hunted throughout Southern California by the police. Holmes, who is 22 years old, disappeared Thursday after leaving for a bank with the money.

TO RAISE COTTON

The Spanish government is encouraging cotton cultivation in the hope of restoring a once profitable industry, practically abandoned years ago.

Fuller's earth, used for degreasing wool and clarifying oil, is a fine-grained deposit consisting chemically mainly of hydrated aluminum silicate, but differing from ordinary clay in its low plasticity.

The name Eskimo is the modern Danish form of the older French Esquimaux, the latter derived from Wiraskimowok (raw-flesh eaters), applied to these people by their neighbors, the Cree Indians.

NEW LICENSE PLATES READY ON MONDAY

GREAT YEAR AHEAD FOR INDUSTRY

Pacific Coast Will Have Prominent Position In Business Growth

That 1924 will be another big automobile business year is the forecast made by the leaders of the motor car manufacturing industry.

Basing their motor vehicle building campaigns for this year on their confidence in the accuracy of this forecast big makers of the quantity production group are preparing to increase their output from 50 to 100 per cent over that of 1923.

Wise men high up in finance and trade prophesy not only a continuation but an increase of business prosperity during the next twelvemonth. It is their belief that the Mellon plans for radical reduction in taxation and the practical certainty that congress will be compelled by virtually unanimous public opinion to put through legislation to this end will of itself assure a new era of even better times for the United States.

Fear that the presidential campaign of 1924 will bring about the usual quadrennial slow down in trade is not proving at this political stage the business man's bugaboo of former leap years. For this the country is largely indebted to the world's greatest maker of motor cars, who has eliminated himself as a presidential candidate and by his withdrawal reduced the danger of a triangular fight of dubious outcome to the minimum.

Makers of passenger cars who

Native Son at Head of Auto Association

Californians are pointing with pride to the fact that Ernest N. Smith, the newly appointed general manager of the American Automobile Association, is a "native son" of the Golden state.

The new business executive of the national organization of motor car owners was educated in the public schools of San Diego and San Francisco, and is an alumnus of Stanford university. He was in business in San Francisco and Los Angeles for a number of years. He went east in 1917 to become general secretary of the chamber of commerce of Indianapolis, which organization he built up until it was one of the largest in the United States.

In 1921 Mr. Smith was called to Washington, D. C., to create a campaign department of the chamber of commerce of the United States.

Wearing of a certain lace called Point de France was in 1655 compulsory to all those attached to the royal household or received by King Louis at Versailles.

Registrations Will Reach 1,300,000

SACRAMENTO, Jan. 12.—Auto registrations in 1924 will reach at least 1,300,000, according to Will H. Marsh, chief of the State Motor Vehicle Department. This will be an increase of nearly 250,000 over the 1923 record.

Applicants will receive plates and certificates within thirty days following application at Sacramento or at branch offices in Los Angeles, San Francisco, Fresno, Oakland and San Diego.

Los Angeles County Has 400,000 Autos

Los Angeles county registered 400,000 automobiles in 1923 in addition to 30,000 trucks, motorcycles and tractors, according to Will H. Marsh, superintendent of the State Motor Vehicle department. Collections from Los Angeles county were $4,000,000.

Japan now has sleeping cars for third-class passengers.

FORESTS LURE HUGE HOST IN AUTOS

More Than 88 Per Cent of Total Visitors at Playgrounds in Private Cars

SAN FRANCISCO, Jan. 12.—Eighty-eight per cent., or more than 3,750,000 visitors to California national forests in 1923 came in private cars, according to a report just issued by Paul Redington, district forester.

Statistics gathered by the United States Forest Service bureau show that 4,336,700 persons entered "America's greatest playground," the California national forests in 1923.

Of this total 2,420,000 or 56 per cent were transient motorists; 768,400, or 18 per cent were picnickers; 618,000 or 14 per cent campers; 430,600, or 10 per cent were summer-home owners and holders of special use permits from the Forest Service.

This is the first time in the history of the California district that a detailed estimate of the number of visitors to the seventeen national forests of the state has been made; the figures represent the work of more than 100 rangers, supervisors and other federal officers in co-operation with automobile associations, railroads, stage companies, and hotel and resort managers.

L. A. Heads List

The Angeles national forest in southern California heads the list with 1,671,000 visitors. The records show that more than 50,000 persons frequently entered this popular mountain resort on a single Sunday or holiday. The

EIGHT RACES AT OPENING OF TRACK

New Ascot Speedway's First Program Takes Place on Sunday, January 20

LOS ANGELES, Jan. 12.—New Ascot Speedway, a steeply banked, oiled macadam course, flanked by the largest seating stands of any speedway in the world, will open on Sunday, January 20, with a program of eight motorcycle and automobile races. Similar programs will be offered each following Sunday and on holidays. A prize list totaling more than $200,000 will be hung up during the season by George R. Bentel, who is sponsoring the newest style of motor race courses. Bentel owned and operated the original Ascot Park speedway which fell a victim to sub-dividers three years ago.

Many on Entry List

Many famous pilots of the modern cars of Juggernaut will participate in the initial meet.

More than thirty-five entries have already been received. Fifteen of the most daring motorcycle riders will also match their skill and daring with the scythe-wielder.

The events will be run under the rules and sanction of the International Motor Contest Association and points scored at Ascot will count in the national championship table. A dozen prominent eastern and middle west drivers are already in Los Angeles awaiting the start of the first race. Eddie Pullen, hero of many of the old Ascot speed duels will act as starter. The course was built by Paul Derkum,

(Continued on Page 2)

Auto Club Makes Clear Its Service On License Plates

Statements at variance regarding motor vehicle license renewals for 1924 have brought confusion in the minds of motor vehicle owners, resulting in numerous telephone calls at the State Division of Motor Vehicles and the Automobile Club of Southern California. The situation briefly may be summed up as follows:

The auto club will cooperate with the division of motor vehicles in the distribution of plates, the club serving its members only and visiting tourists, who will be supplied with plates from the thirty offices of the organization in this section of the state. Issuance of renewals will begin January 14.

This is the first time that the license will be available in all of the offices of the club, which will eliminate the delays of previous years, due to applications having to be cleared through the headquarters in Los Angeles.

The 1923 certificate of registration and a fee of $3 must be presented for license renewal. This applies to all cars except commercial vehicles. The owners of these are taxed a higher rate and they must bring a certified weight certificate with the license application.

Quick Stop Demands Use of Both Brakes

On a dry pavement, if a sudden and unusual stop must be made, throw out the clutch, apply foot brake with full force and asssist with hand brake. The driver should never get excited and lose his head.

SPECIAL SERVICE WILL BE GIVEN CLUB MEMBERS AND SOUTHLAND TOURISTS

Uniform Fee Is $3 On All Cars Not Driven For Profit; Local Manager M. B. Towman Explains Points in Motor Act

By H. THOMPSON RICH
Of The Evening News Staff.

License plates for 1924 are green with white numbers. They may be obtained at the Glendale branch of the Automobile Club of Southern California, corner of Brand boulevard and Colorado street, starting Monday, January 14.

This is a special service by the club to tourists and members, states M. B. Towman, local manager, and is one more example of the effort being made by this great organization to smooth the path of the motorist to a fuller enjoyment of the beauties of the Southland.

A number of points in the new motor vehicle act are made clear by Mr. Towman. The uniform license fee on all cars not driven for profit is $3 a year, effective February 1, 1924, regardless of size, weight or horsepower, and new cars purchased between now and that date will be obliged to pay one-fourth of the old yearly rate of 40 cents per horsepower, or 10 cents per horsepower.

Operators' Licenses

Chauffeurs' licenses must be renewed, at a cost of $2, but operators' licenses issued since January, 1920, are effective until revoked. Vehicles driven for profit will pay a fee of from $10 to $40, according to type, weight and tire equipment. Cars of the pneumatic tire type will use the regular license plates, while those with solid rubber tires will be issued special plates bearing the word "commercial" in addition to the number and state.

A 1923 certificate serves as an application for a 1924 license, declares Mr. Towman, and these certificates will be received at the local office of the Automobile club and license plates issued upon receipt of the stipulated fee.

Two Ways to Do It

Those who are neither tourists nor members of the club, but who own cars, may get their 1924 licenses in one of two ways. Either they may mail applications for such renewals direct to Sacramento, care of the Motor Vehicle Department, or they may visit in person the branch of this department located at 1630 South Flower street, Los Angeles. In any event, all motor vehicles operating in southern California must be equipped with the new license plates by March 1.

Many have wondered just what becomes of the money car owners contribute to the motor vehicle department. Says Mr. Tow-

YEAR SHOWS BIG SALES INCREASE

Studebaker Business Jumps 112 Per Cent in Glendale, Packer Reports

The Studebaker slogan, "This Is a Studebaker Year," was amply borne out by the sales record established by the Packer Auto Co., 245 South Brand boulevard, distributors for Glendale, Burbank and Eagle Rock, according to the figures quoted by the firm, which states that the business in 1923 showed an increase over that of 1922 of 112 per cent, in the Glendale business, while the other two towns ran almost double the 1922 volume. Studebaker sales, the firm claims, exceeded those of any other car in the same territory except those of the Ford and Chevrolet cars.

"We are going to better that record in 1924," declares Robert L. Conover, sales manager, and we have already got off to a flying start. And remember that this record was made in the face of the keenest competition ever experienced in the automobile business. We had to fight for every advantage we gained, but the Studebaker quality, backed by the prices made possible by the immense production of the Studebaker factories, enabled us to win all along the line.

"With the prospects of unexampled prosperity in 1924, as predicted by all industrial experts, we are setting our sights for another record that will dwarf that of 1923, and every man in the Packer organization is up on his toes to make this another, and the best, Studebaker year.

Eight Races at Opening of Track

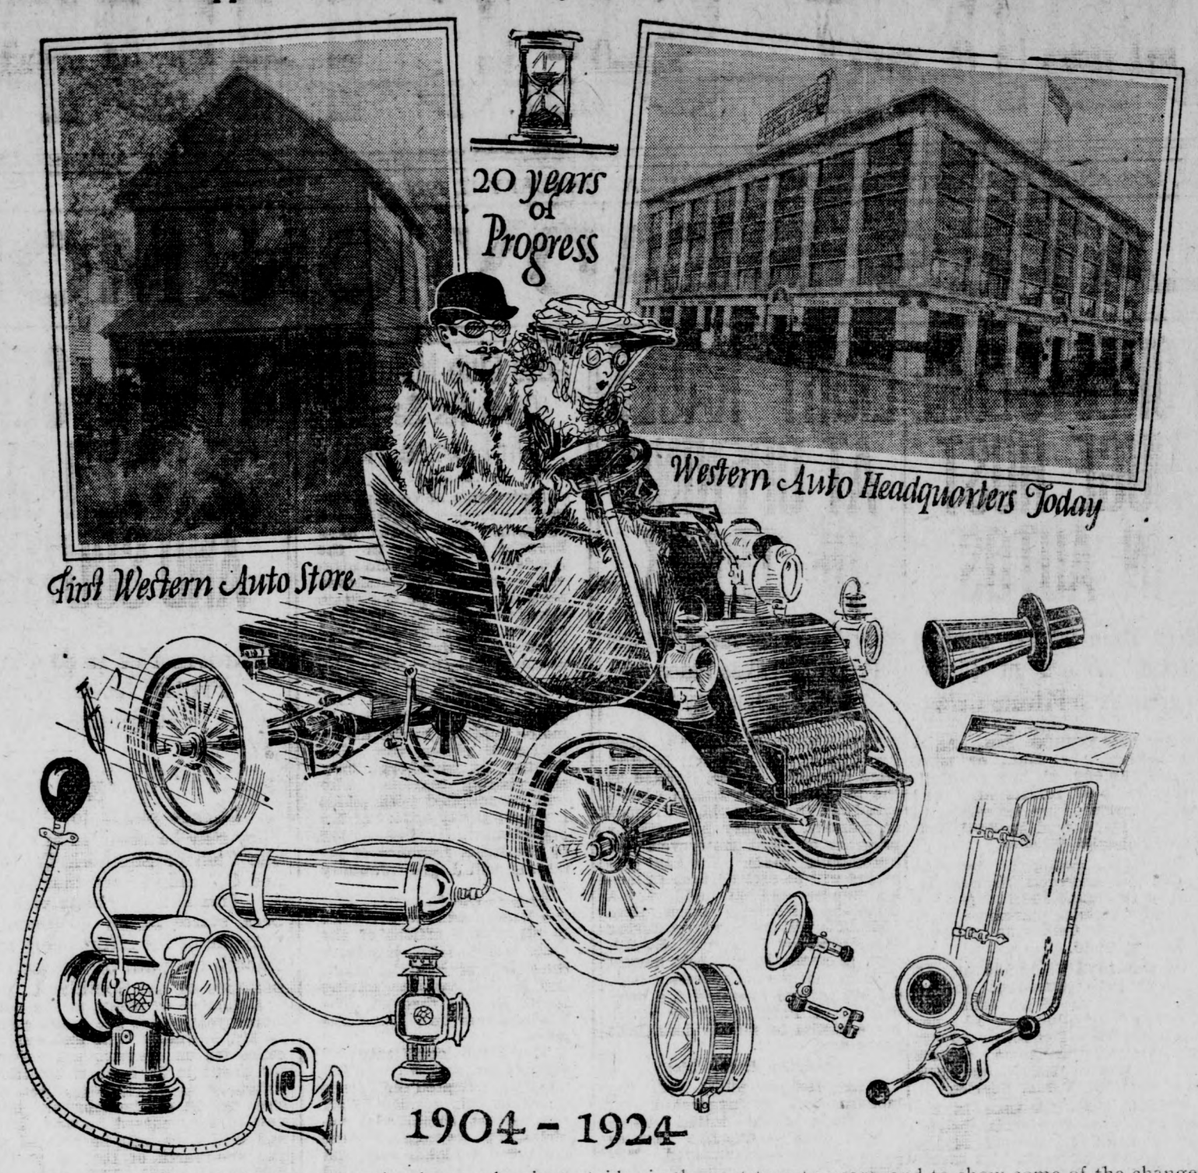
(Continued from Page 1)
noted motorcycle racer of a decade ago. Speed fans declare Darkum has produced a masterpiece of speedway construction.

The speedway is situated in the center of a 170 acre tract. the remainder to be used for a fair grounds and amusement park. Ascot is less than three miles from the center of Los Angeles, being located adjoining Lincoln Park.

The name coal is a word common to all languages of the Gothic stock, and is probably allied to the Latin calere, which means "to be hot."

ACCESSORIES HELP TO MAKE CHANGES IN LATEST MODEL CARS

Extras Aid to Appearance of Autos; Many Changes Occurring During Past Twenty Years



The development of things automotive has made giant strides in the past twenty years, and to show some of the changes that have taken place in automobile manufacturing and in automobile accessories, the above is offered. At the top, left, is shown the first Western Auto store. At the right is shown their present headquarters. The drawing in the center illustrates the way motor enthusiasts looked in the early days of Western Auto.

By C. PURCELL SCOTT
Written for The Evening News

In observing the upward trend of automobile improvements as auto shows come and go each year, it is doubtful if the enthusiastic admirers of the new models give much thought to those who are in an indirect way responsible for the yearly changes and let their praises fall where the credit is due.

As far as the motor and chassis are concerned, it may be said that they have attained a degree of standardization in which epoch marking changes in their design are hardly to be expected. It is the body design and equipment that brings forth the "Ohs" and "Ahs" from those inspecting the new models. This is evidenced by the marked popularity of the sport models and enclosed cars, which are more elaborately equipped than the modest touring or roadster models.

Cause of Changes

From the earliest years of the automobile industry until the present period, it has been the accessories or extras that have brought forth the changes in the car. The automobile manufacturers were more conservative in the days of the motor car's infancy. When the prospective buyer would read in the catalogue that the two-cylinder "Rumbler" listed at $1850, he knew that at that figure he got the car and nothing more—$1850 "as is." No top; that would cost him extra if he wanted one. Headlights; that would mean additional expense. If he wanted to keep that schoolgirl complexion, he added a windshield; that was extra. After adding all those luxuries, he would no doubt want to know how fast the car would ramble and in order to satisfy his curiosity he would again rap the family purse for the price of a "speed-meter."

No one ever dreamed that the day would come when automobiles would come equipped with tops, windshields, headlamps, spare tires, spot lights, bumpers, locks, disc wheels, windshield wipers, rear view mirrors, gas and oil gauges and all other such equipment that we today expect and consider commonplace. If any hardy soul had ever dared deem such a thing probable, he kept his ideas to himself, for had he voiced such a thought, he would have no doubt been the recipient of many an inquiring glance. Nothing of the kind was ever suggested or discussed as the automobile was considered by many, as being merely a passing fad that would soon have had its day. "No, sir; it wasn't practical and wouldn't last."

Something Better

But the man who manufactured the two-cylinder "Rumbler," soon discovered that unless he added certain additions to his new models, the public would turn away from his car and would become a nation of "Olobile" drivers. For had not the "Olobile" people recently announced that the list price of the new two-cylinder "Olobile" would be $1850—top and all-brass windshield included.

So it has been throughout the history of every motor car manufacturer that in order to keep up the sales it would be necessary to keep up with the "Olobile makers." Thus it is shown that it has been, to a large extent, due to the makers and distributors of these additions or extras, that the automobile has reached its present day state of development.

It was in those dark days of the automotive industry that there appeared in Kansas City, the nucleus, for what is today generally accepted throughout the world as being the largest institution of its kind in the entire world—the Western Auto Supply company. They, too, had their trials and hardships in trying to induce the pessimistic public to believe that automobiles were really practical, and that certain items were necessary to driving safety and comfort.

Wear "Auto Face"

For driving on a windy day, it was suggested that an "auto face" should be worn, which was a queer contraption that "completely covered the face and ears and kept out the dust and wind." On down through the years as the little company grew and expanded with the automobile industry in general, they called the attention of the driver to the fact that "electric lamps were really practical and were here to stay," and announced all such new innovations that soon were to become standard equipment on automobiles.

The point of the whole thing is, that while accessories or "extras," are today regarded as minor details in comparison with the automobile, they really constitute an important adjunct, and have done much to bring the automobile to its present status. Without them the car would lose much of its usefulness—in automobile accessories like in many other things, "it's the little acorns that make the mighty oaks."

Clubs to Co-operate in Issuing Licenses

California 1924 license plates will be ready for distribution on January 14. The California State Automobile Association and the Automobile Club of southern California will co-operate with the state motor vehicle department in handling applications.

Below the Tehachapi the Automobile Club of southern California will maintain twenty-nine offices for distribution of licenses.

In Los Angeles the motor vehicle department will carry on registration work in the old offices of the Automobile Club at 1430 South Figueroa street, Marsh said. In addition to the 200 men whom Marsh plans to employ, eighty-five workers already at the Los Angeles office will handle the issuance of licenses.

DRIVEN OUT BY AUTO

SAN FRANCISCO, Jan. 12.—The Nevada County Traction Company has applied to the railroad commission for authority to remove its tracks and abandon service in the cities of Grass Valley and Nevada City.

Due to the diversion of traffic by automobile and motor bus, its patronage has dwindled to practically nil and its revenue is not sufficient to pay the cost of power used in operating the line between Grass Valley and Nevada City.

FOR PAPER PULP

Australians are experimenting with mountain ash as the best native wood from which to obtain newspaper pulp.

Use Automobiles in Educational Studies

Increasing use of motor transportation for educational purposes is reported in The Reader's Digest which states that busses are used by the school of education in Cleveland for the classes in geography and nature study. The same item reports that the class in biology at Oberlin College crosses every summer to the Pacific coast. Students use their own cars and make use of the motor camp sites along the way.

NASH 4 CARRIOLE PROVES ECONOMY

Averages 20 Miles Per Gallon San Francisco Run and Back Again

The Nash Four Carriole, the car that is proving so popular with women drivers, is able to stand up to real hard work and to deliver gasoline mileage that demonstrates its striking economy, according to O. H. Skeen, an insurance man who makes his home at 134 East San Fernando boulevard, Burbank.

Mr. Skeen, accompanied by Mrs. Skeen and Miss Ina Ashcroft, left their home on December 29 for San Francisco, starting at 6:35 a. m. They made the trip to Oakland by 10:15 the same night, starting the return journey on January 1 and breaking their journey for the night at King City.

On the 960-mile run the Nash Carriole used forty-nine gallons of gasoline, almost twenty miles to the gallon, which Donald C. Barbee, sales manager of the Nash Sales Co., Inc., 112 South Maryland street, local distributors, considers a remarkable record for a closed car.

Mr. Skeen was enthusiastic over the performance of the Nash Carriole on his return, declaring that it showed both power and economy all through the trip.

AID AUTOIST TO SECURE LICENSE

Sears Service Establishes Glendale Branch to Assist Motorists

For the purpose of assisting local motorists to secure their 1924 license plates with the least possible inconvenience and delay, the Sears Motor Vehicle Registration Service has opened an office in the Monarch Auto Supply Company's store at 204 South Brand boulevard, and will maintain this office until March 1, when all automobile owners should have secured their new plates.

Applications for the 1924 license plates may be made at this branch, and the plates will be delivered as quickly as it is possible to secure them. It will be necessary for applicants to bring their 1923 certificates with them when applying for the new plates. In addition to the $3 fee charged for licenses on all pleasure vehicles, a nominal charge is made by the Sears organization for its services.

The Sears Motor Vehicle Registration Service is authorized by the officials of the Motor Vehicle Department of the state of California, and many motorists have already taken advantage of its facilities to order their new licenses.

Total cheese output for the United States for one recent year was valued at $122,403,216.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

Tanner & Hall, Ltd.
237 South Brand

BUICK BUILDING NEARLY FINISHED

Tanner & Hall to Occupy Home on South Brand By February 10

The handsome new brick building that is being erected for Tanner & Hall, Buick distributors, at 662 South Brand boulevard, will be ready for occupancy shortly after the end of this month, and the firm will move to its new quarters by February 10, if the present plans are carried out, according to W. A. Tanner.

The building covers a space of 75x156 feet, and the showrooms will have four large windows in front and one on each side, affording abundant light for the display of the Buick line. A special arrangement of electric lights will be installed to show off the cars at night, and the decorations of the showroom will be decided upon within a few days, it being the intention of the members of the firm to make the Buick home the last word in modern automobile showrooms.

In the rear the service department will be equipped to deliver the Buick standard of service, and within a short time it is planned to install additional machinery to handle the firm's increasing business. This department will have room to house over fifty cars, and part of it will be used as a storeroom, with the service department taking up the rest of the space. The cost of the building will run to $30,000, the work being done by Contractor Elmer Elliott.

FIRM COUNTS UP TRIUMPHS OF '23

Willys-Overland Feels Pride in Real Achievements of Last 12 Months

With the close of 1923 the officials of the Willys-Overland corporation have been checking up their successes during the past twelve months and laying plans to surpass every achievement placed to their credit in that time, according to Geo. T. Smith, of Smith-Sloan, Inc., 228 South Brand boulevard, local distributors of Willys-Knight and Overland cars.

Among the high lights of the past year, he declares, has been the Willys-Knight Coupe Sedan, which took the country by storm as soon as it was shown; the sensational success of the Overland Red Bird and, biggest of all, the introduction of the Overland Champion, which introduce to the motoring public something fresh, something that has proved to be the most useful, all-around car ever placed on the market, a car whose divergent uses are legion, and the first standard closed car seating more than two passengers that sold for less than $700.

"Of particular interest to the business man," says Mr. Smith, "who operates one or a fleet of delivery cars is the new Overland Spad, a delivery car chassis with four standard body types, making possible sixteen different models, and produced to fill the special sphere of this particular task of the automobile."

CADILLAC NAMES PUBLICITY HEAD

Advertising Expert Chosen to Head Department by Executives

Announcement has been made by the Cadillac Motor Car company, Detroit, of the appointment of William W. Lewis, former central district manager, to the position of advertising manager, succeeding Verne E. Burnett, who has been transferred to the secretaryship of the General Motors institutional advertising committee, W. H. Court, 235 South Brand boulevard, head of the Court Motor Co., local dealers, is advised.

In his former automotive connection which continued for twelve years, Mr. Lewis covered every district in United States and Canada as district manager, and also served for a period of six years as assistant sales manafers. He is well known in automobile circles throughout the country, and his appointment as advertising manager is significant of the close co-operation of the Cadillac company in all of its distribution activities.

FATAL AUTO CRASHES

PASADENA, Jan. 12.—Two persons died within an hour yesterday at the Pasadena hospital from injuries received in automobile accidents. As the result of the death of Mrs. Charles B. Walker, Dr. William C. Schley, prominent physician, may be charged with manslaughter, it was reported.

The dead woman's husband said he would seek a complaint from the district attorney's office. After Mrs. Walker was hurt several days ago Dr. Schley was arrested and fined a total of $300 on charges of intoxication and reckless driving.

Troy Larson died from injuries received when the automobile he was driving overturned and pinned him beneath it.

One New York hotel used 140,000 gallons of milk and 200,000 dozens of eggs last year.

OLDS CARS MADE IN OWN FACTORY

Manufacturers Producing All Parts Used in Product at Lansing Plant

For the first time in twenty-six years the Olds Motor Works, Lansing, Mich., is now almost exclusively on a basis where everything that goes into its cars is manufactured in its own plant. At this time, the factory executives say, the reorganization of the plant has progressed to the point where within two months the company will be manufacturing more than 90 per cent of everything that goes into its product.

Today Olds Motor Works stands on a basis which few of the hundred-odd automobile manufacturers in the country can boast of, that of being in a position to produce its own product from start to finish. This ability to manufacture all parts results in lower prices, as no profits are paid to any other manufacturer, C. H. Hunter, 208 West Broadway, local dealer, points out.

At this time the company is producing about 5,000 cars a month and in January the total production will be well over 6,500, according to present plans, he says. By February the executives of the company believe that they will be able to make at least 8,000 automobiles per month, with a steadily increasing production from month to month through the spring and summer. The demand for these new six-cylinder Oldsmobiles is such that sales are only limited by the company's ability to produce them, records show.

ADOPT LOCKHEED BRAKING SYSTEM

Chalmers Installs Hydraulic Principle Because of Its Efficiency

The adoption of the hydraulic principle of four-wheel brakes by the Chalmers car has been followed by other manufacturers applying the hydraulic brakes to their products, according to Lyman P. Clark of the Glendale Motor Car Company, 124 West Colorado street, Maxwell and Chalmers dealer. The Lockheed system of brakes was adopted by the Chalmers people after long research and thousands of miles of proof driving, and after the most minute examination of every type of four-wheel brakes in existence.

The Chalmers hydraulic four-wheel brakes, it is claimed, equalize perfectly and automatically, and their simplicity of construction and operation renders them almost free from the necessity of constant adjustment, and the only adjustment that has to be made is at the brake bands themselves, and this, it is declared, is only necessary at the end of every 8,000 or 10,000 miles.

A number of the leading manufacturers in this country have sought and have secured permission to equip their cars with the Lockheed principle four-wheel brakes, as furnishing the most important safety factor in present-day automobile construction and as being the system that they believe to be the most reliable.

FORD LOOKS FOR SALES INCREASE

Market to Absorb Many More Cars This Year, Belief of Executive

"Even though 1923 exceeded all our expectations, there is every reason to believe that in 1924 business will attain to far greater proportions," says a statement issued by Edsel D. Ford, president of the Ford Motor Company.

"More people will buy automobiles during the coming year than ever before. Evidence of our belief in this is the extensive expansion program we are now carrying out and which is aimed to effect new manufacturing economies and materially increases production. So, in the New Year, we will produce more cars and trucks and confidently expect to sell more of them, both in the domestic and foreign fields.

"There was a time when figures conjured up by statisticians to show sales possibilities, replacement requirements and such were guide posts in the industry, and when much time was devoted to discussing sales resistance. These to a great extent have all served their purpose. They are passing out just as the phantom of saturation has disappeared from the automobile horizon.

"Today America is completely "sold" on the automobile.

"Women are a greater influence in the automobile buying field than ever before and the coming year will see this influence considerably extended. It will be expressed particularly in the closed car sales, for it is natural for women to turn to this more comfortable means of motoring.

DENY PRICE INCREASE

SAN FRANCISCO, Jan. 12.—Standard Oil of California headquarters here said no increase in the price of gasoline for the Pacific coast has so far been ordered. They declined to comment on the possibility of an increase in the near future.

Taking America Off Its Feet!

Overland Success is the Talk of the Country

The year just ended has been the greatest of all the fifteen years of Overland history. A great year made by great cars—the greatest Overlands ever built. Greatest in looks, power, action, comfort—*and money's worth?*

Look at the new Overland Champion, for instance. It brings a quality closed car with features and utilities hitherto unheard of within reach of every purse. America's first all-purpose car—conceded to be the most useful motor car on wheels.

The Champion and all Overland models have the bigger Overland engine—brute power with extreme economy. Leaders in economy—leaders on the road—leaders in the many satisfactions they bring to owners. See them. Sit in them. Ask for a sample of their performance.

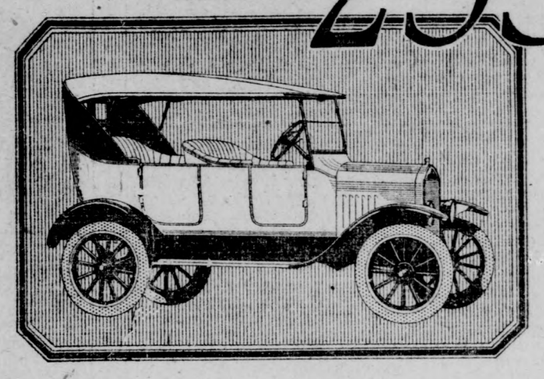
The New Touring Car $295 F.O.B. DETROIT



A Striking Value—at $295

Considering the improved appearance of the new Ford Touring Car, one would naturally expect a proportionate advance in price.

Larger scale production, however, has made it possible to incorporate in this new type touring car a number of decided improvements without increasing its cost to the purchaser.

A comparison extending over a long period of years will reveal the fact that the present price is actually the lowest at which the five-passenger open car has ever been sold.

The Ford Touring Car stands today, as it always has, a most remarkable value in the motor car field.

Daily News Letter

General News and Gossip from Staff Writers at Home and Abroad.

By ALICE LANGELIER
For International News Service.

PARIS, Jan. 10.—In "Le Compagnon" Victor Margueritte, the author of the celebrated "Garconne," has started a campaign against the solid, old institution of marriage, which has caused a heap of stormy comment to fall upon his head.

It is not so much his immorality that is displeasing, the critics say, although one might truthfully believe, after reading one of his newest novels, that France is inhabited solely by "garconnes," monsters and satyrs, but it is his mixture of pretended social claims which is ready to turn the heads of many who are on the very brink of trouble in this stirred-up world.

"Le Compagnon" is a new picture of Epinal, where bolshevism, socialistic dissensions, the bloc of the Left, etc., etc., are presented by a man who is looking on from the outside and knows little about it all. There is question of the emancipation of women, more freedom for the woman in the home, but unfortunately the women he speaks of emancipating are the beautiful and courageous bourgeoisies who have no more than an air of protecting pity for their sisters of the "populo."

During the three hundred pages of "Le Compagnon" one is keyed up to learn if the hero and the heroine, who live together and love each other, will marry some day before Monsieur the Mayor. Madame refuses because she wishes to retain her complete liberty, and then follows a peck of trouble between her and her "compagnon." Even the birth of a child does not make her change her opinion upon this subject. The child belongs to the mother, she declares. It is she who has suffered to bring it into the world, and she should have the sole right to direct its education. The father must take a back seat.

"I love you—and you alone!" she affirms to the man who is trying to persuade her to marry him. "But I know that two beings cannot make one in spite of all the love in the world. We have two bodies—that is, two different organisms—which have entirely different reactions. You are a man and, therefore, a stronger person, because you are free. Once married, I should be only your wife—that is, a noble woman oppressed by your laws."

"But that is the very reason why every woman needs a man who loves her to defend and protect her," declares Amedee.

"Oh, not at all! That is why all the efforts of the women of today should be to free themselves from men in order that they do not count upon them. And, besides, what more are you asking for?—manager, boire, dormir, ensemble, c'est mariage il me semble."

Annik feels that to eat, drink and sleep together is sufficient to call it a marriage without the stamp of the mayor.

Timely Views on World Topics

MORE SANE AND HONEST RELIGION IN BUSINESS URGED BY BABSON

"Everybody is in debt. The United States, in the five years since the war, has borrowed more money than in the five years of the war, when it seemed borrowing was at its peak. The federal government hasn't done it all, but cities, counties and individuals have mortgaged the future, and no one is paying up."

ROGER BABSON

Thus did Roger W. Babson, nationally known statistician and economist and head of the Babson institute at Wellesley Hills, Mass., size up national conditions recently in addressing the Cleveland, Ohio, Advertising Club.

Mr. Babson appealed to the audience to "sail against the wind and tide, prepare for trouble and batten down the hatches" by conservative investment, careful buying, cutting down overhead and more careful inventory.

He voiced a plea for a new attitude toward life, "more thought of the other fellow, and less about yourself; more sane and honest religion in business."

"We used to hear of frozen assets in warehouses—provisions that couldn't be disposed of," he said. "Frozen assets are now in the home and the garage—furniture, clothing and automobiles, bought on time."

The basic industries—coal, iron, copper, wheat, fertilizer, oils—must be strengthened before prosperity can come, Mr. Babson said. He likened railroads, department stores and automobile factories to players in a football game "who pass the ball around."

"The United States will be flooded with good European products at cheap prices when Europe gets to work again," declared the economist. "Even now it's starting. I have a searchlight, with a double battery and lamp. It cost 15 cents, including a duty of 50 per cent. I have a good knife that cost 15 cents, duty paid. Paris gowns are now selling for $35 at the highest, and as low as $20.

"We can offset this situation only by increased efficiency, better advertising, better selling and better spirit."

He protested against unbalancing resulting from the automobile and building industries' tremendous expansion, and said production was cheapest and distribution highest in history, "because the best brains are making products, and second-rate men are marketing them and making no money, at that." He said the high cost of distribution was beginning to cut in on Henry Ford's profits, and added, "Next year I'm told he has appropriated $7,000,000 for advertising."

"EUROPE IS MAKING DUMPING GROUND OF AMERICA," SAYS PROF. OSBORN

Pleading for selective immigration, Henry Fairfield Osborn, president of the American Museum of Natural History, recently declared that Europe "is making a dumping ground of America for undesirable immigrants."

"I have been a student of immigration for fifty years," he said. "To my personal knowledge one country is urging the best of its immigrants in this country to return and is shipping us in exchange its own undesirables. Many countries are quietly directing a stream of undesirables and seeking to induce the independent immigrants to return home.

"I take it for granted," said Prof. Osborn, "that our first duty is to protect our own country. We ought, then, to protect the United States against any preponderance of unassimilable immigrants. I like the Japanese for their industry, their love of home and their patriotism; I like the Chinese for much the same reasons. But the Japanese soul is fundamentally different—I will not say better or worse—from the American, and they cannot be Americanized. Each should cultivate their virtues in their own countries."

Prof. Osborn said that the army intelligence test was a revelation of the illiteracy that exists in this country.

Says Negro "Is Not Like Us"

"We learned," he said, "once and for all that the negro is not like us. We learned that some European peoples we had thought superior are actually inferior. At the International Eugenics Congress, where delegates from all over the world were assembled, I learned that the best American stock is becoming extinct in many parts of the country. It developed, for instance, that if Harvard and Yale depended upon the sons of their graduates for enrollment, the halls would be vacant in a few years.

"Selection of immigrants is as necessary as birth selection. New York city has recently voted $50,000,000 for insane asylums. One-third of the patients are from insane immigrants.

"I believe the country is biased in favor of the Nordic type of immigrant. This is a mistake. Selective immigration would prevent such a mistake and would take from the healthy, sound families the type we want. I believe that in Italy and the Balkans there can be found as desirable types or future Americans as in any countries of Europe."

MAID WINS TITLE AND N. Y. TRIP

Minnesota Beauty Is Expert Meat Cutter

Miss Agnes Bertelson

Miss Agnes Bertelson of Minneapolis, Minn., has been sent to New York city as the guest of the Amalgamated Meat Cutters and Butcher Workmen of America, to show "the big town" that beauty and T-bone steaks go together. She is employed in a butcher shop in the western city and is known not only for her beauty but for her ability to cut meat.

On the Spur of the Moment

By ROY K. MOULTON

A LITTLE SLICE O' LIFE

A friend of ours named Joe Flynn
Rushed in all out of breath
And gasped: "I believe
I have lost my pocketbook.
I believe I have been frisked."
He was very much excited
And we tried to quiet him.
"Have you searched
All your pockets?" we asked.
"I have gone through every one
Eight or ten times—except one."
"Which one?" we asked.
"The left hip pocket.
I haven't searched that one."
"Why not?" we queried.
"Well, I'll tell you," he said,
"I haven't tried that pocket
And I'm not going to try it,
Because if I should search that
Last remaining pocket and
The pocketbook shouldn't be there,
I would drop dead, that's all."

HOW TO GET RICK QUICK

Answering numerous inquiries, we present the following sure methods of making short cuts to great wealth:

Go in the ring and whip Jack Dempsey.

Raise hens that will lay two eggs a day.

Go west with a gimlet and bore a lot of oil gushers.

Find the buried treasure of the late Capt. Kidd.

Start a cafe that will be patronized by society people.

Come over from England and do a lecture tour of the United States.

Invent an airship that cannot fall to the ground.

Erect an apartment house that will please all the tenants.

Invent reducing exercise that does not seem like work.

Build a car that will get ninety miles out of a gallon.

Patent a process to manufacture artificial gold.

Have yourself elected president of the Steel Trust.

* * *

One scientist claims that it is possible to increase the span of human life to 150 years. This may be a good idea as it will give people time to pay their income taxes.

I SEE YOU NATURAL

Don't rouge your pale cheeks, my dear girl;
Don't red your lips—the nose don't white;
I see your childish form Natural,
Your heart through your eyes that sparkles bright!

If you're emaciate and passe,
The bloom of your face is away—
I know, my girl, this is your fate
From your first unhappy birthday.

It is your fate as it is mine,
Our spring was dark, dreary and cold;
The cold went deep into our bones
We never saw the sun rays of gold.

Don't rouge your cheeks, my pale dear love;
Don't paint your lips—the nose don't white.
I see your lovely form natural—
Your heart through your eyes that sparkles bright!

—Nathan Cantor.

* * *

BUT WHERE WOULD YOU GET THE SHOES?.

Dear Roy—The maximum of economy with the minimum of efficiency easily can be obtained by using one pair of shoestrings for two pairs of shoes.—Nik Nub.

* * *

THE MISSING HUSBAND

"I wonder what I have done with my pin." "What pin?" asked my sister. "Oh, you know, that one with the little diamond chips and the imitation pearls. The one I used to fasten my veil or pin my belt. Oh, you remember that old thing."

Six weeks later I was still regretting it, only when I spoke of it, it was that large circle of diamonds with the big rose pearls.

A few months ago I left my husband. He was stingy, neglectful and unfaithful. Yesterday I picked up his picture. Well, he was rather generous and kind, and, yes, I did have some proof of several infidelities, but maybe I was mistaken. There's no sense to this, except that it's true, and aren't we all?—Aileen G.

Uncle Wiggily Bedtime Stories

— By HOWARD R. GARIS —

UNCLE WIGGILY AND THE CANDLE

Once upon a time, as Uncle Wiggily was sitting in an easy chair of his hollow stump bungalow, reading the evening paper, the bunny gentleman heard some one crying out on the woodland path.

"Oh, ho!" exclaimed Uncle Wiggily to himself, listening with both ears. "That is some one in trouble and I must help them. Perhaps it is some one who is hungry. That would be too bad!"

Uncle Wiggily had just finished his supper of broiled carrots with cabbage sauce on them, and he felt very happy. So, of course, he wanted others to be happy also, and not hungry.

"Oh, dear! Oh, dear!" cried the sad voice on the woodland path outside the hollow stump bungalow.

"I'm going to see who that is!" exclaimed Uncle Wiggily.

"Oh, don't! It might be the Woozie Wolf!" warned Nurse Jane.

"No, he doesn't cry like that," said Uncle Wiggily. "I'm sure this is one of my little boy or girl animal friends. Something has happened and I'm going to see what it is."

Feeling very brave and strong after his supper, Uncle Wiggily opened the door and went out. It was quite dark, with not even a star shining, and at first the rabbit gentleman could see nothing. But he heard the sad voice saying again:

"Oh, dear! Oh, dear! I've lost it! I've lost it!"

"Hello, Baby Bunty. What is it you have lost?" asked Mr. Longears, for he knew the voice of the little rabbit girl. "What's the matter, Baby Bunty?"

"I—now—I lost my penny," sobbed the little orphan rabbit girl. I was coming over to your bungalow with my penny. Uncle Butter, the goat, gave it to me, for I have been staying at his house. I was bringing my penny over to you, Uncle Wiggily, so you could go to the store with me and help me spend it. I was afraid to go to the store alone after dark. But, oh, dear. I dropped my penny and now I haven't any and you can't go to the store with me. Oh, dear! Boo! Hoo!"

"There, there, Baby Bunty! Don't cry," advised Uncle Wiggily. "Where did you lose your penny?"

"I—now—I dropped it when I was coming up your bungalow steps," answered the little rabbit girl.

"Oh, well then we shall easily find it, I think," said Uncle Wiggily. "I will get a candle so we may have light in the dark and then we shall look for your penny."

"Oh, goodie!" cried Baby Bunty, and she felt happier. For she knew Uncle Wiggily was very lucky and she was sure he would find her lost penny.

The rabbit gentleman hopped back into the bungalow and soon came out again with the lighted candle.

"Now show me as well as you can just where you dropped your penny, Baby Bunty," said Uncle Wiggily to the little rabbit girl.

"It was just as I was hopping up the first step," answered Bunty.

Uncle Wiggily flashed the candle to and fro over the ground. But, all of a sudden, it went out.

"Baby Bunty, did you blow out my candle?" asked Uncle Wiggily, for Bunty was a regular little tyke—always playing tricks.

"Oh, no, of course not!" answered the rabbit girl. "I wouldn't blow out your candle, Uncle Wiggily, when you were looking for my lost penny."

"I hardly thought you would," said the bunny gentleman. "But my candle is blown out. However, perhaps the wind did it."

Uncle Wiggily lighted the candle again, and once more began to look for the lost penny. But, all of a sudden—"puff!" out went the candle again.

"There! Who did that?" cried Mr. Longears, as he and Bunty were once more alone in the dark. "Who did it?"

"I didn't!" said Bunty.

"It must have been the wind," sighed Uncle Wiggily.

The third time he lighted the candle and looked for the penny, but, all of a quickness, out it was blown again.

"I should like to know who is doing this!" cried Uncle Wiggily.

"I am doing it!" suddenly answered a savage voice, and just then the moon came out from behind a cloud and there stood the old Woozie Wolf. "I blew out your candle!" howled the Wolf.

"What for?" asked Uncle Wiggily.

"So you couldn't see me nibble your ears!" howled the Wolf "and that's what I'm going to do now. Here I come!"

"Yes and there you go!" suddenly cried Uncle Wiggily. Then the rabbit gentleman quickly lighted the candle again, with a match from his pocket. Holding the lighted candle to the soft and tender nose of the Wolf, the bunny gentleman cried, "Boo!"

And the Wolf was so frightened, and the candle made his nose so hot that, without nibbling the bunny's ears at all, the bad chap turned a somersault and ran away, crying:

"It might be the Woozie Wolf!" warned Nurse Jane.

"Oh, my nose! My nose!"

"Ha! Ha!" laughed Baby Bunty. Then, with no one hiding in the dark to blow out the candle, Uncle Wiggily soon found the lost penny and the little rabbit girl was happy.

And if the pumpkin pie doesn't try to turn a somersault when it should go to sleep in the ice box, I'll tell you next about Uncle Wiggily and the icicle arrows.

10 Years Ago Today

From Evening News Files

Another delightful luncheon was given Friday by Mrs. John T. Crampton of 1011 Chestnut street, assisted by her daughter, Miss Grace Crampton.

Saturday and Saturday night's rainfall, according to H. E. Bartlett of 101 South Brand boulevard, added 4.09 inches to the season's record, making the total 12.99 inches.

A large number of Tropico residents are contemplating filing a petition and presenting it to the Pacific Electric railway to have a concrete bridge built to replace the frame structure that now stands between Ivanhoe and Edendale.

Condensed milk contains 30 per cent milk solids, 30 per cent water and 40 per cent cane sugar.

WHY SUFFER WITH SOUR STOMACH?

KORRECTO Will Help You

Just as many others have found that the surest and quickest way to relief of the troubles of the stomach and digestive organs is through taking that simple remedy KORRECTO, so you will find the same thing if you will but try a bottle.

Many, thankful for the blessing of relief which this remedy has bestowed upon them have written in to tell about it, and are spreading the glad news to all their friends who are sufferers from indigestion and its kindred unpleasantnesses.

One writer says: "I heartily and sincerely recommend KORRECTO to any one who has been suffering from painful attacks after meals or sour stomach and gas attacks that ofttimes come on at night." This writer is a prominent official in a Southern California city. Still another says: "You will always find me a 'booster' for KORRECTO to all whom I know who have real stomach trouble."

Take these writers' word for it, and step over to the nearest drug store, where you will find relief for indigestion in KORRECTO.

BURBANK

LOOK FOR CROWD AT C. C. BANQUET

Secretary Issues Statement Predicting Glorious Time, January 18

In view of the big Chamber of Commerce banquet to be held January 18 at the Burbank Methodist church, the following statement has been issued by J. W. Charleville, new executive secretary of the body:

"Friday night, January 18th, has been set for a big feed and the ladies are planning on making this the one big event of the New Year. Speakers are being arranged for and a special musical program has been assured. Among the speakers that have accepted invitations is Charlie Bayer, manager of the organization department of the Los Angeles Chamber of Commerce.

"Watch the papers for further announcement and buy your tickets early. The committee will call in a few days. There will be a limited number of plates due to the advance sale of tickets. Should you fail to receive your reservation in the next few days, call Burbank 380-J, giving us your name and address."

A certain family of this city, whose name shall be forever withheld, received on a certain morning not long ago, a note embellished with skull, blood, crossbones and other nefarious insignia, informing them that "the light haired one" would disappear from the family nest at midnight, unless certain conditions were met. The dread document was signed "the Stabbers."

As this looked like blackmail or "Black Hand" or something equally disturbing, the recipients forthwith violated one of the aforeside "conditions," by confiding their secret to the police. These hard working protectors of life and limb were able to afford scant solace, however, and a harrowing midnight came—and went, "the light haired one" still safe.

And then next morning came a boy from a neighboring household, suffering with that common juvenile ailment, "cold feet," and confessed the whole thing was a joke. So that he and his two companions might not essay such cadaverous humor in future, Chief John H. Long of the police department went into solemn conslave with the lads, who have agreed to drop their firm name of "stabbers" and eschew Black Hand methods for more wholesome joking, if joke they must, as they evidently must, to have concocted such a fantastic escapade in the first place.

Ghio Wine Case Set

When Mr. Ghio returned from a trip to Italy not long ago, he found staring him in the face a matter that had its inception back in July, when a raid on his residence disclosed two barrels of wine. As he had already set out on the trip, the case was continued until some future date.

This future date has now come and the case is set for a hearing January 25.

EAGLE ROCK

ENJOY SPLENDID CHURCH CONCERT

Music Lovers of Other Towns Hear Special Program Given by Choir

Glendale, Pasadena and other nearby points joined with Eagle Rock last night in enjoying the splendid concert given by the First Congregational church choir of Los Angeles, at the Women's Twentieth Century clubhouse, under the direction of John Smallman, a musical leader of the Pacific coast.

Every seat in the auditorium was taken and a much larger hall could have been filled. People in general and music lovers in particular have come to recognize that a Smallman concert is something out of the ordinary. In the four years he has been a part of the musical life of Los Angeles he has become recognized as one of the leaders in the field.

The violin selections of Morris Stoloff and Sol Cohen were especially noteworthy.

The Congregational church choir comprises: John Smallman, conductor; Morris Stoloff and Sol Cohen, violinists; Erma De Mott and Rosalie Phillips, sopranos; Eunice Rose, contralto; Criterion Girls' Trio, and Lorna Gregg, accompanist.

Attend Imp. Ass'n. Meet

Over 100 were present at the improvement association meeting held Tuesday night, January 8, in the auditorium of the Eagle Rock school, when the Edison road show was presented.

Electricity was explained very lucidly, by the use of charts and pictures. W. S. Peterson, chairman of the show, also invoked a little "black magic," and Jess Rarick displayed a fire eating stunt that thrilled everyone.

The Big Creek power station in the High Sierras was shown in pictures, revealing some beautiful scenery. It was brought out that electricity plays a vital role in the drama of modern agriculture, more of the mysterious power being used for this purpose than in forty-seven states of the Union.

The next meeting of the Improvement association was announced for the first Tuesday in February, when a regular business session will be conducted.

Gold Certificates Awarded

At a public gathering to be held at no late date, thirteen gold certificates earned by the boys of the local soccer team and donated by the senior elementary division of the School Athletic league will be awarded by C. W. Preston, superintendent of Eagle Rock schools.

The boys on the team who will receive these certificates are: Shelby Johns, Leslie Newton, J. B. Patterson, Francis Rublee, Thaddeus Cresswell, Donald Patterson, James Munson, William Pfeiffer, William Benson, Alden Miller, Telford Vallance, Jack Williams, William Shade.

MODERN WRITING IS HELD FAULTY

Present Day Printed Matter Hasn't Quality to Last Through Years

DES MOINES, Iowa, Jan. 12.—How long will the culture and civilization upon which we pride ourselves exist? How many years will it be before the last trace of our highly developed literature, of our myriads of magazines, newspapers, books and all printed matter has vanished from this earth?

It is an interesting question, because now we fancy our development secure from the ravages of time. Also, it carries a comparison between 1923 printed matter and the old volumes of centuries ago, turned out slowly and painfully by hand, that does not reflect a great deal of credit upon us.

In the Iowa State Law Library there is an original copy of the Year Book of the "King and House of Lords of England," printed in 1555 on rag paper that still is flexible and tough in spite of its 368 years. It is one unit in a collection of more than 2,000 ancient tomes. The print is still distinct, and marginal notations written in ink perhaps about the time the Pilgrims landed on our historic rock at Plymouth are as clear as if they had been written yesterday.

In this book are the beginnings of modern jurisprudence—the decisions that are the basis for our laws and the laws of the world.

Next to it on the shelf is "Bracton de Legibus," printed at "Londini," or London, in 1569, in the Roman tongue—one of the earliest law books in existence. Then we find a book dated 1577, entitled "Modus Legendi Abbreviaturas Passiur in Wie Tam Civili," antedating the Pilgrims' journey to religious freedom by forty-three years.

Rare Volume

Perhaps the greatest treasure in the library is a volume printed in Italy bearing the title, "Compendium Juris Brevissimis Verbis." It bears no date, but references in the text place it as early in the sixteenth century.

Another law text book, printed in France in 1577, "La Graunde Abridgement," is in the collection. Of more recent date are a volume of "Lodovici Molinae, 1614"; "History of Tithes," by Lord John Selden, one of the greatest of English writers on the law, 1618; and the "Tithes of Honor," by Lord Selden, including a poem by Ben Jonson, 1631; the "Code of Holland," compiled by Hillebrandt Jacobssz Van Wouw and printed in Dutch in 1641; "The Touchstone," a compilation of cases and resolutions by G. Meriton in 1671; the "Tratado de las Leyes Penales," a Spanish law book of 1732; a copy of the charter granted by King William and Queen Mary of England to "the inhabitants of the province of Massachusetts Bay, in New England," and another to William Penn.

An original copy of "Les Cinq Codes de L'Empire Francais," the Napoleonic code of 1813, is treasured in the library.

Estimate of the value of the entire collection of 2,000 volumes was difficult for library officials to make, but they declared that at a conservative valuation the few volumes mentioned are worth many thousands of dollars, as they are exceedingly rare.

DAIRY PRODUCTS BASIS OF HEALTH

Need of Milk for White Race Is Proven by Hoover's War Experience

"Though his interest is world wide rather than local, Herbert Hoover may be classed as an ardent advocate of milk. Hoover is the man who said, 'The white race cannot survive without dairy products.' This slogan, evolved by one of the world's greatest engineers, is now being used extensively by the dairy interests in convincing people that they must use ample dairy products to keep healthy," declared one of the executives of the Crescent Creamery Co., which does an immense business in Glendale.

Hoover was one of the principal speakers before the World's Dairy Congress, recently held in Washington, D. C., and Syracuse, New York, and at that meeting he reiterated his conviction that the white race must have dairy products to get along.

Based on War Work

Hoover reached his conclusion about dairy products as a result of the work he carried on during the world war in feeding children in the famine areas of Europe for the American Relief Administration. Some quotations from his speech before the World's Dairy Congress are given herewith, indicating how strong he is for the product:

"If any further demonstration were needed than the results of scientific research, as to the importance of dairy products in our national diet, the experience of the American Relief Administration, of which I had the honor to be chairman, in its work of provision of the necessary food supply first and last to over 12,000,000 children in various famine areas of Europe, could be drawn upon for literally volumes of confirmation.

No Milk Substitute

"The feeding of these masses of under-nourished children demonstrated from the outset that there was no substitute for milk, and that while a very wide range of alternatives existed among other foodstuffs, this particular commodity was absolutely essential for their restoration to health and their maintenance. It could be very well said that the saving of these millions of children was accomplished only by virtue of the strength, the resilience of the American dairy industry. . . .

"It is a safe generalization, I believe, from a nutritional point of view, that the world is today over-producing bread grains and under-producing dairy products and consequently the feed grains and other animal foods. . ."

MODERN FOOD IS MOST NUTRITIOUS

Cooking May Be No Better But Bigger Selection Is Aid to Health

BERKELEY, Cal., Jan. 12.—The things "that mother used to make" may not have been the best for the children's constitution, as shown by recent researches in the field of nutrition, according to Dr. A. F. Morgan of the household science department of the University of California. In generations before, when children had indigestion, rickets and even scurvy and bowed legs, poor health and diseases resulted, mothers never thought of attributing these things to their method of feeding their families. During the last ten years there have been great researches into the causes of these things, and it has been proven that unbalanced meals and food of poor quality have been much to blame.

Dr. Morgan says that women are learning more and more about how to cook for their families. This progress is due to more people obtaining better educations today, to an increase of thought on the problem in this century and to more knowledge on the subject itself.

Choice of Food

Dr. Morgan declares that cooking technique itself isn't improving, and perhaps our grandmothers and our great-grandmothers cooked as well as women do today, but that the majority of women are becoming more intelligent in the choice of food and in the preparation of balanced as well as attractive meals. Another factor in the improvement of home cooking is the wider variety of food that is available now, especially in California.

In Dr. Morgan's opinion nutrition is important because, like every other science, it teaches the scientific method and also is for the good of the human race and leads to better feeding of families.

GREAT YEAR DUE FOR AUTO TRADE

Coast States to Have Big Part In Development Of New Business

(Continued from Page 1)

are preparing for such enormous production increases this year point to the fact that there are now 12,880,000 automobiles registered in the United States and that this means that on the basis of the recognized six years' average life of a motor car 2,000,000 new passenger cars will be needed this year. This will leave a 1,644,000 balance of the 1923 output of passenger cars on which to look for gains in 1924.

1924 Percentage Gain?

The gain of 1923 over 1922 was 50 per cent. With the figures on which increases must be based from a percentage standpoint having grown to such an enormous proportion last year it would be a miracle if the 1923 per cent of increase was maintained in 1924.

The National Automobile Chamber of Commerce estimates the total motor car production of passenger cars and trucks in 1923 to have been 4,014,000 as against 2,659,064 in 1922. It will be seen that a gain equal to last year's increase of 1,354,936 would only mean a 34 per cent gain in 1924 over 1923. Accordingly one cannot reasonably look for last year's big percentage gains to be repeated very generally this year.

It would look as though the big fellows were looking for some of the gains they are counting on from the losses of the smaller makers who supplied last year so meager a proportion of the total deliveries. In California, for instance, during the first eleven months of last year 185,393 of the total 208,646, or 88 per cent of the entire new passenger car registrations were credited to fifteen leading companies numerically leaving only 23,253 automobiles sold by from 80 to 90 other makes.

Business Trend Westward

Due to more rapid increase in wealth and population than can probably be credited to the other states of the Union due to the far "westward-ho" trend of immigration the three states lying along the Pacific will probably have to be reckoned in a class by themselves in forecasting motor car business prospects for 1924. Even as far back as 1921 California had 193, Oregon 150, and Washington 136 cars in use to each 1000 of population, compared with 99 in the entire United States. Since then the Pacific coast has grown by leaps and bounds in magnitude as a present, progressive and potential motor car market.

California, for instance, sold 208,646 new passenger cars in the first eleven months of last year, which was a gain of 54 per cent over the corresponding months of 1922.

California Biggest Market

Whether the complete 1923 figures when compiled will show the coveted 250,000 to have been attained or not, registrations will surely reach a quarter of a million in round figures. It may or may not eventuate, though it looks as though it would, that California led the United States in new passenger car registrations last year, but the Golden State is bound to be recognized as America's greatest prospective motor car market for 1924.

Thousands of families are being added weekly to its population. Practically every one of them presents an automobile prospect; for "there ain't no such thing" as being a Californian without a car. In fact, it would seem that already every family had one, for the fact that one person out of every four in the Golden State is now an automobile owner.

What is true of California probably comes pretty near to being true also of Oregon and Washington; so whatever big gains 1924 has in store for the motor car retail trade will no doubt be particularly conspicuous on the Pacific coast.

Minnesotans Eager to Settle in California

Fifty per cent of the persons to whom he talked during a two weeks' visit to Minneapolis, Minn., are anxious to come to Southern California as soon as they can liquidate their affairs back east, according to H. D. Fahrenholz, salesman of the Packer Auto Co., 245 South Brand boulevard, Studebaker agents, who returned to Glendale Thursday.

Studebaker sales in the east, he says, are showing a remarkable increase, although this increase cannot compare with that shown in California.

Zero weather, which he encountered within a day after his arrival, contributed to his desire to close up his business in the east and hurry back to Glendale.

DIFFICULTIES ENDED

WASHINGTON, Jan. 12.—Differences between the shipping board and the administration over the new merchant marine policy have been patched up. Leigh C. Palmer of Missouri, retired rear admiral, late yesterday afternoon formally accepted the presidency of the emergency fleet corporation.

GOES TO MEETING

A. L. Ferguson, past president of the Glendale Kiwanis club left last night to attend a meeting of all Kiwanis district trustees of California, to be held in Oakland. While there he will visit his brother-in-law, Stanley R. Dickover. He expects to return Sunday night.

A star that is denser than surface rocks of the earth is claimed to have been discovered.

SURETY BOND IS STATE'S DEMAND

Chief of Division Seeks To Give Protection to Buyers Of Cars

SACRAMENTO, Jan. 12.—A surety bond equal to the market value of the car will be required by the Division of Motor Vehicles on non-resident automobiles before such cars can be registered and 1924 license plates issued.

This was announced today by Will H. Marsh, chief of the division, who stated he had made this requirement as a means of protecting the California public from fraud through the purchase of cars not owned by the seller. Such bond must be signed by at least two men of known responsibility or be executed by a bonding or surety company, Marsh said.

Seeks Protection

"Many instances have occurred where easterners have driven automobiles to California, which had been stolen or only partly paid for, said Marsh. "These cars would be sold to local people and then later the rightful owner would turn up and demand his property. Some of the eastern states do not keep complete records; therefore it has often been necessary to turn the car over to the legal owner. The innocent purchaser thereby lost the price he paid.

"A surety bond gives the purchaser protection against such deals and firmly establishes his title and interest."

Marsh said a samilar bond would be required from persons applying for a duplicate certificate of ownership. He said he was proceeding on the authority given him under Section 37 of the new motor vehicle act which gives the division the right to demand evidence of ownership before a car can be registered.

NEW PLATES ARE READY ON MONDAY

Special Service Given Club Members and Tourists in So. California

(Continued from Page 1)

man, in answering this common query:

"Southern California built during 1923 new highways costing $3,464,596, according to estimates compiled by the Automobile club, and this figure is under the actual total as it does not include a number of important contracts awarded towards the close of 1922 and completed in 1923. Nor does this figure include the millions of dollars' worth of street paving work done during the year by the various towns and cities of the southwest, Los Angeles alone awarding $5,823,694 in street contracts exclusive of those paid for by the state.

Highway Additions

"Road contracts completed and accepted during 1923 added 428 miles of highway, and contracts are in force and bids in at the present time for 346 additional miles of state highway—all constructed and maintained largely through the fees paid into the California exchecquer by motorists.

"Thousands of miles of existing highway, moreover, must be maintained, an item which totaled $3,500,000 during 1923. It is estimated that in 1924 a total of $15,000,000 will be spent on California highways, of which $7,500,000 will be derived from the 2 cent gasoline tax and $3,500,000 from the $3 license fees on over 1,000,000 cars. The balance will be derived in numerous ways, municipal, county, state and national funds going to round out the vast construction budget.

"The result is a system of highways ever increasing in scope until it becomes a mighty network linking California with the world. Motorists may well take pride in the highways of this state for they are the envy of America and are a permanent magnet drawing new thousands here daily. It is to California's motorists, who have largely built her highways, that the state owes in large measure, the prosperity we now enjoy."

WOMAN WINS DIVORCE

SAN FRANCISCO, Jan. 12.—Cash settlement of $20,000 and $500 monthly for the support of herself and daughter was awarded Mrs. Jessie Marguerite Olsen here late yesterday when she was granted a final decree of divorce from Fritz S. Olsen, president of the Norway-Pacific Steamship company. Mrs. Olsen charged cruelty. Olsen, who contested the divorce, alleged his wife was "unduly familiar" with other men.

With a new electrically operated safety razor a man can shave in thirty seconds, says the inventor.

CUT THIS OUT—IT IS WORTH MONEY

These wonderful remedies have helped millions of people. Try them! Glendale Pharmacy, 638 East Broadway; Hub Pharmacy, Glendale and Colorado; Acacia Pharmacy, 922 South Glendale Avenue.—Advertisement.

Can you think of a good title for this picture?

$500 and 99 other prizes

will be paid by The Los Angeles Times for best titles submitted by Jan. 19.

It's easy to do. Take a good look at the picture. Then think up some original title—witty or wise—subtle or smart—a bit of nonsense or expression of wisdom—anything that cleverly describes the picture in 12 words or less. Quotations, mottos or proverbs may also be used.

Here are some sample titles: "Left Flat"—"She Shook the Can and It Was Empty"—"Lost in Transit"—"There's No Teacher Like Experience."

Costs nothing to participate. Titles submitted in Class A require no subscription. If you wish to try for the larger prizes in Class B—as high as $500—just send one paid-in-advance subscription for 3 months.

Test your wits and fill your pockets bulging with money. You'll find it the snappiest bit of fun you've had in many a day. Start right away and use the coupon.

HOW PRIZES WILL BE AWARDED	CLASS A Open to All No Subscription Necessary	CLASS B If 3-months' Subscription is Sent—New or Renewal
1st prize	$40.00	$500.00
2nd prize	30.00	300.00
3rd prize	20.00	200.00
4th prize	10.00	100.00
5th prize	7.50	75.00
6th prize	5.00	50.00
7th to 10th prizes, ea.	2.50	25.00
11th to 25th prizes, ea.	1.00	10.00
26th to 50th prizes, ea.	1.00	5.00

OBSERVE THESE RULES:

1. The prizes will be awarded in two classes for titles which most cleverly and briefly describe the picture. Class A is open to all. It is not necessary to subscribe to The Times to enter titles in this class. Class B is open to those who send in one new or renewal paid in advance subscription to The Los Angeles Daily and Sunday Times, for 3 months.
2. Participants may send in just one title or any number up to five. They may be original, or quotations from some well known author, and must not exceed twelve words each. Write all titles on Coupon published in The Times, or on one sheet of paper, with name and address of sender.
3. If more than one title is submitted, only one title (the best) may receive a prize. Participants may co-operate in submitting titles but only one prize will be awarded to any one household or group who have worked together.
4. In the event of a tie for any prize, the full amount of the prize will be given each tied participant.
5. The Times Picture Title Contest is open to everybody, regardless of residence, except employees of The Los Angeles Times and their families.
6. Titles must be mailed to show postmark not later than 5 p.m., January 19, 1924, or deposited in the Contest Box, located on the first floor, main office, of The Times Building, First and Broadway, Los Angeles, Cal., by that hour.
7. Titles submitted in Class A may be transferred to Class B by qualifying with a subscription not later than 5 p.m., Jan. 26, 1924.
8. Titles will be judged by three well known persons of Los Angeles, to be announced later, and their decision will be final. The judges will meet on Jan. 28, and announcement of the prize winners will be published in The Times and checks mailed as soon thereafter as possible.
9. All titles, subscription payments and inquiries must be addressed to Picture Title Contest Manager, The Los Angeles Times, Los Angeles, Cal.

Write Titles Below—Mail This Blank

All titles must be brought, or mailed, to show postmark not later than closing hour of contest—Jan. 19, 1924—5 p.m.

CHEVROLET CARS DRAW ATTENTION

Four Entries in Big Parade Attract Comment By Style and Ability

The Chevrolet cars that were entered in last Saturday's Greater Glendale parade by the C. L. Smith agency, corner of Colorado and Orange streets, attracted attention of thousands of spectators by the striking style of their decorations and by the handsome appearance of the cars themselves. Four Chevrolets paraded, Mrs. C. L. Smith driving her own coupe. The Utility express chassis aroused favorable comment, and the two sport touring models, one red and the other blue in color, were the cynosure of many eyes as they followed the long route mapped out by the committee.

The massed crowds of people along the sidewalks obeyed the new Chevrolet slogan, "Just Count the Chevrolets," according to Mr. Smith, who declares that a large proportion of the cars in the parade were of this make, and every one of them behaved nobly all during the long and difficult drive, when they had to stop every few yards and when they had to submit to driving conditions such as are only to be found in the thickest traffic.

"Nineteen-twenty-four has started off with a rush of business," Mr. Smith reports, "and I look for a good year all the way through."

Forests Lure Great Crowd During Year

(Continued from Page 1)

Santa Barbara national forest with 1,310,000 travelers, a million of whom were transient motorists, is a close second, and the Eldorado national forest in the Lake Tahoo region west of Sacramento is third on the list with a total of 280,000 visitors. Following are the Cleveland forest, near San Diego with 214,600 visitors; Sierra forest with 153,400; Tahoe forest with 153,400; Tahoe forest, 150,000; Sequoia forest, 108,000; Stanislaus forest 90,800; and the Mono and Inyo forests, on the east side of the Sierras, with 77,800 and 67,400 respectively. In northern California, the Shasta forest with 68,000 visitors was the most popular.

Other interesting facts set forth in the report are: One per cent only of the travel in these national forests in 1923 was by wagon or horseback; 141,000, or three per cent of the visitors were hikers; and the records show that not only was every state in the Union represented, but nearly all foreign countries.

Fifteen cities have established municipal recreation camps within the national forests of California, with improvements valued at $250,000; over 400 camp grounds have been set aside within forest boundaries by the federal service for the convenience of travelers; and one hundred of these have been improved, while over 3,500 homes have been constructed on forest lands rented from the forest service.

District Forester Paul Redington estimates the expenditures by visitors in the national forests during 1923 at $10,000,000, which, he says, "to my mind is a very conservative estimate of what the national forests are worth each year to California and the nation as a recreation asset."

BUYERS PLACING ADVANCE ORDERS

Purchasers Look Ahead for Assurance of Getting Car, Says Reed

A growing tendency toward placing orders for automobiles for early spring delivery is being shown by experienced motor car buyers, says Lewis F. Reed, 1119 South Brand boulevard, local Rickenbacker dealer.

Despite the scramble for automobiles around the holidays, placing a heavy demand on motor car dealers everywhere, Mr. Reed says he has arranged for prompt deliveries of all Rickenbacker models.

Owners who have driven their cars several seasons, according to Mr. Reed, are now placing their orders for spring deliveries. In some cases, he points out, they place their orders for a certain model to be delivered on a certain date after the arrival of spring.

"This situation," says Mr. Reed, "is doubtless true of a number of other dealers beside those handling our product. It indicates that automobile owners are becoming wiser motor car buyers every year."

DEMANDS RESIGNATION

INDIANAPOLIS, Jan 12.—Clyde Walb, chairman of the Indiana Republican committee, was called upon to resign late yesterday by Clarence R. Martin, who charged Walb was instrumental in selecting Ewing Emison of Vincennes, chairman of the second district committee, as Coolidge's manager in Indiana. The attack was made in behalf of the candidacy of Senator Hiram Johnson of California, Martin declaring, "Senator Johnson has a right by law to run in the Indiana primary and a right by party justice to have a square deal."

L. A. PRICES REMAIN

LOS ANGELES, Jan. 12.—Announcement in Chicago that gasoline will be boosted two cents per gallon at filling stations in eleven states supplied by the Standard Oil company of Indiana, will have no effect here, it was stated, as this section is considered a producing field and is not supplied by the Standard Oil company of Indiana.

FJRGES MONEY ORDERS

SAN FRANCISCO, Jan. 12.—Leaving a trail of forged American Express money orders behind him, Abraham Devi Cohen, 40, a trusted employe of the Bank of Italy here, is somewhere in Canada, officials of bank said. According to the officials, Cohen stole the money orders at the bank, quit his job and fled. Shortly afterward forged money orders for various amounts were found in circulation. It was said Cohen had already forged close to $3,000 worth of orders.

HALT LIQUOR RAIDS

MARION, Ill., Jan. 12. — The business of one half of Williamson county raiding the other half in the bootleggers' war that resulted in the sending of state troops to Marion was stopped late yesterday with the arrival of a squad of federal officers to prevent civilians participating in liquor raids. They intend to halt the activities of S. Gleen Young, conspicuous for his liquor raids under the supposed guidance of the Ku Klux Klan, it was announced.

CHURCHES

Worshipers at the Glendale Presbyterian church are to meet for Sunday morning services in the Glendale Theatre until further notice. The meetings were held in the theatre during the construction of the new church, and the return is being made because of unfinished work in the auditorium of the new building.

Plasterers, decorators, window workmen and others have not yet completed their contracts and the auditorium will not be used for the church gatherings until all work is entirely finished.

There Are But Few
Lumber Yards in the United States

Quick Service Quality

Better equipped to serve those wishing to build a home than the Bentley Lumber Company of Glendale. A prominent mid-western contractor who called at our yards a few months ago remarked that he knew of no eastern cities of 100,000 population that carried as large a stock as this concern.

—The Bentley Lumber Company has been established in Glendale for many years and is a responsible concern, which has the complete satisfaction of each patron at heart.

—Building is a serious undertaking and the services of a lumberman should not be underestimated.

—Therefore, deal with a home concern that is located in this community and is well equipped to give you satisfactory service.

CITY STANDS HIGH IN YEAR'S BUILDING

INCOME TAX QUESTIONS ANSWERED

Internal Revenue Collector Gives 'High Lights' on Federal Law

With the time for payment of income taxes drawing near, Rex B. Goodcell, collector of internal revenue in the Los Angeles district, has prepared for The Evening News an article that answers the questions that most men ask regarding the income tax law as it now stands. The article, which will be found very interesting, follows:

By REX B. GOODCELL
Collector of Internal Revenue

I am a single man and earned in wages $1,000 during 1923. Do I have to file a return and what form must I use?

You must file a return on the new form, 1040-A, although you will have no tax to pay. You are entitled to a personal exemption of $1,000.

I am a married man and have two dependent children. My salary in 1923 was $2,400, and my only other income was $110 interest received from a note. My taxes were $212. Must I file a return?

You will have a non-taxable return, but you must file on Form 1040-A, the small one. You are entitled to $2500 personal exemption and $400 for each of your children. Your taxes are deductible.

I am married, but separated from my wife. Both of us are wage-earners. Do we file separate returns and what personal exemption are we entitled to?

Separate Returns

If you were living apart from your wife on December 31, 1923, you may file separate returns. If your incomes were derived princi-

(Continued on Page 4)

Newspaper Advertising Essential To Realtors

Newspaper advertising is a main essential in the conduct of a well organized real estate office, C. C. C. Tatum, past president of the California Real Estate association, declared in an address recently before the real estate class of the University of Southern California at the Los Angeles Realty Board rooms.

Mr. Tatum, who will be vice president of the National Association of Real Estate Boards for the Pacific coast in 1924, sailed December 20 on the steamer Kroonland for New York, and on January 17 at Augusta, Georgia, at the national mid-winter meeting, will be inaugurated.

"Advertising is involved in your real estate business just as much as your bank account," Mr. Tatum said. "It is bound up by the tightest possible ties with your future success whether you are trying to sell six lots, sixty lots or 600 lots.

"No other nation has business men who advertise like they do in the United States. No other nation has gone ahead so rapidly.

"The powerful rays of publicity have made possible the selling of subdivisions on an unprecedented scale in Los Angeles. If advertising hadn't been employed in disposing of these lots, the assessor of our county couldn't say that after twelve months' interval he had to list more than 1000 additional tracts containing 80,000 lots.

"Advertising is a quick, convenient, direct way to bring things about. That's what every red blooded citizen of the United States craves, ginger, nerve, a crashing into resistance and the overcoming of all handicaps. That's what advertising provides—a means of producing instantaneous results, comparatively speaking. No better proof of representative American business push can be found than in the converting of acres of land into lots to be owned by satisfied individuals.

"The well known and proved principle of advertising that properly conducted exploitation really lessens the cost to the purchaser because it hastens the rapidity of turnover to the seller in such a way as to increase the volume of his business and give him the same profit with less outlay in the end, is to my mind borne out by Los Angeles experience. I believe that the speed of sales brings naturally a lower margin of profit. So much for the stimulation provided by legitimate advertising."

CONFERENCE CALLED ON BUSINESS

Chamber of Commerce of United States to Hold Divisional Meeting

SAN FRANCISCO, Jan. 12. — "We are looking forward to greeting a group of business men thoroughly representative of the west at the divisional conference of the Chamber of Commerce of the United States to be held in San Francisco January 29 and 30."

So writes Julius H. Barnes, president of the Chamber of Commerce of the United States, in a letter addressed to the business interests of the west. Barnes will personally be in attendance at this first regional conference to be held here, which will bring together business delegates of eleven states.

"Without question the subjects to be discussed are of more than passing interest," continues Barnes. "They are in fact of intense importance to the commercial and industrial interests of the western division and all business men should welcome this opportunity to express collectively their opinion.

Seeks Expression

"The administration of the national government will appreciate an expression given on this occasion as federal legislation on any of these subjects will affect directly the interests of the business men of the West."

Barnes himself stands out as one of America's greatest industrial leaders. During the war he served as president of the U. S. Food Administration Grain Cor-

VITAL TOPICS AT REALTY MEETING

National Association Will Discuss Many Subjects at Coming Session

Undertaking by the National Association of Real Estate Boards of a program involving the clarification of matters of real estate values, real estate utilization, rental condition, city building and rebuilding, real estate and general taxation, and the building up in real estate dealing of high business responsibility and far-seeing service to the community will be the matters of general importance to business development and to the development of bettered living conditions nationally that will come before the meeting of the national committee of the association to be held in Augusta, Ga., January 17-19.

Bringing together representatives from the 495 constituent real estate boards of the United States and Canada and representing in their membership of 20,000 not only real estate brokerage but the general interests of ownership in real property, the meeting, constituting practically the annual meeting of the organization, will be the principal gathering of real estate men to be held this year for the formulation of real estate policies and action. All realtors are invited to attend.

To Present Program

L. F. Eppich of Denver, president of the association, will present to the meeting the program for the association as recommended by the directors with the concurrence of both present and incoming officers. The program includes gathering a comprehensive

(Continued on Page 2)

Postal Receipts In December Set New U. S. Record

WASHINGTON, Jan. 12.—Postal receipts in December, 1923, were the highest in the history of the postoffice department, it is announced.

The aggregate receipts in fifty selected cities last month were $31,851,015, compared with $29,150,025 in December, 1922, an increase of 7.55 per cent.

Los Angeles led all other cities in the selected group with an increase of 22.43 per cent of business done during December, 1923, over the corresponding period in 1922. Indianapolis, Ind., was second with an increase of 17.08 and Louisville, Ky., and Nashville, Tenn., were tied for third place with percentage gains of 14.03.

BIG TOURIST TRAVEL

With three sections of the California Limited running out of Chicago for Los Angeles every day in January, and the other five transcontinental trains of the company carrying their full quota daily, the Santa Fe reports the tourist season the biggest for the time of year on record.

James B. Duffy, general passenger agent, says the heavy travel undoubtedly will keep up the balance of the winter and continue through the summer season. Every day during 1923 the California Limited was operated both ways in two sections, he said, and the business with the new year necessitates a third section of this train.

NO LICENSE, CLAIM

A former United States government official in Pasadena has been held for trial on the charge of selling real estate without a state license. He is a large property owner. It is charged that the defendant committed a felony when he entered into a deal with another man in Pasadena.

GLENDALE AGAIN LEADER OVER OTHER COMMUNITIES IN CONSTRUCTION WORK

Los Angeles, Long Beach, San Diego and Pasadena Only Ones to Have Greater Totals; Record Astounds Country

By H. THOMPSON RICH
Of The Evening News Staff.

Glendale stood fifth in building permits for the entire year of 1923, or fourth aside from Los Angeles. Exceeded only by that great metropolis and Long Beach, San Diego and Pasadena, Glendale finished the year ahead of Alhambra by nearly $3,000,000; ahead of Santa Monica by over $4,000,000; and $5,000,000 and more ahead of such cities as Santa Ana, Santa Barbara, Riverside, San Bernardino and Fullerton, while leading by nearly $9,000,000 the cities of Monrovia, Pomona, Compton, the Van Nuys district, Ontario and Bakersfield, none of whose permits for the year reached the $2,000,000 mark.

Such a record is more than phenomenal, it is sensational, astounding, and puts Glendale once more in a position unique among the cities of the world. Nowhere else in America, north or south, in Europe, Asia or Africa or the islands of the seas can such a record of municipal growth be found.

Pile Up Huge Total

And what did southern California, as a whole, do in the way of building, in the year just past? The leading thirty-two communities piled up a total of $320,000,000 in building operations, exceeding last year's wonderful total by over $100,000,000; and it is believed that a complete check of southern California building for 1923, including all unincorporated towns and areas, as well as the larger centers, would credit "south of Tehachapi" with well over a third of a billion dollars for the year.

The following table shows the amount of construction done by each of these thirty-two communities during 1923:

Los Angeles	$200,133,181
Long Beach	23,630,000
L. A. Harbor	13,000,000
San Diego	12,000,000
Pasadena	11,527,566
Glendale	10,047,694
Alhambra	7,250,830
Santa Ana	5,166,587
Santa Monica	5,934,151
Santa Barbara	4,175,964
Beverly Hills	3,891,136
Inglewood	2,954,453
Huntington Park	2,701,726
Riverside	2,511,112
Venice	2,505,858
Anaheim	2,500,000
San Bernardino	2,343,617
Burbank	2,220,088
Fullerton	2,100,836

(Continued on Page 3)

Have You Ever Seen GLEN OAKS?

Do You Know That An Environment Awaits You—and One That Means Everything to Your Happiness

And at less than one half the prices asked elsewhere in Glendale for property you would never consider comparable to

GLEN OAKS

The new Glen Oaks—Pasadena Boulevard now building means a phenomenal increase in values.

EVERY SNORT OF THE STEAM SHOVEL MEANS AN INCREASE!

You will be protected from the cold north winds

—

Wonderful canyons with thousands of oaks will charm

However, the Glen Oaks Syndicate is concerned primarily in erecting the ideal in Home Environment.

GLEN OAKS SYNDICATE WILL OPERATE A BUS LINE TO ELECTRIC CARS

Next to the Sewer Bonds, the Glen Oaks, Pasadena Boulevard, means more to the growth and future of Glendale than any other development

Drive out Verdugo Road to Sycamore Canyon Road to Sierra Street, then east to tract. Signs will guide you.

GLEN OAKS SYNDICATE

Motion Picture Producer Is Moving Spirit Behind New Town of Fernangeles

"The promotion and development of Fernangeles, the new city at the junction of Lankershim boulevard and San Fernando road, marks a new era of prosperity in the San Fernando Valley," says A. B. Giles, manager of the Hollywood Corporation. He goes on to state that the town-site is selling out rapidly, and that the salesmen of the corporation are enthusiastic over the number of business and residence lots already sold.

Differing vastly from other tracts, where only the lots are sold, and the new owners left to build their homes on their own resources, Fernangeles is offering to finance and build the home of anyone who will pay just a small amount down on their lot. This gives every home-lover the chance to live under his own roof-tree, and feel himself a responsible and worthy citizen of this great country.

Wonderful Climate

Another advantage of living in Fernangeles, as pointed out by Mr. Giles, is the wonderful climatic conditions existing in this section of the valley. Probably no other community in all of Southern California will enjoy more clement weather conditions all the year round, than here where stalwart mountains guard against fog in the winter, and send the gentle breezes from their cool tops to temper the warmth of summer days.

Fernangeles is the outcome of a dream of Cecil B. de Mille, famous motion picture producer. For nearly five years Mr. de Mille passed this spot almost daily and visualized this great tract built up into a modern town, with prosperous stores and business buildwhere Lankershim boulevard sweeps into San Fernando road. ings surrounded by the homes of happy families.

Today this dream is in a fair way of coming true. The contract has been let for the erection of six handsome stores and two general markets, to occupy the curve

Will Start Building

Houses will soon be springing up, bringing the visualization to actual reality, and Fernangeles will take her place as one of the centers of activity in the great valley. Shrewd buyers, aware of growing values as the town progresses, are getting in while the choice of lots is open. They realize that with the needs of nearly two thousand families already living in the immediate vicinity, to be cared for, the growth and prosperity of Fernangeles is assured from the start.

These people at present are forced to travel miles for their smallest household wants, and will readily bring their trade to the new city. Their dollars will succor the growth of this infant town, which in turn, as it grows, will enhance the value of all property within its vicinity.

It seems that wherever motion picture people place their interests, fortune smiles on that particular section, and Mr. de Mille and his colleagues are sparing no effort to bring their venture to a successful conclusion.

The San Fernando Valley is to be congratulated on the acquisition of this new town, and in the enterprise of the corporation which is doing so much for the future growth and enrichment of her broad lands.

Other Cities Studying Sewage Disposal Plan

Now that Glendale has solved its sewer problem other cities of Los Angeles county are considering the question, as witness the information printed in the Southwest Contractor and Builder:

"The city council of Long Beach has decided that it will be to the best interests of that city to be included in the proposed metropolitan sewer district which will include twenty communities located between Pasadena and Long Beach. The project would involve the construction of an outfall sewer twenty-six miles long with an outlet at an isolated point on the ocean near the Orange county line. Sewage would be carried more than one mile out into the sea. More than 200 equare miles are embraced in the territory that would be served. Five districts will be organized within this area, the first to include the towns of Compton, Watts, Huntington Park, South Gate and Lynwood. The other districts will be Pasadena and vicinity, Azusa and vicinity, Covina and vicinity and Pomona and surrounding communities.

OPENING SALE AT NEW SUBDIVISION

Cresta de Verdugo Lots to Be Placed on Market By Tract Owners

Cresta De Verdugo, announced as the last subdivision on Verdugo road between Colorado street and Los Angeles, offers about 75 beautiful view lots only five blocks from the 5-cent car line, the Jerome White company of Los Angeles being the licensed brokers handling the tract.

Jerome White, who heads the company that bears his name, is a pioneer subdivider of Southern California, having been engaged in this business for fifteen years. He declares that the values in this tract are the greatest he has ever offered.

To give Glendale buyers a special opportunity to take advantage of the remarkable values at Cresta De Verdugo, the subdividers announce a pre-opening sale Saturday, January 12, when beautiful sites for hillside bungalows can be obtained as low as $1250, with level 50 and 60 foot lots as low as $1500 and Verdugo road frontage from $2400 up for roomy lots.

Restrictions are said to be moderate, terms convenient and curbs, sidewalks, public utilities and street work paid. The tract is reached by going east on Colorado street or Broadway to Verdugo road and thence south to the Cresta De Verdugo tract office at 4401 Verdugo road.

REALTOR HONORED

D. B. London, one of the charter members and president of the Redondo Beach Realty Board, was elected councilman of his home city. He succeeds Louis Field. Mr. London is one of the best known realtors and property owners in the beach city.

SYNTHETIC MILK

Scientists at a Boston sanitarium have succeeded in making a synthetic milk from peanuts, oats and water.

New Unit of Landon Heights At La Crescenta Offered to Homeseekers In Verdugo Hills

This week-end will see the opening of Unit No. 2 of Landon Heights in beautiful La Crescenta, according to H. N. Landon, subdivider, with offices at 213 West Broadway, as well as on the tract at Prospect avenue, La Crescenta.

Sales in Landon Heights have been good and only a few lots are left in the original property which is close to schools, car line, stores, etc. Better view lots in the foothills, however, are to be found in Unit No. 2, and Mr. Landon is taking space in the development section today to invite the public out to his tract.

Landon Heights lots are priced right, with terms within the reach of all who desire a home in territory immediately contiguous to Glendale.

More Grande Vista

Mr. Landon also announces that the increased sales of Grande Vista in northwest Glendale, which is known as a high class, high-priced and highly restricted residential section, will cause him to subdivide the hillside homesite property extending into the Verdugo foothills.

Reservations are now being made for these beautiful view lots in Grande Vista where fine homes already have been built and others under way. The expansive view, as the tract name Grande Vista implies, the high altitude, the city improvements and the exclusiveness of a country estate close in makes the Landon subdivision most desirable.

VITAL TOPICS AT REALTY MEETING

Many Subjects on Program for National Gathering During Next Week

(Continued from Page 1)

body of real estate data and principles, developing real estate education, and advancing real estate development through board organization and through state and national legislation.

Directors of the association will meet with its officers its advisory board and the heads of its divisions and committees January 16 preceding and January 19 following the national committee meeting.

Backs Mellon Plan

The association's program for tax adjustment, federal and local, will be the keystone of its policies in matters of public concern. Charles T. Moffett of Minneapolis, chairman of the taxation committee, which has made a continuing study of tax incidence, will present the whole subject of taxation, in which real estate as a basic wealth in every community has a very vital concern.

Vigorous support of the entire 20,000 membership of the association is back of the Mellon plan of federal tax reduction, as action of the board of directors with the general support of constituent local boards has already indicated.

Present acute importance of the whole taxation question has brought to a head the association's sustained campaign against the crushing increase of taxation levies, against widespread and increasing escape from taxation of the larger incomes through refuge in exempt securities and against the present loading off upon real estate of a greatly disproportionate percentage of the weight of tax levies.

Realtor Advertising

A nation-wide plan for presentation to the public generally of the close reciprocal relationship between sound real estate investment and city development will be outlined in a report of the association's advertising committee. Ogden A. Confer of Minneapolis, chairman of the committee, will present the report.

A recommended series of advertisements for use of real estate boards, newspapers or individual real estate firms everywhere in the growing field of institutional advertising has been worked out by the committee and will be presented to the delegate body.

Specialized activities of each of the seven great divisions into which the association last year resolved itself for the carrying on of business research will have a prominent part in the discussions. Growth of the divisions has proceeded so rapidly in their one year of existence that it is planned to set up for the coming year a definite secretarial service and staff for each division, thus constituting them practically seven integral specialized national associations.

Divisions to Outline Plans

Hiram S. Cody of Chicago, chairman of the mortgage and finance division, will present the undertaking by that division of the maintenance of a sound normal direction of investment money into real estate securities. Irenaeus Shuler of Omaha, chairman of the home builders and subdividers division, will outline the plans of the division for national exchange of experience in the laying out, financing and sale of residential construction. Howard Whitcomb of Boston, chairman of the brokers division, will report the study of problems in business ethics and in business organization.

Louis B. Beardslee of Chicago, chairman of the industrial division, will project the undertaking of specialties in industrial property to work out through cooperation the problem of building up of the industrial areas of great cities. B. F. Faast of Eau Claire, Wis., chairman of the farm lands division, will forecast the entrance of scientific method into farm land dealing through the study of an acceptable basis for appraising the value of farm lands. Louis T. Orr of Chicago, chairman of the property management division, will report the investigations of management specialists. J. Soule Waterfield of Chicago, new chairman, will speak for the realtor-secretaries' division.

Education Program

Real estate education as it has been developed notably during the past year and as it looks forward to the coming of a professional status for the real estate broker and operator will be a large topic of the convention discussions.

Paul E. Stark of Madison, Wis., will outline the establishment through the association of a standard two-year course in real estate, already being widely adopted in schools throughout the United States, and the sketching of a four-year college course in real estate through co-operation of the association with heads of American universities and colleges.

He will present the plan of the association to have ready to offer in a few months a complete standardized correspondence course in real estate now in course of preparation for men in the business and men entering the busines who have no other access to professional preparation.

A campaign for development in every real estate board within the associatiton of an appraisal committee qualified to make expert and authoritative evaluations of real property is the plan to be brought forward by the association's appraisal committee. Paul C. Loeber, Chicago, will report for this committee.

Adoption of state real estate license laws for protection of the public from irresponsible operators and the working of such laws as they now exist in sixteen states and one Canadian province will be reported by Joseph K. Brittain of Chicago, chairman of the state license committee.

Committee Studies

Frank Ryan of Los Angeles will report for the committee on business ethics; Emerson W. Chaille of Indianapolis will report on city planning; L. L. Oeland of Madison, Wis., on the multiple listing plan for real estate boards; Bartholomew O'Toole of Chicago on Own Your Home expositions as sponsored by such boards; William E. Shannon of Washington, D. C., on realtor co-operation with the Federal Real Estate Board; H. R. Brigham of Boston on housing; R. R. Otis of Atlanta on establishment by realtors of uniform terms and commission rates; Byron R. Hastings of Omaha, Neb., on building and loan associations; John L. Weaver of Washington, D. C., on relations with the Chamber of Commerce of the United States, and H. H. Richardson of Jacksonville, Fla., on reinstatement of homeseekers' rates in the southeastern territory.

Among the organization business of importance that will come up for decision will be amendments to the constitution and by-laws providing for increase of membership dues to make possible the carrying out of the enlarged work which the association proposes to undertake and for a reciprocal provision with regard to membership between the association and the various state realtor organizations.

Realty Board Wins Magazine Publicity

Peter Hanson, president of the Glendale Realty board, is promised good publicity for this city in the next issue of the California Real Estate Magazine, edited by Glenn D. Willaman, managing director of the California Real Estate association, 226 Merchants' National Bank building, Los Angeles.

In addition to a story about the sewer bond victory scored by the local realty board, a picture of the "Ten Million Dollar Year" parade, and an article about the annual banquet of the board on January 15 are scheduled to appear.

Divisional Gathering of Big Business Men

(Continued from Page 1)

poration, and for his work in conserving the grain supplies in America that not only the American armies but those of her allies might be fed, he was decorated by both France and Belgium. He is president of the Barnes-Ames Company, wheat exporters, president of the McDougall-Duluth Company, and also of the Klearflax Linen Rug Company.

Among the important topics of the conference referred to by Barnes is that of foreign trade, a subject in which the Chamber of Commerce of the United States has been deeply interested since its inception. It has vigorously supported the movement to build up the department of foreign and domestic trade and to extend the number of commercial attaches abroad.

Acts As Arbitrator

The chamber has also done much in the field of arbitration between business men of the United States and foreign countries. It took the initiative in bringing about the organization of the International Chamber of Commerce with headquarters in Paris, and which now has affiliated with it some thirty or more nations, including the United States.

At the San Francisco conference especial attention will be devoted to the Pacific coast point of view of foreign trade with emphasis on trade relations between the United States and the Orient, Australia, and South America, as well as Europe. Other issues to be discussed in this connection will be those of increased cable service, the doubling of taxation of American business men in the Philippines and the proposed Chinese customs conference.

Charles E. Lee Gets C. of C. Secretaryship

Charles E. Lee, son of W. M. Lee of Lee Court, on Riverdale drive, who recently came to Southern California from Minneapolis, has been selected as secretary by the Placentia Chamber of Commerce. While Mr. Lee thinks Glendale is a good place to invest, his son says that work of developing another community like Glendale is paramount at Placentia.

Secretary E. F. Sanders of the Glendale Chamber has been invited to address the boosters' dinner to be given by the 200 members of the Placentia organization on Wednesday evening, February 6.

"Liquid Gold Flows Where Orange Is King," is the slogan adopted by the Placentia Chamber, says Mr. Lee.

CITY'S BUILDING RECORD ASTOUNDS

Glendale Finishes Fifth in Construction Work for Year Just Closed

(Continued from Page 1)

Monrovia	1,750,050
Pomona	1,695,846
Compton	1,681,492
Van Nuys district	1,452,009
Ontario	1,193,512
Bakersfield	1,180,000
Orange	924,412
South Gate	792,580
Lankershim	650,000
Manhattan Beach	633,814
Redlands	584,203
San Fernando	495,994
Upland	326,500

Picture what this construction record means to the great Pacific Southwest. Had all the construction been put into homes, at an average of $5000 each, it would have added 64,000 homes to the countryside. Had it been put into factories at an average cost of $50,000 and employing an average of twenty men each, it would have added 6.400 industrial plants and a new payroll of 128,000 men, earning, at an average of $40 each per week, total wages of $266,624,000 per year. And had it been put into twelve story buildings at an average of $1,000,000 each, it would have built a new city of 320 of these skyscrapers, or one every working day of the year.

Flood of Prosperity

Averaged as it was, between dwellings, factories and office buildings, the $320,000,000 of 1923 construction was absorbed into the very life stream of southern California prosperity, where it takes its place with the building of previous years in establishing this favored section of the United States as a Mecca that attracts the entire world in ever increasing numbers.

It is comforting to feel that you are a resident, and better still, a property owner, in such a favored section, particularly comforting to be a Glendalian and share in the pride that follows such a splendid achievement as a $10,000,000 building year. And yet, curiously discomforting would be the thought that you personally had no part in that great record, that you personally did not buy or build.

Next Progressive Step

With residence in a live city like Glendale goes a duty too. It is not sufficient simply to choose this city in which to live. One who lives in Glendale, should be sold on Glendale sufficiently to put his or her money to work here. Capital begets capital. Prosperity can continue and increase only as new investments are made.

Now that the sewer bonds have been swept into being by a tremendous majority, by the will of the 50,000 people who live here, the next step is to seize the opportunity that now exists, cut loose the hidden purse-strings and pour into the upbuilding of this city a flood of gold that will lift Glendale to a 1924 building pinnacle exceeding even the records of such cities as Pasadena and San Diego.

Nowhere else are opportunities now equal to those in Glendale. Outsiders are coming in with fortunes to invest. Let insiders reap some of the golden harvest too. Twenty million dollars for Glendale in 1924! It can be done! Let's do it!

Largest Apartment Hotel On Pacific Coast To Be Erected At Santa Monica

The increasing tension of daily business and social life in America has resulted in a growing demand for home living conditions where the individuality and comfort of a real home shall prevail but at the same time where the cares and responsibilities of house-keeping are reduced to a minimum.

This is the opinion of H. Gooding Field, president of the Shoreham Apartment Hotel Company, which is now completing plans for a large individually owned apartment hotel building to occupy an entire block at the corner of San Vincente boulevard and Ocean avenue on the Palisades at Santa Monica.

Whereas the last generation took pride in the large number of rooms included in the usual home, Mr. Field points out that the present generation abhors useless space and is insistent upon home conveniences with a view towards eliminating all possible work.

Largest On Coast

It is with this idea in mind that Mr. Field and his associates planned the Shoreham, which will be the largest apartment hotel ever built on the Pacific coast.

The Shoreham will be a Class A structure, fire and sound proof throughout, of eleven floors, with a ballroom and palm garden on the roof. The building will have a length of 325 feet and a depth of 107 feet. There will be a subway basement garage for the accommodation of 150 automobiles, and elevator service from the garage direct to every floor.

On the first floor, besides the lobby, hotel offices, gentlemen's club rooms and ladies' lounge, there will be twenty-two furnished housekeeping apartments available for rental to friends of the owners or the general public. On the nine floors of the building, from the third to the eleventh, there will be 186 apartment homes. These will be obtained only through the ownership of stock.

Liberal Service

Provisions are made for dining room, grill, specialty shops and tea rooms, while each owner will be provided liberal service. Besides the modern conveniences provided and the ownership of a permanent home, the owner likewise will have an investment that will yield him dividends in money as well as in comfort.

The park surrounding the Shoreham offers the greatest possibility for landscaping. Occupying a high point on the Palisades, the Shoreham will command a permanent view of the ocean and mountains and will prove an attractive anddition to the increasing number of beautiful homes and apartments dotting the "Riviera of America."

SAVE BEAUTY OF GLENOAKS TRACT

Nature's Glories to Be Kept Intact by Owners of Big Subdivision

Wise foresight on the part of Charles T. Tyron, Colonel Walter P. Story and John R. Powers, owners of Glen Oaks, where Glendale greets Pasadena, will save to the city and the state a beautiful tract especially rich in nature's handiwork, incomparable in southern California.

There will be no wanton destruction of trees. Huge beds of wild flowers, ferns and shrubs will not be uprooted at the mere whim of some purchaser of a homesite. These men, all of whom regard, and justly so, Glen Oaks as one of the spots where nature had made her last stand, will protect their ideals and dreams. True, many oaks will be destroyed to clear the way for the magnificent boulevard to be named after the district, which will connect Pasadena and Glendale, with no grade exceeding 7 per cent. But the few taken out now, and the ones necessarily removed on homesites, will not mar the general magnitude of this beauty spot. Rather it will lend a symmetry of planning that folks a short decade from now will recognize as the work of farsighted men.

Aside from the many advantages with which nature has endowed this garden of life, material things are also being well looked after. Shortly the city will begin construction on a 10,000,000-gallon water reservoir on a five-acre tract which the owners sold to Glendale at a very reasonable figure. At the present time a 100,000-gallon tank will look after the needs of the residents in the northeastern part of the city.

Community welfare also is considered. On the completion of the tennis courts and community clubhouse which Mr. Powers and his associates built at their own expense and presented to the city, a tournament will be held for followers of tennis, and a trophy, known as the Glen Oaks cup, will be presented to the winner. Picturesque bridle paths that wind in and out of leafy bowers will be an added attraction. The pure, cool spring water of this section will bubble forth from ornamental fountains.

A strange coincidence in regard to Glen Oaks is the fact that it lies in the center of three golf clubs—Annandale, Flintridge and Oakmont—all easily accessible to residents of this locality.

J. W. Altman, who recently constructed a home on a lot purchased in this subdivision, says the leaf mould is the richest he ever found. Although occupied but a short time, his home is now surrounded by a charming galaxy of flowers.

Glen Oaks is only five minutes' ride from Brand and Broadway. Drive out Verdugo road, follow the Sycamore Canyon road to Sierra avenue, then turn east along Sierra until you come to this fairest of retreats. You will see nature at her best within sound of the busy activities of life. You will be benefited by it.

BURTON HEIGHTS TO AWARD CAR

Studebaker Special Six and Beautiful Homesites Are Attraction

Burton Heights, advertised in yesterday's edition of The Glendale Evening News, will attract many lot buyers to La Crescenta tomorrow, it is predicted, as Twining & Myers and Wilson & Burton, owners and subdividers, are giving away a Studebaker special six touring car.

The beautiful La Crescenta valley with its health-giving climate and nearby hills are most attractive to the home-seeker, according to W. L. Twining, and he invites the public who are looking for a low-priced homesite to motor out there tomorrow, or go out to the end of the Glendale & Montrose car line, where salesmen will be on the tract to greet prospects.

Burton Heights tract is located on Pennsylvania avenue just below Michigan boulevard and boasts of all home conveniences.

SEEKS MISSING GIRL

SAN FRANCISCO, Jan. 12.—Declaring that his ward, Levenia Cook, 15, who he says is a member of a prominent Los Angeles family, has been missing since December 1, J. F. Rothwell of Los Angeles has appealed to San Francisco police to aid him in his search for the missing girl.

Pacific Southwest Sets Remarkable Building Record in Past 12 Months; Glendale Takes Place Among Leaders

A wonderful building record was piled up for the Paicfic Southwest in 1923. Official reports to Southwest Builder and Contractor from sixty-two cities in Southern California and Arizona, including Los Angeles, show permits issued with an estimated valuation of $342,296,742. Of these sixty-two cities six have no records for 1922. The remaining fifty-four report a total for that year of $212,866,088. Thirty-nine cities, including Los Angeles, reported for 1921 a total of $149,787,328. Prior to the World War a total of fifty millions for the entire Pacific Southwest was considered a splendid showing. No one even dreamed of the tremendous volume of building that has been recorded in the last three years.

Almost very city in the Pacific Southwest shared in the great building boom of 1923. Only seven of the sixty-two cities reporting have a smaller total than for 1922, and most of these show little recession in building activity. A few cities show gains of 100 per cent or more, and many show gains of more than 50 per cent.

Sixty-one cities outside Los Angeles report for 1923 a total of $142,163,561, as compared with $91,659,301 for fifty-three cities having records for 1922. Long Beach leads all the cities outside Los Angeles with a total of $23,697,830, which would have been a good showing for Los Angeles not many years ago. San Diego is second with a little over twelve millions, Pasadena third with only a half million less than San Diego. Glendale and Alhambra have been the wonder cities. Glendale was fourth with a little more than ten millions and Alhambra fifth with more than seven millions. Santa Monica, Santa Ana, Whittier, Beverly Hills, Inglewood, Huntington Park, South Pasadena, Riverside, Anaheim, Burbank, Torrance and Compton are among the other cities which have made surprising gains.

Following is a list of the cities reporting to Southwest Builder and Contractor with totals for 1923 and 1922:

	1923	1922
Los Angeles	$200,133,181	$121,206,787
Long Beach	23,697,830	14,041,419
San Diego	12,093,623	10,280,990
Pasadena	11,534,186	9,412,480
GLENDALE	**10,047,694**	**6,305,971**

Venice	2,484,708	1,115,835
	$342,296,742	$212,866,088

December, usually a slack month in building, rolled up the fourth largest monthly total of the year. Sixty cities in the Pacific Southwest, including Los Angeles, reported a total of $30,509,459 for December, 1923, as compared with $16,552,004 for the same month in 1922. Fifty-nine cities outside Los Angeles reported for December a total of $9,751,265, as compared with $7,596,407 for December a year ago. Long Beach and San Diego are the only cities reporting more than a million dollars' worth of building for the month. Glendale reported a little over eight hundred thousand, and Pasadena made the next best showing with a little over half a million dollars.

Following are the reports for each month during 1923, showing the number of cities reporting and the totals, including Los Angeles and with Los Angeles omitted :

	No. Cities	Includ. L. A.	L. A. Omitted
January	36	$19,664,102	$ 8,405,585
February	38	23,020,430	10,940,120
March	39	33,785,413	12,591,326
April	44	26,153,676	10,800,732
May	37	28,990,707	10,063,826
June	37	27,190,326	12,115,880

Third Unit of Edgemont Park Eagerly Bought By Keen Judges of Values

The third unit of Edgemont Park will have been sold out within thirty days, according to E. D. Hamlin of the ifrm of Hamlin & Hepburn, 203 West Broadway, owners and subdividers of the property. The home lovers of Glendale will then have lost the opportunity of sharing in the advantages and rapidly-increasing land values in this most remarkable of subdivisions. Something like a month ago this unit was thrown open to prospective home-owners. Today it is two-thirds sold out. Already fifteen homes have been started and a dozen others are being planned for early construction.

To the man who is looking for an ideal place to locate his home nest this should mean something. It should show him that, in addition to being a wonderful place for homes, it is a place where, on account of the building activity and other improvements that are going in, the lots are sure to experience a rapid increase in valuation. They simply cannot help mounting in value. Back up the improvements in this tract with the wonderful system of highways of which Edgemont is the center, and you have a combination that cannot help but prove financially profitable to the buyers in this tract. Those who are in a position to know predict that these lots will double in value within the next twelve months.

Tract Proves Marvel

Edgemont is proving a marvel to the realty fraternity of Southern California. About three months ago the first unit of this tract was placed on the market. Since that time more than 450 lots have been sold—Units 1 and 2 being entirely sold out. About sixty homes have been completed, with half that number in course of planning. The street work and utilities have been finished in Unit 1 and in Unit 2 they are being carried on as rapidly as possible.

The prices of the lots in Edgemont range from $550 up. They are being sold for $75 down and $15 per month—a figure that any family could afford in order to get away from the rent bill.

The easy-payment plan on the lumber for the homes that the owners of this property have worked out is proving a "life saver" to those wishing to own their own homes. Through an arrangement made with the Edgemont Lumber company, lumber for homes in this tract is sold for $50 down and $25 per month. This makes the initial cost of the lot and the house $125 with a monthly payment of $40. This easy-payment plan has shown the way to many rent payers—it has pointed the way of independence to dozens of ambitious families.

Help Many Families

"It is this easy-payment plan that has enabled us to start more than 500 families on the road to success," said Mr. Hepburn. "We delight in helping the man who is struggling to get ahead and to give a lift to the fellow who is down.

"Our tract possesses everything a home tract should have. It has scenery, location, schools, accessibility, water, gas, electricity, telephones, streets, sidewalks, curbs—everything, and we are selling the lots at 'let live' prices. We have proven that honest service, fair treatment, reasonable prices and the spirit of co-operation will surely win out."

There is still a chance for the home lover to start a dwelling at Edgemont. This tract is reached via Olive avenue in Burbank and Pass avenue at the Cahuenga avenue end. It lies between Burbank and Universal City.

1924 OUTLOOK GOOD

According to the viewpoint of Edward Chambers of Chicago, vice-president of the Santa Fe, and in charge of traffic, the year 1924 should prove the best from a business and transportation outlook. The Santa Fe official visits California and the coast several times yearly and manages to keep close contact with development in all the territory served by the company's lines.

taxpayer—whether he be a man whose income was derived chiefly from salary or wages, or from business, profession or other taxable sources—the taxpayer received both forms, and is expected to select the form that will meet his income requirements.

Personal Exemption

What personal exemptions are allowed?

The personal exemption for married persons whose net income in 1923 was $5,000 or less is $2,500. If the net income was in excess of $5,000 the exemption is $2,000. The exemption for single persons is $1,000. Whether married or single, the taxpayer is allowed a credit of $400 for each person dependent upon him for chief support, if such person is under 18 years of age or incapable of self-support because of being mentally or physically defective. The head of a family—"a person who actually supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relationship by marriage or by adoption"—is allowed the same exemptions as a married person.

When must I file my return?

Do it now and avoid the rush which begins February 1. It will save loss of time and inconvenience of standing in a long line of taxpayers waiting for their turn at the cashier's cage.

Pay only $200 down and move into Your Own Home!

Live In the New City of FERNANGELES

Where Lankershim Boulevard Merges Into San Fernando Road

We are building these delightful bungalows in FERNANGELES for those who want to get away from the closer-in crowded sections, out where the sun is always shining, where the air is fresh and sweet, and where there is plenty of room for the kiddies to romp and play.

This Is "Get Acquainted Week"

We want you to meet our Salesmen and let them tell you all about the new Wonder-City of FERNANGELES! Here is the address of our Salesman in your district—

Get away from the rent problem today! Select your 50x150-foot lot—pay $200 to $320 down—we will finish your home in about 60 days—then you move in and save rental money—NO SHACKS! Come out and live in FERNANGELES in a home of your own—a home designed and built by a master architect. Live in this new City, the product of the great mind of Cecil B. de Mille, the famous motion picture producer. Not only will you live here in health and happiness, but you will be growing up with a town where values will enormously increase!

It means, that instead of paying your good money out for rent receipts, you will be making it work for you, increasing year by year as the values of this property go ever upward.

Make your decision today! Act now under the impulse! Get in touch with the salesman who lives nearest you, and make the first stride towards independence of the landlord!

You owe it to yourself, your wife and the little ones!

FEDERAL OFFICER WRITES OF TAXES

Collector Goodcell Answers Questions Relative to Income Measure

(Continued from Page 1)

pally from salaries or wages and not more than $5,000 net each, use Form 1040-A. As you are living apart from your wife both of you are classed as single persons and entitled to a personal exemption of $1,000 each.

My income in 1923 came from salary and from rents on several houses I own. It amounted in all to $3,400. I am married. What form shall I use?

You should file on the larger Form 1040. Taxpayers, any part of whose income, regardless of the amount, is derived from business or profession, farming, sale or property or rents, must use this form.

Who must use Form 1040-A in making a return?

Form 1040-A must be used by the taxpayer whose net income, not in excess of $5,000, was derived chiefly from salaries and wages. It may also include interest received.

Who must use Form 1040?

Persons any part of whose income for 1923 was derived from business or profession, farming, sale of property, or rents, regardless of the amount of income, must use Form 1040. In all cases where net income was in excess of $5,000 this form must be used.

What form must the average salaried man or wage-earner use?

Form 1040-A, the small one, if the net income was $5,000 or less. This form covers income from salaries and wages and interest received. It meets the requirements of the average man or woman working on a salary or wage basis.

I am a stenographer, unmarried, and keep house and support my widowed mother. My salary was $2,100. Must I file?

Although you are entitled to a personal exemption of $2,500 as the head of a household, you must file a return. It will be non-taxable.

Must File Return

Who must file a return?

Every married person whose net income for 1923 was $2,000 or more, or whose gross income was $5,000 or more, and every single person whose net income was $1,000 or more, or whose gross income was $5,000 or more, must file a return. The fact that, by reason of personal exemption and credits, a person's income is not taxable does not nullify the requirement to file a return if the income equals or exceeds these specified amounts. Married persons who are separated are classed as single and must file returns if their net income is $1,000 or more.

Why were two forms, 1040-A and 1040, mailed to each taxpayer?

Forms for filing individual returns for income were sent to persons who filed returns for 1922. It being impossible to determine this year the form desired by the

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health, with Key to the Calories"

MY MOST EMBARRASSING MOMENT

Many of the daily papers conduct a column called "My Most Embarrassing Moment." Let us have some fun. There is no class of people who have more embarrassing moments than fat folks. Send me a brief account of yours. Sign a pen name if you like. For a starter here is mine—(of course you have divined before this that one reason I know so much about this subject is because I have been a member of the F. F. F. myself):

Some years ago when I was about 50 pounds overweight and prided myself that because I was tall and well proportioned I looked stately rather than fat, I was waiting on the third floor of an office building for the elevator to take me to the sixth floor.

I pressed the button and the car, which was rather full, stopped. No one got out and I got in. The operator shut the door and pushed the lever of the car. No response. Back and forth he pushed. Pushed he back and forth. Car did not quiver.

A fairly heavy, gracious gentleman said he would get out, and did so. Business of trying to get the car to go up again. But no results. Still another gracious gentleman volunteered to lighten the load, and he also got out. Did the car then go? It did not. By this time the occupants were smiling fully and beginning to give audible evidence of interested amusement. Blushing, but game, I said with a wan smile that I would get out.

The car shot up—to the accompaniment of imbecilic laughter, if the loud laugh does bespeak the vacant mind. It was embarrassing, rather. But it was invaluable. "Stately?" Hardly! I reduced.

* * *

It is highly important that while you diet to consume and dissolve your fat, you exercise to give tone to and strengthen your flabby muscles, to better oxygenate and accelerate the blood so that it can wash out the tissues, to stimulate the internal secretions which have perhaps been under-active, to invigorate the central nervous system, and to help break down the fat.

I have said that fully but not well. However, you get me? I mean that it is highly important to have some good vigorous exercise every day. Any system of reduction that does not build up the whole system and make one feel better while doing it, is not a good system.

The more you can exercise the better, but 10 to 11 minutes' of systematic vigorous exercise a day will do the work.

Any setting-up (the A. E. F. called them up-setting) exercises will do. The magazines and the daily papers frequently give good articles on exercising. Exercise to music is most enjoyable and those exercise records which are advertised are all good.

See your doctor if you are very fat; perhaps you should not exercise strenuously.

Begin gradually and increase your activity slowly, or you will suffer. Swimming is the best all-round exercise, but not all can avail themselves of that. Golf is excellent. Walking with a long, brisk stride is wonderfully good, but unfortunately a large number of overweight people have serious trouble with their feet. Flat feet are not at all uncommon among them. I shall talk of the mechanical devices for reducing in another article.

Send in your embarrassing moment!

Monday:—The Foundation for a Reducing Diet

My Dear Followers:—When sending for material which we offer you, please remember to enclose a stamped envelope bearing your full name and address. The pamphlet on reducing and gaining is the only one for which you must enclose four cents in stamps extra. Address your letters to me in care of this paper. Make them as brief as possible, not over 200 words, and type or write them legibly with ink. Please sign your name as evidence of good faith—we will not use it in any way. Remember it is impossible for me to diagnose for you or to answer you personally. I appreciate very much the beautiful letters you send me and regret it is impossible to give you individual advice. The questions you ask will be answered in the column as soon as possible, if they are of general interest. Don't forget the s. a. s. e. if you expect me to send you the information I have offered.

Daily Fashion Hint

Prepared Especially for The Glendale Evening News

REMARKABLY SMART TAILORED MODES

The indispensable tailored suit is indispensable because it can always find a new and interesting way of expressing its type. At the left it is shown suitable for development in serge, broadcloth, charmeen, etc., with a trimming of one of the smart new plaid materials. The jacket fastens at the side with a single button of immense size. Collar and cuffs may be self-material, if preferred. The skirt is attached to a bodice and has a plait at the back. Medium size requires 3¼ yards 54-inch material and ¾ yard lining for the bodice.

A coat that will be as smart four months hence, and even longer, as it is now, is pictured to the right. It may be carried out in broadcloth, fashona, velours, marvella, chinchilla cloth, or later in the spring one of the heavy cloth-backed silks or crepes. It is lapped in front and closed on the left side. The trimming of fur easily may be replaced by check velours, wide colorful braid, or any other material preferred. Medium size requires 3¼ yards 54-inch material.

First model: Pictorial Review jacket No. 1914. Sizes 16 to 20 years and 34 to 44 inches bust. Price 45 cents. Skirt No. 9873. Sizes 16 to 20 years and 34 to 48 inches bust. Price 30 cents.

Second model: Coat No. 1899. Sizes 16 to 20 years and 34 to 46 inches bust. Price 45 cents.

Beauty Chats

by Edna Kent Forbes

LITTLE THINGS

A very good astringent for the complexion, which is particularly useful to the girl whose face has a tendency to freckle, is as follows: Buy a half pint of emulsion of almonds from a chemist and add to it slowly three-quarters of a dram of tincture of benzoin. The chemists sometimes call this "simple tincture of benzoin." Put the emulsion into a bowl and add the tincture a few drops at a time, beating and stirring it in thoroughly. Keep in a bottle and rub over the face after it has been washed. It is cooling and delicious in the summer time if it is rubbed over the face after exposure to a hot sun.

One young girl told me that this not only cured summer freckles for her, but also prevented them. Her skin, however, reacted unusually well. While this is an excellent lotion, tending to make the skin fine grained and white, I do not think it will always prevent freckles.

Another simple astringent which is even better for an oily skin is made by adding tincture of benzoin to boiled water or plain rose water until you have a milky solution. This can be kept in bottles and rubbed over the face after it has been washed and rinsed.

There are two excellent treatments for large, oily pores around the nose. One is to coat the skin thickly with plain white laundry starch melted to the consistency of cream with cold water. This should be used after the face has been washed with hot water and soap, and should be left on for about half an hour, then rinsed off.

Another treatment is to buy powdered oatmeal, or oatmeal powder, as some druggists call it, and to use it by rubbing it into the pores of the nose after the skin has been washed with hot water. The skin must be wet and the tips of the fingers dipped first in the water and then in the powder. An extraordinary amount can be rubbed in. When it is rinsed out with hot water it will bring away with it a certain amount of the grease and dirt which has settled in the skin and enlarged the pores.

Rose V. S.: For the dandruff, massage hot oil into the scalp the night before shampooing. This will help the condition that causes the trouble and will always give temporary relief. A scalp that has this tendency, however, is in need of special treatment. Daily massage will often be all that is needed, or a treatment several times a week from the vibrator.

A good hair tonic included with either method, used several times each week, will hasten the scalp's recovery. There will be plenty of which is falling out now, just as soon as you tone up the scalp again.

O. M. W.: An oily skin is often the result of imperfect elimination. Try drinking several quarts of water during the day, and eat enough fruit or coarse grained cereals to keep the system well regulated. Too much starch or too much candy could be the cause of such trouble as yours.

All inquiries addressed to Miss Forbes, in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Who's Who in the Day's News

JOHN WILLIAM LIEB

The Edison medal for 1923, awarded by twenty-four members of the American Institute of Electrical Engineers for outstanding achievement in the field of electricity, has been presented to John William Lieb, of New York, vice-president of the New York Edison enterprises, for his work in development and operation of electric central stations for illumination and power.

JOHN W. LIEB

The honor given Mr. Lieb is one of the most distinguished among annual awards in the fields of science, the Edison medal having been won in past years by such eminent persons as George Westinghouse, Alexander Graham Bell, Nikola Tesla and Michael I. Pupin. Last year's winner was Robert A. Millikan. The award was founded by the Edison Medal Association, composed of associates and friends of the inventor.

Long With Edison Here

Mr. Lieb is sixty-three years old, was born in Newark, N. J., and received his M. E. degree in the Stevens Institute of Technology at Hoboken at the age of twenty. He holds the honorary degree of Doctor of Engineering from the Institute, awarded him two years ago. After one year of work in Cleveland he went to New York to join the Edison enterprises, and has been associated with them ever since.

His work quickly attracted the attention of Mr. Edison himself, and he was made assistant to the inventor in 1882. In November of that year he went to Italy to represent Mr. Edison in Milan in designing and installing the Milan central electric station. From 1893 to 1894 he acted as technical director of the Italian Edison Company—Societa Generale Italiana di Elettricitia Sistema Edison.

Active in War Industry

In 1894 he returned to New York, continuing with the various Edison organizations. He was president of the American Institute of Electrical Engineers in 1904-'05 and is past president of the National Electric Light Association, the Edison Pioneers and the New York Electrical Society.

During the war Mr. Lieb served as chairman of the national committee on gas and electric service, was adviser to the Federal, state and municipal fuel administrations, and was chairman of the joint fuel committee representing the National Public Utility Association.

FRED W. UPHAM

As treasurer of the National Republican Committee Fred W. Upham holds the purse strings of the G. O. P. body for the coming national nominating convention.

Upham has served as treasurer since February, 1918. He has been interested in Republican politics, however, for over thirty years. He served as delegate to G. O. P. conventions from Wisconsin as far back as 1892 and has served in a similar capacity at three conventions of 1908, 12 and 16. He also served as western treasurer for those conventions.

He was elected an alderman in Chicago in 1898 but soon resigned that post and became a member of the Cook county board of review.

He is a shrewd judge of human nature and is rated as a close student of politics. While he has been a Chicagoan since 1894 it was his suggestion to make the selection of Cleveland, as the coming convention site, unanimous when he saw that the Chicago boosters were outnumbered.

DAVID WINFIELD MULVANE

As chairman of the convention committee of the National Republican committee David W. Mulvane of Kansas is one of the busiest men in political circles these days. The recent selection of Cleveland as the site of the 1924 convention left Mulvane's work cut out for him. He not only had to arrange for Coolidge headquarters but for the quarters of the national committee, but also general details of the convention.

Mulvane served twelve years on the National G. O. P. body from 1900 on, and then, after a lapse of eight years was asked to serve again.

He is a lawyer by profession. He was born in Princeton, Ill., Jan. 4, 1862. He studied at Yale and was admitted to the bar in 1890. He took an active interest in politics in Kansas soon after settling there, serving on the Republican state central committee for years. His home and law offices are in Topeka, Kan.

St. Sophia, the great Mohammedan Mosque in Constantinople, was built as a Christian church 14 centures ago.

The average home-maker buys her furniture from one of three places: a furniture store, a house furnishings department of a department store, or a mail-order catalogue. But from whichever source she makes her purchases, she should keep these four things in mind; 1, Has the piece of furniture good lines and proportions? 2, Will it "go with" the furniture she already has? 3, Is it comfortable? 4, Can it be kept in good condition without much trouble?

Of course price is of prime importance; I assume that she will not even consider furniture beyond her pocketbook. But, with the wide variety of woods and styles carried by stores today, she will not have much trouble in finding pieces which come within her means.

Perhaps the least expensive furniture is golden oak. Its many coats of varnish are very objectionable to the woman who wishes dull surfaces and a general quiet tone to her room. But many a housekeeper has overcome this difficulty by buying inexpensive golden oak and then removing all its varnish with a commercial varnish-remover, staining the bare wood and waxing it until it has the legitimate finish of oak!

The heavy type of furniture called "Mission" or "Craftsman" is also generally inexpensive. This style looks especially well in a room which has a brick or concrete fireplace. It is easily cared for and has a certain restfulness about its straight lines and solid strength.

The simple painted furniture is particularly good for small rooms, where Mission would perhaps ap-year too heavy. Or in a city apartment, where sunshine is at a premium, it can be made to give a very gay and cheerful effect if painted in appropriate colors.

Wicker or willow furniture is favored by the majority of housewives because of the cozy appearance it gives to any room. It is not exorbitantly high in price (indeed, often extremely low-priced), and may be stained any color.

But, whatever furniture one buys, it is a good plan to think twice before paying for it or having it sent home. For furniture is a thing we have with us most of our life, when once purchased! We should not run the risk of having regrets. I believe that it is a good practice to go through a furniture store and then go home and think it over before making a final decision. Seeing so many sets and pieces is bewildering; and when we are putting out as much money as furniture costs today—we want a clear head and a decision reached only by sound and deliberate thinking.

All inquiries addressed to Miss Kirkman, in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use your full name, street number, and the name of your city and state.—The Editor.

Heart and Home Problems

By MRS. ELIZABETH THOMPSON

BASHFUL

Dear Mrs. Thompson: Can you tell me why any one will be on your mind day and night?

I have only spoken to a man regarding the time of day, but he watches me when he thinks I am not looking. I am very bashful. I have often tried to talk with him, but when I get near him it seems as if I cannot speak a word. I don't even pass the time of day any more, as I am so bashful I just cannot get up nerve enough ot do it.

I have found myself thinking of this man a great deal lately and I don't know if I should try to talk with him or not, or if he wants to talk to me. If not, why should he watch me all the time when he thinks I am not looking?

Please tell me how I should go about starting to talk to him. I have no way of meeting him through friends.

ONE IN LOVE.

It is quite easy to think constantly of one person, especially if you are lonesome and you do not have enough interests to fill your mind with other thoughts. After the habit of thinking of one person is formed, it is a little difficult to get away from such thoughts, but it can be done. You have been interested in the man of whom you speak to such an extent that you believe yourself to be in love with him, and through your imagination you have pictured him to be a creature of dreams and not the reality you meet on the street. Since you and he have greeted each other in passing, I see no reason why you should stop. Conquer your bashfulness sufficiently to speak and smile when you meet him. Do not, however, make an effort to talk unless he starts a conversation and walks along with you. The fact that you find him looking at you does not indicate anything in particular. Haven't you looked at people because you have found them interesting, but without any idea of becoming better acquainted? Do not raise your hopes too high, my friend, because it is quite probable the man does not think of you the least bit as you think of him.

* * *

FOUR YEARS HER SENIOR

Dear Mrs. Thompson: I have been going with a boy almost four years my senior. Do you think he is too old for me? I think an awful lot of him, but some people say he is not respectable and some say he is. He never said or did anything wrong before me. He is really the most mannerly boy I have ever been with. He is a good dancer and also a good church member.

I think he likes me by the way he acts. Do you think I should continue going with him?

Do you think a girl who is well-dressed and neat, can skate and dance, and tries to be polite and treat everyone the same, should always be popular?

MARY JANE.

The fact that the boy is four years older than you is no reason for giving him up. If he is not respectable, however, that is a different matter, and I would advise you to admit the fact to yourself and drop him. You can judge pretty well what kind of character he has and should be able to determine whether or not friendship with him will be advisable. Most girls of the type you have described are popular. There is no guarantee on popularity, and qualities which succeed in one case utterly fail in others.

A Turkish woman in theory is never supposed to uncover her hair or the back of her neck before men outside her own family or very intimate friends, according to the Moslem custom.

stamped and self-addressed envelope must be enclosed with the question. Be sure to use your full name, street number, and the name of your city and state.—The Editor.

Witherspoon's Preparation for PYORRHEA
A Newly Discovered Pyorrhea Remedy That Is Accomplishing Amazing Results.

It is a remedial agent that will allay and remove conditions that are unpleasant and painful. It is a powerful antiseptic and penetrant and will work its way into both the flesh tissues of the gums and the bone tissues of the roots of the teeth and the jaw bones. It removes the cause of the pus in both the gums and the teeth; it removes the inflammation and the astringent properties make the gums firm and assists nature in properly adjusting them back to the teeth.

It is a liquid as does not taste at all pleasant, but it was made to cure Pyorrhoea and not to drink. Wonderful results are noticed from the start. Scores of Amarillo people have used it and are now recommending it to their friends. Packed in only one size—8-ounce bottles and priced at $2.00.

If you are not satisfied at any time with results your druggist will refund your money. We do not want something for nothing. You must be satisfied. And we are sure Witherspoon's Preparation for Pyorrhoea will make good in your case. We do not hesitate in making you this liberal guarantee of satisfaction, for we want to see every victim of Pyorrhoea take advantage of this opportunity to be rid of the dread disease.

It is manufactured by the Spoon Laboratories, Denver, Colo., and is stocked by all the leading drug stores.

Druggists are authorized to return its price if results are not satisfactory.—Advertisement.

SPORTS

FRANKLINS DROP THREE STRAIGHT

Glendale's Cage Teams Hold Clean-Up Day With Ancient Rivals

By NEALE SOOY
Written for The Evening News

32-28; 30-14; 20-12.

Thus read the scores of the three Glendale Union High school basketball teams, the unlimited, 130 pounders, and 110s respectively, yesterday after the locals had celebrated a special clean-up afternoon on its old rivals, the Franklin tossers. The Class A and Class C games were fought over on the Kiteflyers' court, while the Class B fracas was played on the Dynamiters' floor.

Looking at the heavyweight score, 32 to 28, seems like a fairly safe count. But the reader who judges that will judge wrong. The score was tied at the end of the first quarter, Franklin held the long end of a 14-10 result at the end of the first half, they continued to hold that lead at the finish of the third quarter, 22-18, and it was not until in the last part of the game that the Red and Black were able to forge ahead and win. The score was 28 all with but seconds to go in the final frame, but two timely shots set the locals in their winning position.

Hardey was high point man, shoving the ball through the basket seven times from every position. He was by far the best player on the floor, especially in the shooting line. Elliott came second with five baskets, while Swaney and Hibbs popped in two apiece. Stein was high point man for the losers, scoring 10 points.

Snappy passes and long dribbles featured the game, aside from the accurate shooting. Glendale should have had more points, but the forwards seemed unable to sling the ball through the hoop at times.

The line-ups: Glendale—Hardey (14) and Elliott (10), forwards; Carver, center; Denny and Swaney (4), guards. Subs—Hibbs (4), Brucker and Fannon. Franklin—Long (6) and Stein (10), forwards; Gulatine (8) center; Reinhardt (2) and Hughes (2), guards. Subs—Hoffman.

Shooting Is Poor

The 130 pounders put up a good battle, but rotten shooting kept their score down. Each member of the team, excepting McAllister, shot at the hoop time after time, but hard luck or a poor eye seemed to camp on their trails. Beman was high point man, slinging in five baskets. Lovell shot four, Stearman, three, Muff two, andNeel, one. Savage was the one in highest standing for the Kiteflyers with three baskets. His long shots were the feature of the game.

Glendale was never in danger, although the visitors drew first blood. Several subs were given a chance to perform, which they all did. Beman, who substituted for Neel at center, completely showed the latter up, and if it wasn't for his inability to hold onto the ball, he would probably be on the first.

The line-ups: Glendale—Stearman (6) and Lovell (8) forwards; Neel (2), center; Muff (4) and McAllister, guards. Subs—Beman (10), Harrison, Heideman, C. Thompson, Hatch and Sturgess. Franklin—Boller and Hitch (4), forwards; Berryman (2), center; Thomason (2) and Nilsen, guards. Subs — Savage (6), Levine, Allen, Long, Leslie.

Fleaweights Win

The fleaweights also captured their bacon with a score of 20-12. Their main fault was the same one that the other two teams had—their inability to shoot well. Had they been able to put the ball through somewhat in comparison with the way they shot at the basket, the score would probably have been doubled.

Begg was the star for the pinweights, with Smith running him a close second. The former was responsible for 10 points, while his partner ran up 8. Mitchell shot one basket. Brown was high point man for the vanquished.

The line-ups: Glendale—Begg (10) and Smith (8), forwards; Mitchell (2), center; Killinger and Apsit, guards. Subs—Lovell, Steele. Franklin—Anderson and Brown (6) forwards; Cherry (2), center; Lloyd (4) and Van Vleck, guards. Subs—Leightner.

On the whole, all three coaches are well pleased with the showing made by the teams, except for their rank aim, and expect to have everything in fine shape for the first games with Citrus next Thursday for the Class B and C teams, and next Friday for the heavyweights.

FIGHT RESULTS

At NEW YORK—Sammy Mandell, of Rockford, Ill., and Jack Bernstein, Yonkers, fought fifteen rounds to a draw; Bud Taylor, Terre Haute, Ind., knocked out Frankie Jones, New York, twelfth round.

At COLUMBUS—Eddie O'Dowd Columbus, and Harry Gordon, New York, drew ten rounds.

At MINNEAPOLIS—Fred Fulton, Minneapolis, knocked out Tony Gorman, Omaha, second round. Warnie Smith, Oklahoma, shaded Charley Long, Omaha, ten rounds.

MEUSEL'S SCRATCH HIT WAS WORTH $60,000

By Wood Cowan

BOB MEUSEL
YANKEE'S LEFT FIELDER WHO WAS THE HERO OF THE WORLD SERIES THIS FALL.
THAT GUY MEUSEL ALWAYS LOOKS ASLEEP
WELL HE DIDN'T TAKE ANY NAPS DURING THE WORLD SERIES
BOB IS AN EASY GOING FELLOW, HIS QUIET MANNER OFTEN GIVES THE IMPRESSION THAT HE IS NOT GIVING HIS BEST
I'VE ALWAYS STOOD OVER .300 WITH MY BAT
.300
THERE'S A RUNNER TEN FEET OFF 1ST BASE. I'LL SHOW HIM THAT HE CAN'T TAKE LIBERTIES WITH MY ARM
LET McGRAW, THE MASTER MIND, WORK HIS SKULL ON THAT ONE
$60,000
HAS ONE OF THE GREATEST THROWING ARMS IN BASEBALL
WHEN MEUSEL CRACKED OUT A SCRATCH HIT THAT DROVE IN THE WINNING RUNS IN THE 6TH GAME, IT WAS WORTH JUST $60,000.00
WOOD COWAN

U. S. C. FIVE ARE HITTING STRIDE

Pre-Season Lethargy Goes As Basketeers Reveal Interest in Game

LOS ANGELES, Jan. 12.—Over the features of Les Turner, coach and friend of the University of Southern California basketball team, there now glimmers the first faint gleams of a new-born smile. There is but a trace of present pleasure, but, more than this, there is a hint of hope, an unmistakable sign of satisfaction.

It is evident that Coach Turner expects to put a pretty fair basketball team into the Pacific Coast conference race this season after all.

Interest Aroused

A week ago Turner would have told you that he did not have a chance. Possibly he has none now, but, with interest in the game at last aroused among the men who are out for the team, and with the start of the conference season less than a week in the offing, Turner feels that the situation is not quite as dark as he had feared it might be.

Hence the smiles. Hence, also, the banishing of the glooms at U. S. C.

Turner's early pessimism was justified. He had only a half-hearted turnout for basketball. A mere handful of men, none of them particularly interested in the game, a majority of them wishing that they were playing baseball or football. No rooting sections to spur them on, a Christmas vacation to take their minds away from the game.

"Strayed Sheep" Back

But there was a sudden change for the better. Following the vacation, the men came back with fresh energy, which they quickly directed upon the basketball floor. The "strayed sheep" came back to the fold, fell in line with the others, and showed that they were willing to learn, and lo, Turner had a basketball team almost overnight.

The Trojans go north to meet the Bears on January 18 and 19. A week later they play Stanford at Palo Alto, and then they will wait for these teams to come south, on February 19 and 30 and 12 and 13, respectively.

Turner's first-string line-up is Campbell and Boyer, forwards; Gerpheide center; Hawkins and Dorsey, guards, and Rice, alternate.

Caseys Play Ball at Home This Sunday

With the White Sox on the road the San Fernando Valley league will occupy the attention of local fans tomorrow when the Glendale K. C.'s tackle the San Fernando team at the White Sox park on San Fernando road.

Left Bacon will probably do the twirling for the locals. He has been going great guns lately. The Caseys turned back Hollywood last Sunday morning by a 7-2 score and are out to repeat tomorrow.

The game is called at 2:15.

APPROVE TAX PLAN

Realty boards of California are going on record in favor of the tax reduction plan proposed by Secretary of the Treasury Mellon. This plan will reduce gross taxation by $300,000,000 a year. Realtors also are supporting the Green amendment eliminating future issues of tax-exempt securities, of which there are now $54,000,000,000 worth held in this country. One-fifth of the wealth of the nation is declared to be held in tax-free paper.

LEGION BOWLERS LEADING LEAGUE

Win Three Straight Games in Match With K. C. No. 2; Odd Fellows Score

American Legion	20		10
K. of P.	17		13
Masons	16		14
K. C. No. 1.	16		14
Sciots	16		14
K. C. No. 2	15		15
Odd Fellows	10		20
Modern Woodmen	10		20

By winning three games from the K. C. No. 2 quintet at the Recreation alleys last night, the American Legion still shows the way in the local Fraternal bowling league.

In the second match, the K. C.'s No. 1 won two out of three from the Odd Fellows. Royls of the K. C. No. 1 team was high man of the evening with 214.

Monday evening in the Foothill league the Nisle Clothes Shop roll the Psenner Brothers' team.

VAUDEVILLE AND PICTURES SHOWN

Gateway Theatre Is Popular Center of Amusement for Glendalians

Glendale owes a debt to the Gateway theatre at 1721 South San Fernando boulevard. That popular playhouse, home of feature films and vaudeville, has an electric searchlight which plays over the entire San Fernando valley, inviting the public to come to Glendale and see the Gateway's picture program.

The searchlight, however, is only one of the Gateway's attractions. A free auto park, a smoking room and a special lounge for mothers and babes where the view of the silver sheet is unobstructed make the house most popular. A selection of the best features is available.

Located in the southern section of the city, the Gateway theatre is convenient to residents of the Atwater and Parkdale tracts, as well as Hollywood, while many people from Burbank attend this popular playhouse.

HEIR IS EXPECTED

ROME, Jan. 12.—Queen Elena departed today for Pinerolo, where her daughter, Princess Yolinda, is living. The princess, who was married a year ago to a cavalry officer, not of the nobility, is expected to become a mother soon.

'RAMBLIN' KID' IS FINE FILM FARE

Vaudeville Bill at Glendale Theatre Crowded With Comedy Talent

Hoot Gibson in "The Ramblin' Kid" at the Glendale theatre today is a knockout. It is one of the few western pictures the writer has "seen all through" and been glad therefor. Our interest was whetted, perhaps, by pictures of the Prescott Frontier Days celebration, while the horse race, the romance and other threads of the story make it ideal entertainment for all. We commend it to all who have red-blooded admiration for life as it was in the modern west.

Praiseworthy also is the current vaudeville offering which is featured by Bill and Blondy, comedy acrobats, who are stars in their line. Indeed, we laughed right out loud at their antics, and you will, too. Brown and Bailey are a team of colored boys who can sing and dance, and when they do their stuff you will applaud heartily.

Brown and Simons, not so Brown, make the most of their possibilities in a Swedish comedy skit with the old boy chortling a good song he confesses writing, entitled "Call Me Back, Old Pal of Mine." It gets over. Leigh and La Grace are jugglers with some new tricks and old ones which should be made more interesting, for they have likable personalities.

Florinne, an accordionist, opens the program satisfactorily. Two shows tonight at 7 and 9 at the Glendale theatre should see full houses.

Veterinary Suffers Temporary Paralysis

Dr. John M. Condon, who conducts a veterinary hospital at 632 South San Fernando road, is in the Glendale Reserach hospital here, suffering from temporary paralysis, according to his brother, Will Condon, of Swift & Co., Chicago, who was called west to attend him.

Bitten by a mad-dog a month ago, the veterinarian took a treatment in a Los Angeles laboratory as a preventive of rabies. It has affected his system to such an extent that a consultation was held yesterday and his recovery will take a long time, it is feared.

One of Dr. Condon's associates is conducting his veterinary practice.

$10 Cash Prize for Use of Good English

In order to encourage the use of good English the high school English department has arranged a plan by which a senior who has the best command of the art of speech will receive a prize of $10 in cash which is to be awarded in May at the time of the annual oratorical contest. Candidates in this contest must have had at least two years of work in the Glendale Union High school. Each member of the faculty who has students in the senior class is to nominate the candidates by March 1st. The final selection will be made by the cabinet, English department, and the office.

Jim Jeffries is going to attempt to make a heavyweight champion of Luis Firpo. All the Argentine gent needs, it is said, is a good left hand. But the woods are full of those birds.

STUDENT BODY'S ELECTION JAN. 23

Many Candidates in Field at Glendale High for Cabinet Offices

Interest of the Glendale Union high school is now centered on the annual student body election to be held January 23. Many candidates are in the field, and the rivalry, while friendly, is decidedly intense.

A large number of petitions are being circulated, among them being three for Ronald West, Arden Gingery and Howard Elliott for president. For secretary of assemblies Charlotte Busby, Horace Anderson and Loren Scoville are in the field. The girl members of the student body are circulating petitions for Emma Laura Cooper and Gwenllian Warner for president.

Paul E. Webb of the faculty has nominated Mary Jo Phillips and Donas Sample for the office of secretary of assemblies. Miss Corry has nominated Jack Finch and Paul Cunningham for secretary of debating.

Other Nominations

J. Rhea Baker, head of the commercial department, has placed in nomination Aldeane Gillies and Erma Garber for secretary of state; Spencer Jewell and Grace Miller for secretary of finance.

Miss Shattuck has nominated Nadine King and Marian Hill for secretary of girls' athletics and Coach Hayhurst has nominated Ernest Swaney and Erven Jensen for the same position in regard to boys' athletics.

It is expected that the race for the office of student body president will be very close.

Eating Bit of Pie Raises Legal Point

Does the eating of a piece of home-made mince pie in the kitchen of a house that is being appraised constitute such an "interest in the premises" on the part of a member of a real estate board appraisal committee as would preclude that member from signing the appraisal as a disinterested party? The question comes to the National Association of Real Estate Boards from the Minneapolis Real Estate Board, where a member of that board's champion appraisal committee is under a cloud—a mince pie cloud. In consideration of the committee's year record of making appraisals totaling over nine and a half million of dollars and resulting in turning into the board's treasury of fees amounting to slightly over $10,000, the name of the committeeman is withheld. The board's attorney has been asked for a ruling.

REAL ESTATE SCHOOLS

Real estate organizations thorughout the National Association of Real Estate Boards and groups of men anywhere interested in preparing for real estate practice will be enabled readily to organize real estate schools of their own through a pamphlet outlining an educational program for real estate boards which has just been prepared by the National association. The pamphlet was sent out to secretaries of the association's 495 constituent boards this week.

Boards are urged by the associatiton to organize classes at once so that the series of studies as outlined may be completed before the coming on of the spring peak of market activity.

FIRPO AND WILLS MAY HOLD BOUT

Winner to Take on Jack Dempsey, Is Plan of Promoter Rickard

By DAVIS J. WALSH
For International News Service.

NEW YORK, Jan. 12.—With the laudable idea of killing two birds with one box office, Tex Rickard was working on a proposition today where Luis Firpo and Harry Wills were to meet for the honor and glory of a match with Jack Dempsey—and the gate receipts. The worthy Mr. Rickard's idea is to have Luis and Harry frolic before the multitude on July 4, and send the winner against Dempsey on Labor Day.

This program would provide three separate and distinct box office totals for Rickard and only two for Dempsey. Mr. Rickard will certainly have to explain that one to Jack Kearns, Mr. Dempsey's man of business.

However, the promoter admitted he had deployed into a conference with Paddy Mullins, manager of Wills, and that everything was sweet or, at least, not altogether sour. Mullins, it seems, has agreed to have Wills step out with Firpo provided he can be convinced that a Dempsey-Wills project lacks official favor in this state.

Ready and Willing

"Wills is ready to meet Firpo," he said today, "but I stick to my old statement that he is after a match with Dempsey first and foremost. If you can convince me that the bout is not possible, I will sign for Wills to meet Firpo.'

Among boxing men of practical exeprience, this statement is regarded as being tantamount to the assurance that Wills and Firpo will mingle. The bout would draw a tremendous rocewd at the Polo grounds.

SHOW GOOD INCREASE

LOS ANGELES, Jan. 12.—For the eleven months of the year 1923, including November, the Santa Fe system lines showed a gross operating revenue amounting to $218,771,981, an increase of $16,324,211 over the corresponding period in 1922. The net operating revenues were $42,878,033, an increase of $8,113,000 over the eleven months in 1922.

The operating expenses for the same period were $139,175,259, an increase of $7,495,404 over the preceding year period. The tax accruals for the last eleven months amounted to $17,676,642, an increase of $1,457,652 over that period in 1922.

HUGE TOTAL FOR COAST BUILDING

Heavy Increase Over Record For 1922; Glendale Is Among Leaders

SAN FRANCISCO, Jan. 12.—With a grand total of $492,049,908 in building permits issued during 1923 in fifty-four cities of the Pacific coast states, an increase of more than 38 per cent in building activities is shown for the year just ended over the total figures of these cities for 1922, according to figures contained in the Pacific Coast section of the National Monthly Building Survey of S. W. Straus & Co., issued today.

The December grand total, $41,545,570, for these fifty-four cities included in the survey is 51 per cent greater than the December total for 1922, and shows a 15-per-cent gain over November of 1923.

Make Great Gains

Utah, with four cities reporting, showed the greatest relative annual gain, 53 per cent, while California, with thirty-five cities reporting, came second, with a gain of 42 per cent over 1922. Washington gained 20 per cent, Oregon 17 per cent, Arizona 14 per cent over the previous year. The annual gains of the larger cities are: Los Angeles, 56 per cent; San Francisco, 3 per cent; Portland, 11 per cent; Seattle, 16 per cent; Salt Lake, 34 per cent; Long Beach, 68 per cent; Oakland, 12 per cent, and San Diego, 21 per cent.

This year's total for Los Angeles, $200,133,181, is 40 per cent of the grand total from the fifty-four cities in the survey. California's total, $414,887,500, is 84 per cent of the whole. Washington, Oregon and Utah reported December totals smaller than those of November, while California and Arizona showed substantial gains for the closing month of the year.

Glendale Is Fifth

The city of Glendale, Calif., stood fifth in building permits for the entire year of 1923 in Southern California, or fourth, aside from Los Angeles. Glendale finished this year ahead of Santa Monica, Alhambra, Santa Ana, Santa Barbara, Riverside, San Bernardino and like communities.

The total for Glendale's 1923 building was $10,047,000. In southern California it was led only by Los Angeles, Long Beach, San Diego and Pasadena.

MARYGOLD TRACT REPORTS 30 SALES

Magnolia Boulevard Lots in Burbank Find Large Demand

Since the opening of Marygold's Magnolia Boulevard tract, Burbank, last Sunday, thirty sales have been made. The problem of securing desirable property for home building at a moderate price is getting increasingly difficult for the average family whose income is more or less limited.

The location of the Marygold ranch in the city of Burbank where industrial activity is great at present, has long been looked upon as desirable residence and business property. It was not until very recently, however, that George S. Marygold could be induced to subdivide it.

Only 62 Acres

As there are but sixty-two acres in the tract, and as some 2,000 feet of boulevard property has been reserved for business locations, there are but a limited number of home sites available. The sales agents expected it would take several months to sell the property but with the very active demand this past week it now seems that the entire tract will be closed out in record time.

Arrangements have been made to assist home-builders in financing their houses and as the property is owned outright by Mr. Marygold every purchaser gets his deed to his lot as soon as he has made his first payment. This element of having no contracts, and no red tape with a deed to his lot as soon as he makes his purchase has a strong appeal to buyers.

With the phenomenal growth of Burbank, which, according to their Chamber of Commerce, has increased in population some 291 per cent in the past two years, property in the Marygold Magnolia Tract, Burbank, should prove desirable whether secured for home, business or speculative rise in values.

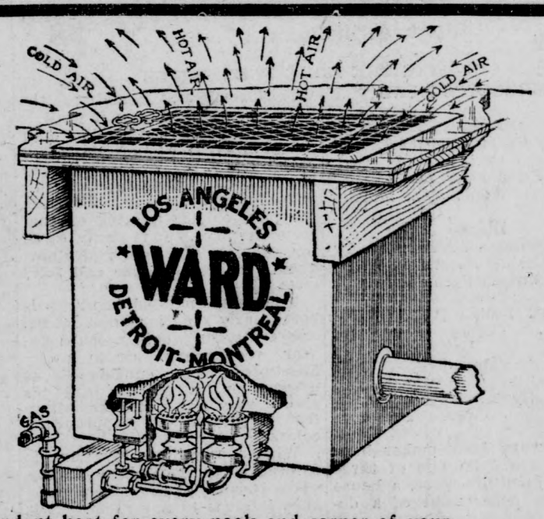
BUY REALTY NOW

The winter months are advantageous months for real estate buying from an investment viewpoint, the National Association of Real Estate Boards points out to the general investment public. During the winter period demand for residences is greatly lessened and persons wishing to sell often offer corresponding concessions in prices and terms. January is therefore a month of investment opportunity.

An almost unfailing advance in real estate prices marks the arrival of spring, men who are familiar with seasonal fluctuations in the real estate market observe.

HEAT FOR WINTER

A Ward Sealed 2-Burner *Gas Floor Furnace*



Supplies abundant heat for every nook and corner of your Bank, Club, School, Church or Cafe INSTANTLY

Will Heat 3 to 5 Rooms in a Jiffy

WARD FURNACES ARE SAFE. They have no odor, no carbon dioxide, takes no air from the rooms, and burner combustion is taken from the outside. Thus you have only NATURAL, HEALTHFUL HEAT.

Its economy of gas will pay for itself in short order.
